

# Some of the ways to identify an M6X knock-off imposter

IMPOSTER: "OFF" position on outer edge

IMPOSTER: Straight letter, small x M6X toward backplate

INSIGHT: "ON" position on outer edge

INSIGHT: Leaning forward Letters (italicized?) M6X toward bezel

IMPOSTER: Bezel and reflector are separate. Spring on end of reflector.

INSIGHT: Bezel and reflector in one. Spring around bulb

IMPOSTER: Remote Jack looks like a DC adapter jack with pin in the middle

INSIGHT: Remote Jack is typical Insight – 2 outer rings – no pin in middle.

IMPOSTER: Bumpy coating for reflector. Brass laser aperture

INSIGHT: Smooth shiny coat for reflector. Dark metal laser aperture.

IMPOSTER: Lined pattern bezel

IMPOSTER: Incorrect spelling of Londonderry

INSIGHT: Cross pattern bezel

INSIGHT: Insight Logo in large print
