- Chapter 7: Miscellaneous

1- Introduction

Hello, and welcome to the Runescape Free Membership Guide. In this guide I will basically be explaining how to get free membership by getting a UGG (Ultimate Game Card) code through a website called prizerebel for free. Throughout this guide I will be telling you which tools you need to obtain to speed up the process of getting points, remember, each point is equal to a US Dollar! I will also be telling you which ads you should do and shouldn't do, and much more. All I ask of you is to sign up to PrizeRebel using my referral link (by using the link that I give you to go on the website) in return. By doing this you are supporting me, you may also donate to me via PayPal using the official website for this guide. This guide is very simple to use, show it to your friends and everyone! Also e-mail me to virtualocd@gmail.com if you have any questions about the guide. I will read every question carefully, and will try to answer it as best as I can. I hope you will enjoy reading this guide, and it will help you with free membership to the best online mmorpg ever made; Runescape.

2- Signing up to PrizeRebel

Alright, so first of all you of course need to sign up to prizerebel; a system where you fill out ads for points, 10 points = 1 month of RuneScape and FunOrb membership. So if you would kindly use the link - <http://tinyurl.com/rsmember> to sign up to prizerebel. Afterwards you may use the official website prizerebel.com. Anyways to sign up you basically click either the signup link on the left or the picture "Sign Up" with the arrow (Any of the 3 pictures link to the signup form anyways). Now for this website you will need a spam e-mail where all the ads will send you an e-mail, and also a good fake identity, make a fake first name and last name for yourself that you will never forget and will use for all the PrizeRebel ads. Okay, now for the spam e-mail, I personally like Gmail, go to gmail.com and click the "Sign Up for Gmail link, create an e-mail account, and use this e-mail account for all the ads you will be filling out. Anyways, sign up to PrizeRebel with that e-mail and remember to use a good password, 7+ characters recommended. Your e-mail will be your prizerebel account, and your only account because if the same ip has registered 2 accounts it's an automatic ban, so be careful to not create any other accounts, unless you change your ip and if you do change your ip and make a new one use <http://tinyurl.com/rsmember> to support me for writing this guide, and if you support I will be very thankful, and I will write more free guides for Runescape maybe, who knows. Anyways you have signed up for PrizeRebel, but it is very hard to do everything (the whole system of filling out ads) with the human hand, you now need tools.

3- Downloading the tools

The most important and efficient tool is RoboForm you may download it at http://www.download.com/RoboForm/3000-2092_4-10037672.html or just simply go to download.com and search “RoboForm” choosing the latest version and right now it is 6.9.91 I believe. Download and install RoboForm, and use it as a toolbar on your browser. To set it up basically go to identities and set the spam e-mail, your fake name, birthday, number, etc. there that you will use for your whole time on PrizeRebel; of course you may use your real identities if you like. Now every time your on a page with a form RoboForm will either autofill or ask to auto-fill information and it will save a lot of time for you. For more guides on RoboForm just search “roboform prizerebel” on youtube if a video guide on this tool is easier for you. Now the secondary tool that you should use, but isn't that important, but at the same time is very handy is Ccleaner. Ccleaner is used to clear cookies from all internet browsers of yours automatically (firefox and/or google chrome recommended, Opera is a no). Use this tool every time you finish doing an ad, it will help your points show, of course close all browsers and then use it. Because sometimes your new points don't show up and clearing your cookies then waiting about half an hour will help. Download Ccleaner here- http://www.filehippo.com/download_ccleaner/ by clicking on “Download Latest Version” on the link that I gave you. Install it, and walla you got all the tools you basically need that will help you on free runescape membership.

4- Earning Points

Luke, I am your father. 'kay hehe, now you are ready to earn points on PrizeRebel, do this by clicking the “view available offers” link on the left side of the site (the menu/navigation). You may fill out an ad by clicking on “Click Here To Complete This Offer” on the ad you like. But before you even plan on doing an ad, read the instructions with requirements for it. According do these instructions you will know how many pages to do and when to stop, how much is needed/enough for you to earn the points, and sometimes it says when you will get your points (Maximum is 2-3 days, most ads instantly give you points after you clear cookies and wait half an hour). Now you shouldn't do ads that tell you to complete the first 12-14 or 20 pages to get to a vertical list, etc. Those ads are hard to do and have a whole system, and from my experience you usually don't get points from those. Here are some ads recommended that work 100% and use these when you start:

GroupLotto

Your Free Surveys

Prize America

ArcaMax - Recipes

Celebrity Quiz

The Superhero Quiz

Predicto

Global Survey Group

CoolSavings

Home Depot - Moving In

Quiz Rocket - IQ Test

Pirate or Ninja

Online Customer Survey

Memolink

CHT Flomax

These are some of the ads that I did and they worked fine for me, my favorite ones are the

quizzes they are very easy and quick in my opinion, you basically have to do a quiz, for the choiceboxes just keep clicking TAB and the DOWN arrow key repeatedly, then you have to fill out the sponsors in which you just say no to every sponsor except one, click next, click no there and hit submit/next. Go through all this until you reach the quiz results, that's when you know that you are done, and the points for it is pretty good (for the quizzes RoboForm is not needed). The other ads however, need RoboForm to automatically fill out information, do all kinds of ads and get better at it, and keep doing them until you reach 10 points. Should take you 3 days maximum, average of 2 days, and minimum 1 day. When you have gained 10 points it is time to claim your 1-month membership to Jagex's mmorpg Runescape and game website - FunOrb for a whole month (31 days). Onto to the next very short chapter!

5- Claiming your membership

You have earned 10 points or more and want to claim your Runescape membership now. This is very easy just click on “View Available Prizes” on the site navigation/menu and go to page 3 for an Ultimate Game Card, you may also buy just Runescape Membership on page 4 but the Ultimate Game Card is recommended as it delivers faster, and it is not only for Runescape but on a FunOrb membership as well together, and works on lots of other games too. Claim the prize by clicking on the link “Click here to claim this prize”, then it will ask you if your sure you wish to claim that prize. Click on OK. In 1 - 2 and ½ days a game code will be delivered to your spam gmail account or the e-mail you used for PrizeRebel. To find the e-mail with the code just search your e-mail “prizerebel”. They will give you a code with dashes and numbers which you will use on the Runescape official website to get instant membership to Runescape and Funorb!

6- Upgrading your account

You received your \$10 ultimate game card code and now want to upgrade your Runescape + Funorb account. Do this by going to the official website, then going to account, upgrade your account. Login and select paybycash, then ultimate game card, put in a fake address, name, etc. on the form they give you, don't forget to select Runescape + Funorb membership which is \$9.99, and finally paste your ugg code on there. You will instantly become a member and Runescape will send an e-mail to the e-mail address that you gave them. You will get a "Congratulations" message on your game inbox for both Funorb and Runescape, and I truly congratulate you for a free month of game membership! You could do this every month, and when you run out of ads, you may use referrals. If you use a different computer or change your IP Address you can do all the ads that worked all over again for an easy 10 points. Hope you have fun with membership and obtain all the best items.

7- Miscellaneous

With runescape membership you can access to minigames, member quests, member items, extra slots in Grand Exchange, more npcs (dragons and bosses, and better exp monsters), etc. I hope you will have fun, some good skills to train are slayer and fletching which are both very useful, and help with money. Woodcutting will be faster with the member's "Dragon Axe". Hopefully you will have fun and will spread my referral link - <http://tinyurl.com/rsmember> to everyone you know for showing you this guide. The only thing you have to use the referral link for is just to sign up, so hopefully you will. I hope this guide has been helpful to you; peace out ;-)
