Our People

We have worked very hard to create an attentive, well-organized team that stands ready to assist with any merchandising or display needs. We collaborate to provide the products needed in the way needed, both accurately and expeditiously. Our team has a comprehensive knowledge of the products in addition to being a reliable resource in the Point of Purchase Industry. We provide cost effective solutions for all P.O.P. projects.

We have the resources to locate products or custom design products in-house. Our staff provides consultation on products and options to fit all budgets. Please contact us at: **1-800-367-5653** or e-mail **info@merchinv. com**

Merchandise, and Signage shown with MII products is for demonstration purposes only, no endorsement is implied.

Our History

The evolution of Merchandising Inventives, Inc. (MII) began in Chicago in 1946 when Mr. Sol Berger, the founder of Merchandising Inventives, Inc. gained National and International recognition with his "Display Mobiles", the first free-motion hanging displays ever used in retail stores. Mr. Berger pioneered the idea of utilizing the ceiling of the retail store as an important facet of advertising. Mr. Berger's ingenious P.O.P. advertising ideas were recognized by POPAI when he was inducted into the "P.O.P. Hall of Fame" in 1999.

Even today, advertisers who are searching for creative placement of their in-store display promotions are realizing what an integral part the ceiling plays in their campaigns.

Sol Berger Founder of Merchandising Inventives 1964

Our Product & Services

Our Product Line:
We carry in-stock for quick delivery: Sign Holders, Corrugated Displays, Literature Holders, Shelf Management Systems, Display Hardware, Ceiling Display Systems, Product Merchandisers and Display Hooks. We offer same-day shipping for most in-stock items.

Assembly & Fulfillment:
Because we have components and fulfillment services all in one place, we can provide greater flexibility and prompt turn around time in solving project needs.

Acrylic Display Fabrication:
A knowledgeable resource from project concept and design through prototype and production.

Graphic Design:
We are an excellent resource for: P.O.P Display Graphics, Sale Literature, Advertising, Corporate Identity, Collateral Design, Catalogs, User Instructions, and Poster Design.

Our Commitment

We have established a proven reputation that demonstrates we are completely dedicated to being the very best resource for all retail merchandising supply needs.

DISPLAY IDEAS

We have created the Design Idea section to assist with answering some of the most frequently asked questions received by our customer service department. We have presented this section in a format that can help quickly determine the type of product and/or application needed for a specific marketing project.

DISPLAY IDEAS

What are the different ways I can use MII's line of Mobile Display Kits?

Examples:

Megarama® Pole Display

Materials Needed:
• Megarama® (8600MEG)
• Display Motor (8600MO)
• 1-3/4" O.D. Litho Pole
• Plastic Base or Wire Feet
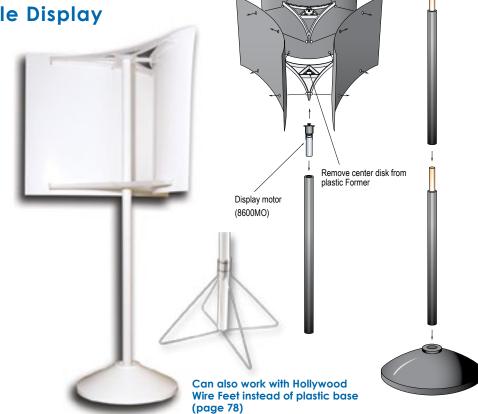

Connect the separated pole and insert into plastic base. Insert display motor as shown. Cut out middle of bottom Megarama® Former.

Fasten panels to the Megarama® and slip over motor and pole to allow the middle of top Former to rest on the motor.

Refer to page 13 for instructions for assembly of a Megarama and similar products.

Plastic Formers support 3-panels from 30" to 60" wide.

Remove center disk from plastic Former

Display motor (8600MO)

Can also work with Hollywood Wire Feet instead of plastic base (page 78)

Mini-Triarama®
Versa-Mount Pole Display

Materials Needed:
• Mini-Triarama® (8600M)
• 13/16" I.D. Litho Pole
• Versa-Mount Base Plate, Peg Clip, or Rail Clip

Insert Versa-mount into litho pole as shown. Pop out disk in the middle of the bottom of the Mini-Triarama® Former.
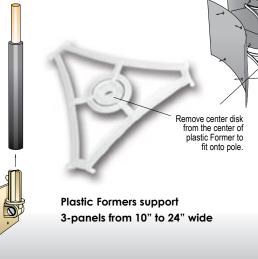

Fasten panels to Mini-Triarama® and slip pole over to allow the Formers to rest on the top of the pole.

Shown in Illustration

Remove center disk from the center of plastic Former to fit onto pole.

Plastic Formers support 3-panels from 10" to 24" wide

Refer to page 13 for instructions for assembly of a Mini-Triarama and similar products.
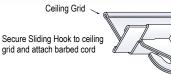

Motorized Quadrama® Ceiling Display

Materials Needed:
- Quadrama® (8602)
- Sliding Hook (7510L & 7501R)
- Display Motor (8600MO-1)

Fasten panels to Quadrama® Formers. Connect bail clip that comes with motor to top of Quadrama® Former.
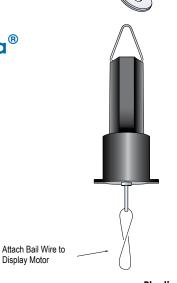

Connect other side of bail clip to top of motor. Attach V-clip that comes with motor to the bottom part of motor.
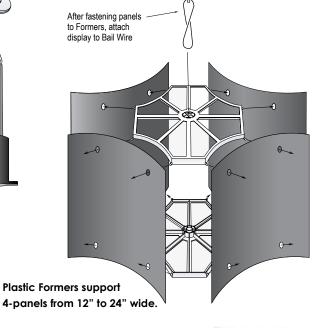

Hang display by attaching V-clip to sliding hook attached to ceiling panel.

Refer to page 13 for instructions for assembly of a Triarama and similar products.
Quadrama®   pg. 12
Sliding Hook   pg. 20
Display Motor pg. 83

Batteries Not Included

Ceiling Grid

Secure Sliding Hook to ceiling grid and attach barbed cord

After fastening panels to Formers, attach display to Bail Wire

Attach Bail Wire to Display Motor

Plastic Formers support 4-panels from 12" to 24" wide.

8600MO-1 Can be used to give motion to any of the Hanging ceiling displays

Mini-Triarama® Display

Materials Needed:
- Mini-Triarama® (8600M)
- Kit includes: Mini Twist-On (7206W) and Hook & Cord™ (7006W)
- Telescoping Pole (7203B)

Fasten Panels to Mini-Triarama® Formers. Secure hanging cord on Mini Twist-On® to the attachment point in top of Former. Insert Mini Twist-On® into telescoping pole socket. Lift, align and twist onto ceiling channel.

Refer to page 13 for instructions for assembly of Mini-Triarama and similar products.
Mini-Triarama®   pg. 12
Mini Twist-On®   pg. 18
Hook & Cord™   pg. 19
Telescoping Pole pg. 22

Attach Mini Twist-On® or Hook & Cord to Mini-Triarama® and hang
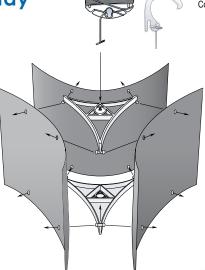

Use telescoping lifter pole to make hanging you displays easier!

What kind of shelf hardware is available for marketing products off of shelves or placing signage onto shelves?

You are working on a marketing campaign would like to use signage to highlight the product and/or display the product off the shelves. You have the following questions: Do I want the sign to attach to the price channel or shelving unit? My sign is very thin - which sign holder should I use? My product weighs 1 lb. which strip do I use? Find the answers to those questions by referring to the chart below:

HANGING DISPLAYS

Multisided mobile displays that gives maximum marketing exposure from the ceiling, shelf, or floor. Add motion to floor mounted displays with a display motor.

8600MEG

Plastic Former support 3 panels from 30" to 60" wide.

Includes
Twist-On® (7100W)
4' metal chain (7044)
2 - S-hooks (7045R1)

Use with a 1-1/2" pole and plastic base or wire feet. Add motion to floor mounted displays with a display motor.

8600

Plastic Former support 3 panels from 15" to 40" wide.

Includes
Mini Twist-On® (7206W)
Hook & Cord® (7006W)

Use with a 1-1/2" pole and plastic base or wire feet. Add motion to floor mounted displays with a display motor.

8600M

Plastic Former supports 3 panels from 10" to 24" wide.

Includes
Mini Twist-On® (7206W)
Hook & Cord® (7006W)

Use with a 1-1/2" pole and plastic base or wire feet. Add motion to floor mounted displays with a display motor.

8602
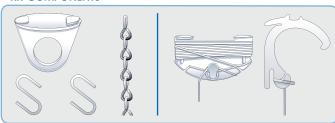

Plastic Former supports 4 panels from 12" to 24" wide.

Includes
Mini Twist-On® (7206W)
Hook & Cord® (7006W)
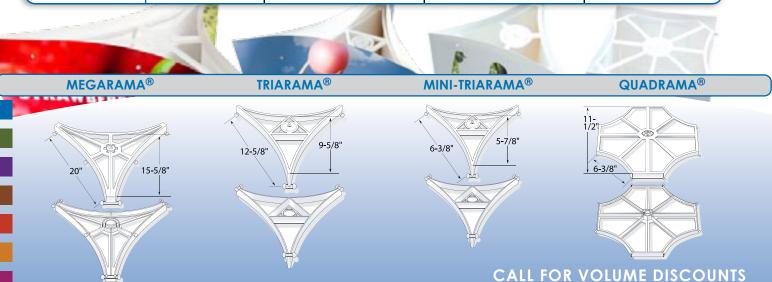

Use with a 1-1/2" pole and plastic base or wire feet. Add motion to floor mounted displays with a display motor.

CEILING SOLUTIONS
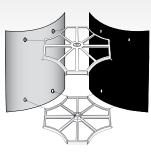

Panel Assembly

ASSEMBLE GRAPHIC PANELS TO PLASTIC FORMERS BY FASTENING BALL SHAPED POSTS INTO HOLES AT TOP AND BOTTOM OF PANELS.
(PLASTIC FORMERS ARE MARKED TOP AND BOTTOM)
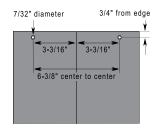

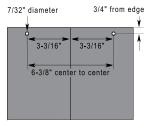

Top Former with hanger attachment hole facing up
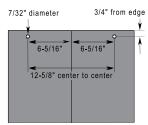

Bottom Former with hanger attachment hole facing down
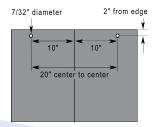

START ASSEMBLY BY ATTACHING PANELS TO TOP PLASTIC FORMER. THEN CAREFULLY TURN PARTIAL ASSEMBLY UPSIDE DOWN AND FASTEN PANELS TO BOTTOM FORMER

7/32" diameter   3/4" from edge
3-3/16"   3-3/16"
6-3/8" center to center

Mini-Triarama® - 8600M

Place holes at a minimum margin of 3/4" from top and bottom edges of panel, spaced at 6-3/8" apart on center, with each hole 3-3/16" to each side of the panel's center line.
Requires 3 panels - 10" to 24" wide.

7/32" diameter   3/4" from edge
3-3/16"   3-3/16"
6-3/8" center to center

Triarama® - 8600

Place holes at a minimum margin of 3/4" from top and bottom edges of panel, spaced at 12-5/8" apart on center, with each hole 6-5/16" to each side of the panel's center line.
Requires 3 panels - 15" to 40" wide.

7/32" diameter   3/4" from edge
6-5/16"   6-5/16"
12-5/8" center to center

Megarama® - 8600MEG

Place holes at a minimum margin of 2" from top and bottom edges of panel, spaced at 20" apart on center, with each hole 10" to each side of the panel's center line.
Requires 3 panels - 30" to 60" wide.

7/32" diameter   2" from edge
10"   10"
20" center to center

Quadrama® - 8602

Place holes at a minimum margin of 3/4" from top and bottom edges of panel, spaced at 6-3/8" apart on center, with each hole 3-3/16" to each side of the panel's center line.
Requires 4 panels - 12" to 24" wide.
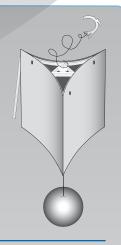

A board thickness of 10 to 24 point is recommended with either 4 or 6, 7/23" diameter holes. Assemble the panels by putting the posts into the holes at the top and bottom. All panels must be of the same height and weight. Lift assembly at center with one hand while holding three panels together at the bottom with the other hand. Carefully turn the assembly right side up and then set down on a flat surface. Check all the panels to assure they are secured at all connections.

Mobile Displays
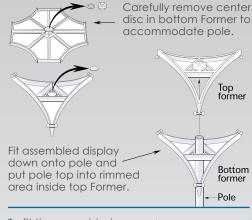

Securely attach hanging cord to hanger attachment hole in the top of Former.

When using plastic edging channels, insert end of channel onto panels, slide all the way on and center.

Additional elements can be hung from hanger hole in bottom Former.

Pole Displays

Carefully remove center disc in bottom Former to accommodate pole.

Fit assembled display down onto pole and put pole top into rimmed area inside top Former.

Top former

Bottom former

Pole

To fit the assembled display down onto motor/pole assembly, put rotor disc into rimmed area inside top Former.

Cut out center to accommodate 1.75" O.D. pole.

Insert motor into top section of pole.

Insert wire feet into bottom section of pole forming a cross. Also works with Hollywood wire feet or plastic bases.

Motorized Pole Displays for Triarama®, Megarama®, and Quadrama®

Motors on page 83

MOBILE KITS

Wooden dowels do not come with pre-drilled holes. Signage must be equally weighted on all sides. Customization of dowel length is available: drilling charge - $.10/hole: cutting charge - $.10/cut. Contact Customer Service for additional information

& Signage Connectors

INSTRUCTIONS & DISCLAIMER

Twist-On®, Mini Twist-On®, Twist-On 2® & other hanging elements: Twist-On's® are designed to support lightweight signs and are intended for indoor use only. Certain displays or environments may result in unsafe conditions. Instructions must be carefully followed to avoid improper use.

1.) The Twist-On® Series is designed for indoor use at a room temperature between 50° and 80° F. Cooler or warmer environments may reduce the fixture strength. Any display attached to a Twist-On® should not be mounted in the direct path of an alarm motion security sensor or heating and air conditioning duct.

2.) The Twist-On® Series is designed for use with a standard 1" suspended ceiling channel. Channel must be free of dirt or contaminants and must be in perfect structural conditions when attaching a Twist-On®. Check carefully before installing.

3.) Attach The Twist-On® Series by lining up tabs with ceiling and turning counter clockwise until Twist-On® is securely locked onto ceiling channel. Make sure that the Twist-On® is securely locked into ceiling channel before attaching any signage.

All other ceiling connectors sold in this catalog are designed for the use with either a standard ceiling channel or from an open truss, bar or pipe beam.

1.) All surfaces used to attach connector must be free of dirt or contaminants and must be in perfect structural condition when attaching a ceiling connector.

2.) Make sure that all ceiling connectors are securely attached in place on ceiling channel, truss bar or pipe before attaching any signage to connector.

*Important Notice To The Purchaser

Purchaser should determine suitability for the application of any product herein and assumes all risk and liability whatsoever in connection therewith. Neither the seller nor manufacturer shall be libel for any injury loss or damage, direct or consequent, arriving out of the use of such product. If purchasing and repacking Merchandising Inventives, Inc. hanging elements, it is purchaser's responsibility to repackage warning instructions found in original packaging into new packaging.

BANNER HANGERS

The Evolution of Merchandising Inventives, Inc.

began in Chicago in 1946 when Mr. Sol Berger, the founder of Merchandising Inventives, Inc., gained National and International recognition with his "Display Mobiles", the first free-motion hanging displays ever used in retail stores. Mr. Berger pioneered the idea of utilizing the ceiling of retail stores as an important facet of advertising. Mr. Berger's ingenious P.O.P. advertising ideas were recognized by POPIA when he was inducted into the "P.O.P. Hall of Fame" in 1999.

TELESCOPING LIFTER POLES
No More Ladders!

Telescoping poles are made of sturdy, lightweight aluminum and come in individually packed cartons.

HANGING CHART

What kind of hanging ceiling hardware is needed for your display?

You are working on a marketing campaign and you want to use ceiling signage as a component of the campaign. You have the following questions: Is it going to be a banner or a mobile? Are you going to hang it from a drop ceiling or an open ceiling? Is it permanent? How far from the ceiling will the sign hang?

CORRUGATED PRINTING OPTIONS

CUSTOM CORRUGATED PRINTING OPTIONS
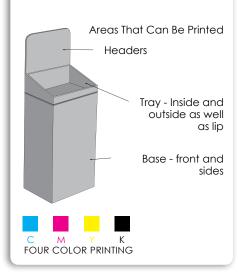

Our Commitment

There are multiple printing options for corrugation. The final decision is dependant on a few factors:

1.) Print Quality
2.) Quantity
3.) Price and/or Budget

The issue of quantity may determine what is the most practical to produce. There are various options available. All require minimums and the cost can vary depending on quantity and method used.

Areas That Can Be Printed

Headers

Tray - Inside and outside as well as lip

Base - front and sides

C M Y K
FOUR COLOR PRINTING

Custom Cutting:
Custom Corrugated displays are available to order to fit your needs. Minimums apply due to die cutting charges and set up. All custom displays will require "new" cutting dies

Printing Processes That Are Available:

The following options will explain the different printing options available to match the project or budget.

Flood Coats:
A Flood Coat is when corrugated stock is completely covered with one solid color a "flood" of printing. This method is the most cost effective as it requires no printing plates.

When used: When full coverage of a single color is desired on the entire corrugated stock or base.

This example has a flood coated bottom and a header card that has a Lithographic label affixed to it.

Direct Printing:
Direct printing is when ink is applied directly to the corrugated stock. The four-color printing method requires a separate printing plate for each color that is printed. This method works best for simple logos and images.

When used: When the graphic being printed is flat and not detailed art that is similar to a child's coloring book.

Lithographic Labels:
Lithographic Laminating involves the gluing of a printed sheet to the corrugated stock before it has been die cut. This printing method delivers a high quality look to your display by removing the corrugated texture from the graphics. It preserves the image quality for complex logos, illustrations, and photographed images. This printing method avoids plate costs and is the least expensive option.

When used: When the graphic is detailed artwork or is photographic quality.

CORRUGATED HOOKS

Butterfly Hooks

Use with single and double-wall corrugated displays; wide design ensures a more balanced hold.

Material
Medium-Impact Polystyrene

Comes in two sturdy plastic boxes

PART #	1
POP-KIT-DISPLAY	$ 42.00/each

DISPLAY HARDWARE SOLUTIONS

ACRYLIC DISPLAY SOLUTIONS

Acrylic Display Solutions

When it comes to the design and fabrication of acrylic displays, we pride ourselves on top-notch craftsmanship and quality. Our product and industry expertise can assure a successful project from design through prototype to production.

Beverage Displays
Retail Counter Displays
Collectible Cases
Custom Literature Holders
Retail Shelving
Prototyping & Screen Printing

ACRYLIC FABRICATION

Customized Display Fabrication & Production

We provide project from the initial receipt of drawings, sketches, or CAD prints. Displays are drop-shipped upon completion. We specialize in retail P.O.P. projects requiring high quality precision cutting and machining, straight-line heat bending and quality precision hand-gluing and silk screening. We also offer turn-key programs consisting of custom packaging, fulfillment, warehousing and drop-shipping.

SAWING

We have the capacity to cut to size all the parts. We only use specialty blades in our machinery to achieve the cleanest quality cuts. These blades eliminate blade burning during the cutting of the material, and minimize bad alignment due to the miter gauge slot and/or alignment of the fence.

DRILLING

We are able to drill any diameter hole in all our material. We use drill bits which are manufactured for the plastic fabrication industry. The angled tips allow for gradual penetration that eliminate damage to the backside of the material.

ROUTING

Precision-cuttery router bits are used to assure high quality finished edges.

EDGE FINISHING

Decorative edges include: finishing & planed, round over, bull nose & bevel. Each creates uniqueness to the display. Diamond tip cutters polish edges to a smooth precision finish.

SILK SCREENING

Screen print logos, slogans, or product messages. Available on all the materials we carry.

GLUING

We specialize in high quality precision gluing on all acrylic. We use SC94 and SC125 as standards, providing highest bonding strength available in the industry.

HEAT BENDING

We offer straight line heat bending of material sized 3" in length to 48" in length by any width. Material can be bent from 1/16" to 3/8" thick and allow for up to six bends in the material with each bend being between 2° and 90°. Merchandising Inventives Inc. has exclusively designed heating trays that allow for manufacturing of consistent, professional bend while working with all types of thermoplastic material. This is essential in producing strait-line or fold-over bends and capable of heating up to 3/8" thick thermoplastic material.

ACRYLIC SOLUTIONS

ACRYLIC **FABRICATION**

"Superior Customer Service"

We are dedicated to achieving the same goal we had in 1946: "Superior Customer Service." Our knowledgeable staff and Customer Service Department is here, ready to serve you from our corporate headquarters located in Buffalo Grove, Illinois, just 30 miles northwest of the city of Chicago. We will provide to you what you need, when you need it, every time, with the quality you expect. Free product samples are available to test our products before placing an order. We offer same day shipping for most in-stock items. If we don't have an item in stock, we will source it or quickly design it , in order to deliver the ideal solution. With more than 60 years experience and Innovation in the P.O.P. industry, Merchandising Inventives is here to offer quality products, superior customer service, design, and on-time delivery. Please take some time to look through the newest edition of the Product & Idea Guide for multiple point-of-purchase options. Merchandising Inventives, Inc. prides itself to being the BEST P.O.P. company in the business!

DESIGN

Projects are customized to be both aesthetic and dynamic to fit the needs of your project and budget.

PROTOTYPE

Our design department can deliver prototypes within five to seven business days for your review.

PRODUCTION

We accommodate both high-quality short production runs (100 units or less) and larger production runs (2500 units and larger).

TERMS & CONDITIONS

Phone
Merchandising inventives, Inc. prides itself on our friendly and knowledgeable customer service staff which are available to answer questions you may have, from order placement to creative P.O.P. project solutions. Phone Customer Service Department at 1-800-367-5653 Monday through Thursday from 8:00 a.m. until 5:00 p.m. CST, and Friday until 1:30 p.m. CST.

Fax
Inquiries or orders can be sent by fax 24 hours a day to (847) 499-3005 or (847) 499-3006 seven days a week. Use the form provided in this catalog for fax orders. Please call to verify receipt of order or other requests.

Mail
Please send all requests or orders by mail to:
Merchandising Inventives, Inc.
Attn: Order Processing
1177 Corporate Grove Dr.
Buffalo Grove, IL 60089
Please call to verify receipt of order or request.

E-Mail
Please visit our website at www.merchandisinginventives.com

Please send all requests by E-mail to info@merchinv.com

Shipping
All orders are shipped F.O.B our plant unless otherwise stated. All freight charges will be added to the invoice. Most in-stock items can be shipped the same day if the order is placed prior to 12:00PM CST. Merchandising Inventives, Inc. will not be held responsible for any delivery delays due to cause beyond our control once an order has left our facility.

Claims
All orders should be inspected upon arrival for product shortages and/or any damages. In all cases, the purchaser assumes all risk of loss or damage to the products in transit and will be responsible for filing any claims with the carrier. In the event that there is any damage to the shipment, please notify the carrier immediately, and mark the bill of lading "damaged."

Multiple Shipping Destinations
All shipments that exceed 4 destinations will incur a $7.50 charge per location of shipment. Additional fees may incur on shipments that require extensive administration.

Samples
We offer free samples on most of the items listed in our catalog, however we have the right to charge when necessary. All free sample orders are shipped U.S. Mail or UPS Ground. Any freight charges incurred from express shipments will be paid by the recipient.

Terms
Payment terms are Net 30 Days, upon approval of credit. A credit application can be found on page 103. Please allow a minimum of two business days to process and set up account information. To establish credit provide us with the following information: 1 bank reference and 3 current suppliers being sold to. Please allow up to 48 hours for processing. Other forms of payment are company check, credit card (Visa, MasterCard, Discovery Card, American Express), C.O.D. and wire transfer. All international orders require prepayment via credit card or wire transfer. All orders must include a hard copy of a purchase order from the customer.

Credit Card Terms
When placing credit card orders, two charges will be applied to your credit card per order. The first charge, which is applied at the time of the order, represents the purchase of the product only. The second charge, which is applied at the time of the orders shipment, represents the actual shipping & handling charges of the order.

Cancel & Return Policy
In the event that there is a problem with your order, please contact our CUSTOMER SERVICE DEPARTMENT immediately. Cancellations and returns are handled on a per-case basis. Standard catalog items are returnable within 30 days of receiving the shipment, however, returns or refunds will not be accepted on any custom, non-stock, or production runs. A return goods authorization (RGA) number must be obtained prior to returning any merchandise. The returned merchandise should be in the original unopened cartons and must be clearly marked with the return authorization number. Credit will not be issued for any unauthorized returns. The customer is responsible for all freight charges incurred form the original order and return shipment. Merchandising Inventives, Inc. reserves the right to refuse any return.

Minimum or Small Orders
We have a $100.00 minimum on all orders and must be prepaid by either a credit card or C.O.D. (cash on delivery by certified check or money order; company check with pre-authorization), unless you have already established net 30-day payment terms. No returns accepted on orders under $100.00.

Warranty Statement
Merchandising Inventives, Inc. makes no warranty of any kind, expressed or implied. Any implied warranty of merchantability or fitness for a particular use is herby expressly disclaimed by Merchandising Inventives, Inc.

Bagging Charges
We offer special packaging & poly-bagging for similar sized & shaped items into any of the following sized bags. Please call us for lead times & all additional packaging information. Custom bagging of larger sized items and labeling available upon request for an additional charge.

Item No.	Size of Bag	Max. Item Height
7000P	4"(W) x 6"(H)	5-1/2" (H)
7000P1	5-5/8"(W) x 10"(H)	9-1/2" (H)

Quantity	$/Bag	Qtys.	$ Per.
1-5	$.14 ea.	51-100	$.35 ea.
6-10	$.20 ea.	101-200	$.44 ea.
11-25	$.22 ea.	201-300	$.63 ea.
26-50	$.27 ea.	301-400	$.89 ea.

Catalog Disclaimer
Merchandising Inventives, Inc. works very hard to assure that the information in our catalog and website are correct. However, it is possible that errors may occur. MII is not liable for misprints or other errors in the catalog or website. In addition, MII reserves the right to change pricing, the minimum order requirements and substitute similar sized and styled products when product availability warrants it without prior notice. For more information about our terms and conditions please visit our website at www.merchandisinginventives.com. All Retail Merchandise, and Signage shown with MII products is for demonstration purposes only, no endorsement is implied.

Artwork
Camera ready or digital art should be supplied in Adobe Illustrator, Adobe Photoshop, Adobe InDesign, in EPS, TIFF, or PDF formats at a minimum of 300 DPI. We accept Macintosh and PC files on CD-ROM, DVD-Rom, or USB flash Drive. All images should be flattened and fonts must be included or converted to outlines before sending. Art charges will be billed at $85.00 per hour.

Made To Order
Many of the MII products are available in made to order (MTO) styles. These custom jobs are subject to minimum order quantities. Please call for custom requirements.

Important Notice
The Liability of Merchandising Inventives, Inc. under these terms shall not under any circumstances exceed the price paid by the purchaser to Merchandising Inventives, Inc.. Merchandising Inventives, Inc. has no liability for special, indirect, incidental or consequential damages, lost profits or economic loss whether arising in contract or tort, and the same are hereby expressly waived and excluded by the purchaser. A complete Terms and Conditions sheet can be provided on request.
