or fax to 973-595-0974

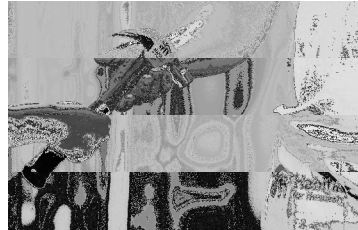

Paterson Habitat for Humanity

Paterson Habitat taps into the strength of its corporate partners to address one of the toughest problems of our time, the lack of affordable housing for hard working, lower income families.

We operate as a partnership with families to build their homes. This spirit inspires many businesses to partner with Paterson Habitat in building simple, quality affordable homes working side by side with homeowner families.

One of the greatest rewards of partnering with Paterson Habitat comes from the tangible results at the end of a **Habitat Build Day**.

CORPORATE CHALLENGE 2011

TAKE THE CHALLENGE

JUNE 6TH-24TH 2011

REBUILDING NEIGHBORHOODS
ONE NAIL AT A TIME...

What is Corporate Challenge?

Once a year for the past 17 years, Paterson Habitat for Humanity holds a two-week event where corporations from all over the tri-state area send volunteers to our worksites to build. **This is the only time of year that Habitat raises funds from construction volunteers.**

Last year **over 30** companies sent **more than 500** of their employees and accepted the Corporate Challenge—and raised \$190,000

Corporate Challenge is based on a simple concept. **Teams of employees work a half day shifts during the two-week* fundraiser.** At lunch (provided by Habitat), volunteers, incoming families and Habitat staff share their stories. This has proven to be a wonderful team-building experience for participating businesses. Every year, Corporate Challenge is oversubscribed.

100% of funds raised by this event go toward building a Habitat house.

*Due to an overwhelming response Corporate Challenge 2011 will be a three-week event.

Benefits of Participation:

- Recognition in Paterson Habitat's Annual Report.
- Spotlight on Paterson Habitat's web site, newsletter and e-Builder for the month of your scheduled build.
- Your company's logo on all Corporate Challenge signage.
- A great teambuilding experience for your employees.
- The satisfaction of knowing that a small amount of your time and resources will change a family's life forever.

LEVELS OF SPONSORSHIP:

Foundation Sponsor - \$10,000

A solid foundation is the base on which a home and a family are built.

Company's involvement includes:

- 25 employees for a full day of building
- 2 extra build days of choice during year
- Fall breakfast and trolley tour of Corporate Challenge completed homes.
- Installment payment optional
- All benefits of participation

Wall Raiser - \$5,000

The walls represent one of the most physically and symbolically important aspects of the homebuilding process.

Company's involvement includes:

- 25 employees for half day of building
- 1 extra build day of choice during the year
- All benefits of participation

Roof Raiser - \$2,500

Without the roof, a home cannot provide the necessary shelter to raise a family.

Company's involvement includes:

- 15 employees for half day of building
- Extra half build day of choice during year
- All benefits of participation

Habitat Team Builder - \$180 per volunteer

Join us for a unique, half day experience for your organization to visibly give back to the community. Through the suggested minimum donation your group will build on a Habitat construction site experiencing tangible results while affecting the lives of a Habitat family. Maximum of 10 volunteers per half-day shift.

WE ARE GOING GREEN

Paterson Habitat for Humanity is an ecumenical ministry committed to building decent, safe affordable housing that is **energy-efficient**, environmentally responsible and economical to maintain. We are faithful to building quality homes that are designed to be **durable and healthy** through the use of **sustainable methods and materials** where possible. We build in neighborhood locations that provide easy access to services and public transportation. Our homeowner families are the **building blocks for stronger communities.**

In an effort to help save our environment, we here at PHFH have opted to eliminate all paper and plastic cups at our worksites. We are urging all of our volunteer participants to **please bring their own refillable water bottle.** We will provide cool fresh water at our worksite for you to refill your bottles.
