

Summary:

State Security Police headquarters in Nasr City, which hosted one of Mubarak's largest torture facilities, on Saturday I found two DVDs in one of the offices, both titled "أرشيف السادة ضباط الجهاز" The Agency Officers' Archive. The DVDs included profile pictures of State Security officers, organized in folders. Each folder had the officers' name. Some however did not have the names. There were also sub folders that included pictures of those officers in social events like weddings.

Quote:

"Each member of SS has to be brought to justice. This was an agency devoted to spying, surveillance, torture and murder. Every member of this organization from the informer all the way up to the generals should be prosecuted. SS has to be dissolved. It cannot be "restructured" like what the current PM is calling for." -3arabawy

Goal: Dox these individuals for the knowlege of the people of egypt

To Do:

Run pictures through image finders put a (x) on right side of name when that is complete.
