welcome

to a beautiful dream of eating forward— thinking, inspired restaurant food without leaving the loving arms of the incredible central coast. Every season we'll bring a chef from an iconic restaurant in the big smoke and bundle up their team, knives & pans and drop them on the beach. You'll be able to sit, talk, ask whatever you like with chef, while they and a specially selected winemaker will combine food & wine just for you and only a handful of guests

Places are strictly limited and available in advance  
Credit cards accepted.
