Why Clean Litter?

- WA State Dept of Ecology Litter Hurts Program suffered 7 million in budget cuts this year reducing their ability to battle Litter in our state, We need to do our part to help!
- Litter harms us all, more than most know. Most litter is blown into some form of water source, where it seeps toxic chemicals.
- Garbage is unsightly. Litter can deter visitation from certain areas, hurting local businesses.
- Native Plant and Wildlife are seriously harmed by litter, every year 6 million pounds of STUFF is dumped in Washington's beaches and parks.
