

Hi _____ (student's name),

Welcome to the Wonderland of Economics!

I'm your guide and assistant during this adventure.

Of course it is not hard to become a successful explorer, but, not easy either.

There are several steps you need to go through.

Confused now? Well, take your time. Let me explain it in details.

Step 1 Daily Work

Daily Work is as a preparation and the foundation of the adventure. It is compulsory that you need to complete the following missions every day:

- i. Listen to the lecture and take notes

- ii. Do the reading and summarise the main point

- iii. Add new economic terms into your personal glossary

- iv. Finish the homework question on textbook

Each mission is worth **1 Star**. To complete this stage, you need to gain a total of **4 starts** in order to go to the next step.

Step 2 Layer-C Task

Your mission on this stage is to complete the Layer-C tasks; each mission is worth **1 Star**. It is your own option of choosing one or two tasks, which you think suits your ability and you could deliver a better performance. You need to achieve at least **80 per cent** of accurate rate to earn a star in order to complete this step and go up to next stage.

Step 3 Layer-B Task

Your mission on this stage is to complete the Layer-B tasks; each mission is worth **2 Star**. Same with step 2, it is your own option of choosing one or two tasks, which you think suits your ability and you could deliver a better performance. You need to achieve at least **80 per cent** of accurate rate to earn a star in order to complete this step and go up to next stage.

Step 4 Layer-A Task

Now you are very close to your final destination of this adventure! Your mission on this stage is to complete the Layer-A tasks; each mission is worth **3 Star**. Same with step 2&3, it is your own option of choosing one or two tasks, which you think suits your ability and you could deliver a better performance. You need to achieve at least **80 per cent** of accurate rate to earn a star in order to complete this step and go up to next stage.

There are 3 important rules you should notice:

1. From Step 2 to Step 4, you are required to do at least 3 missions. The extra missions you do will be counted as extra marks for you;
2. You are highly encouraged to challenge yourself. Thus, you need to choose missions from at least two layers from Step 2 to Step 4;
3. For those of you who of you want to challenge yourself furthest and consider missions in Step 2 are as easy as a piece of cake, just come to me and apply for starting straight away from Step 3.

Now the question is, after completing all the missions, how could you know what type of explorer are you?

Total Star You Earned	Type of Explorer You Are
★★★★★★★★	Explorer
★★★★★★★★★	Adventurer
★★★★★★★★★★★★	King of Adventure

Is everything clear to you? Feel free to talk to me at any time!

Are you ready? Please write down your name and your goal/goals here.

And let's get started!
