

True Faith Missions

The Facts:

- 25,000 people die every day from diseases related to drinking water.
- At any given time half of all hospital beds are filled with patients suffering from water borne diseases.
- Contaminated water accounts for 80% of all diseases and claims the lives of five million children a year.
- 1.5 billion people suffer from parasitic worm infections due to contaminated drinking water.
- One flush of your toilet uses more water the average person uses all day for all purposes in developing countries.
- One billion people in the world lacks access to pure drinking water.
- We have the tools to fix the problem but not the people or the finances.

“Mat 10:42 And whosoever shall give to drink unto one of these little ones a cup of cold [water] only in the name of a disciple, verily I say unto you, he shall in no wise lose his reward.”

We have a an opportunity at True Faith Missions to bring both life saving water by drilling wells and sanitation training and Soul saving water through the gospel of Jesus Christ around the globe.

Would you consider standing with us hand in hand enabling us to go into the Lord's harvest field? We are asking all our brothers and sisters in Christ to commit in one of three ways:

1. Purposely praying daily for us as we go. Many of the places we go will be in areas hostile to Christianity; also the work we do is expensive, please pray God sends the needs.
2. Please consider supporting us on a monthly basis. This enables us to plan future trips and spend more time going and less time on logistics.
3. You can also consider joining us on future trips on a volunteer basis.
