HOW TO TAKE ACTION?

PREFACE

Look outta da window, look into the tube... You may ask yourself: „Isn't there anything better?“ If you don't: Please pardon me disturbing you, you can now let yourself hypnotize back into the American Dream.

Old people walking through sold out cities feeling that they don't belong to them anymore, children locked into schools and flats, mallrats, shamanic souls straight into psychiatry.

2012, we're stranded inside an eroded affluent society: Nothing is necessary anymore. Neoliberal countries exclude 25 - 60 % of their population from the process of production. They don't want workers - they want consumers!

We have to cultivate the healthful energy that there is a certain energy on the planet which wants to lead people to a true life - living together instead against each other. Each individual shall try to be one with that energy, and try to deconstruct destructive structures.

Neoliberalism is not invincible. It is a pretty young ideology in the history of man. And we can make it disappear if we unite against it.

WHY TO FIGHT?

Hippies indirectly supported Neoliberalism. They left us with a brightly coloured world in which everything is possible - at least every product.

Now youth has to decide: „Do we want to decently support the indecent? Or do we want to „indecently“ support the decent?

In times of Woodstock the rebels were dressed colourfully. Today, the system is colourful while the rebel has to be serious. Now the rebel seems to be a jealous kill-joy.

No doubt: There will be dazzled neoliberal minds shouting at us: „Why do you fight against the system? What did the system do?“

And that's the point: System did just nothing for me.

ARE WESTERN COUNTRIES TRULY FREE OF IDEOLOGY?

When we think about ideology, we always think about something strange: Punks, skins etc. We laugh at them and don't respect those people. But we, of course, we are totally free of ideology. Only the troublemakers believe in ideology...

Just imagine the situation of a young girl presenting her boyfriend to her parents. Will they be delighted when he begins talking about mind-expanding?

In a way we got the most fundamentalistic ideology of all: The ideology of having no ideology. Who's the best actor? An actor not knowing he's an actor!

A paradox situation: Now true freedom can only be found in prison. We got free countries but are caught inside that freedom. It is a freedom like: „Do whatever you want, I don't care anyhow!“

NEOLIBERALISM

The ruling ideology is called Neoliberalism, a radical form of capitalism. It longs for maximum power to the industry, to the corporations. They say government shall step back while economy would produce the right goods in the right amount without any governmental intervention. They say, government shall not do more than guaranteeing the validity of private contracts and law.

„We will never have true democracy as long as absolutism rules economy.“
(Karl Arnold (1901-1958) CDU)

Milton Friedman was the spreader of those neoliberal dogms.

The neoliberal weapon to turn things neoliberal is the trident of free markets:

- 1) Privatization (lat. "privare" = "robbing")**
- 2) Deregulation (less laws)**
- 3) Social Cuts (less social service)**

Allegedly anything can regulate itself like a forest. So they say Neoliberalism was the most natural system. Is that true? An animal eats until it is not hungry anymore - it does not have fridges!

They tear down our governments and decrease taxes - so you applaud. Whilst losing another public infrastructure - and another one, and another one... Communities loose ground, hospitals, schools, broadcasts, postal service etc.

Its is very clear that a company can only be „efficient“ when it is neoliberal - because in a neoliberal system neoliberals define that word.

Communal enterprises which were built and financed by citizens for years are now sold as shares to the people... Its now possible to „own a piece of the enterprise“ we already own!

Privatization is not a progress! The first firefighters were organized as private companies - And they did not put your house's fire out if its walls did not show their embleme. Whilst public enterprises had many good effects: They can e.g. act counter-cyclic to prevent an economic crisis. A steel mill can run at loss willingly to provide cheap steel to other industries etc.

Neoliberal ways of thinking can be hidden behind any party: Liberal christians, liberal green party, liberal democrats etc. Neoliberals even managed to conquer China's communist party.

Neoliberalism's secret of success is the „ideology of individualization“: A superficial individualization hides the inner collectivist unforming of all us citizens.

SHOCK-DOCTRINE

To spread neoliberalism they use shocks: Wars, catastrophes etc. They also shock individuals like in Irak. Naomi Klein supposes that they tried to use Irak as a model state to test how to destroy psyches and indoctrinate them.

Hurricane Katharinas After-Effects:

Public	Schools before: 123
Public	Schools after: 4
Charter	Schools before: 7
Charter	Schools after: 31 (They gave out vouchers...)

HOW DID CORPORATIONS GAIN THAT MUCH POWER?

1910: Corporate lawyers managed to declare corporations as „legal personalities“. That way they were able to afford the 14th constitution paragraph being valid for corporations, too. Originally that paragraph was meant for protecting slaves after the American civil war. But soon the corporations began using the paragraph way more often than the slaves themselves! That way the honorable American idea of freedom was perverted.

Big corporations get very much respect by people because their logos are something like modern times' fertility symbols. So you subconsciously fear to lose love when fighting corporations.

KEYNESIANISM AND NEW DEAL GOT SABOTAGED

Roosevelt's New Deal did tame market after the Great Depression. Neoliberal Milton Friedman wanted to unleash it back. Although America was already capitalist - but not enough capitalist for Friedman!

THE NEW DEAL von Conrad A. Albrizio

His radical capitalist claims were very well accepted by factory owners because they were just as radical as the worker's communist claims at that time - a perfect counter-attack.

Developmentalism had brought welfare to Latin America. But corporations were afraid of „total communism“. The corporations were advocated by Sullivan&Cromwell. The brothers Dulles (CIA) once were employed there...

NEOLIBERAL EXPERIMENTS IN CHILE

So CIA did a few Putsch. Salvador Allende (democratically elected) was sabotaged , so Dicator Pinochet came to power. Pinochet allowed neoliberal Experiments in Chile.

Book burnings, graffiti were removed. It was illegal for people to gather outside, sometimes even funerals were crashed by police. They wanted to avoid collectives to build.

While Pinochet terrorized Chile, some intellectuals already realized that the danger was not only physical. It was an economic danger: A new order of economy was indoctrinated to that country.

Ambassador Orlando Letelier blamed Friedman to be complicit in Pinochet's crimes. A little later Letelier was blown up in his car by a car bomb. In Washington!

And today? You are naive when you think that all those things happened in the past and will not happen again. The US "Office of Reconstruction and Stabilization" preventively plans the „Reconstruction“ of around 25 countries where Gis could march in as soon as a pretext is found: Iran? Venezuela?

CIA-Sabotage Manual – spread to destabilize Nicaragua

HISTORY IS DEAD?

Neoliberal thinkers claim the „Death of all ideologies and utopies“. Allegedly they all died after the fall of the Berlin Wall. The end of Sovjet union is interpreted as the end of communism in general.

PILGERBERG-GESELLSCHAFT

Vevey 1947: On the Mont Pelerin (Mount of Pilgrims) influential European liberal

thinkers meet to discuss the future of western civilization. They began building a new ideology whilst claiming not to be ideological.

DEMOCRACY

"Rationality belongs to the cool observer. But because of the stupidity of the average man, he follows not reason, but faith. And this naive faith requires necessary illusion, and emotionally potent oversimplifications, which are provided by the myth-maker to keep the ordinary person on course. It's not the case, as the naive might think, that indoctrination is inconsistent with democracy. Rather, it is the essence of democracy."

(Noam Chomsky, "Manufacturing Consent")

"Black Panther Coloring Book", CIA-fake to discredit Black Panthers

THERE'S NO „LEFT“ AND NO „RIGHT“!

Political spectre is not a line. It rather is shaped like a moebius strip.

*Leftists as well as rightist extremists are anti-capitalistic.
Rightists support America while rightist extremists hate it etc.*

Politicians of party A and party B know each others as well as many lawyers in court know each others. You can imagine how that fact influences a court case. They prolong it to earn as much as possible.

GAME THEORY LETS US DISTRUST EACH OTHER

Cold war was heavily influenced by John Nash's game theory (all people are self-oriented, all people do strategize against each others all the time etc.) But Nash was pathologically paranoid (See "A Beautiful Mind"). We know that today, but distrust is still present in society.

NOOCAUST

They dont rob us money. They rob us meaning. Globalists are planning Noocaust. Noocaust means rendering everything meaningless. Work is already scarce. Now they create artificial work.

There will be a Sense War or War for Meaning. The homo faber will wake up and run to the fields, wanting to plant and harvest. They will search earth under the pavement but it will be to late.

Masons plan an Armageddon by making people unconscious. When there is noone which recognizes world, world does not exist.

FAKE WORLD

I suppose one goal of the conspiracy to be the building of a „fake unconscious“. A wall gets built up before our eyes, and now consensual pictures are projected onto the wall - fairy tales are replaced by artificial fairy tales etc. So people are cut of from the real collective unconscious, cut off from their intuition. Our third eye is blind now (the eye now is in the pyramid and pyramid is a grave...)

As soon as masons control the fake unconscious they rule the world.

DEPRESSION

Depression is not an illusion. Less and less people can believe the inner logic of our First World countries. A brutal logic on the cost of others. Africa psychiacally is the shadow of world's soul. We have to re-integrate Africa by a global psychotherapy.

South Korea: Suicide rate doubled within 10 years as Neoliberal blessings arrived.

PHILOSOPHY OF FUTILITY

It describes that monotonous industrial everyday life is lacking beauty which has to be balanced by fashion and similar stuff. To produce those goods there have to be built more factories which afterwards requires more fashion... A vicious circle!

INTELLIGENCE AND INTELLECTUALITY

Both are often confused. IQ is a method for discriminating black people and other outsiders. IQ has to be discovered, which is not possible in lower class.

„To be an intellectual is a vocation for anybody: it means using your mind and applying it to issues of human significance. Some people are privileged, powerful and usually conformist enough that they can make their way into the public arena. That doesn't make them any more intellectual than a taxi driver who happens to be thinking about the same things and may be much smarter and much more understanding of them.“

Noam Chomsky

ILLUMINATION

The Age of Enlightenment wanted to inform and enlighten people to set them free by knowledge. But it did not work. Philosopher Leo Strauss says that the Age of Enlightenment did not set us free but did rather lock us into a second cave below the original Platonic cave.

„The more you read the dumber you get“ MAO

The "Bringer of Light" is Lucifer, formerly the proudest angel. Luxury, Phallus, Illuminatus – all those words etymologically stem from „Light“. The phallic-technocratic western man does actually flee gnosis by longing for it!

The real light does already burn – inside yourself! It is not a search light – it is a lighthouse!

*«Noi foras ire, in interiore homine habitat veritas!»
(Don't go out. Truth is inside the inner man)*

"He who looks out dreams. He who looks inside awakens." (CARL GUSTAV JUNG)

SECRET SOCIETIES

Generally secret societies are constituted of people which can only raise themselves by humiliating others. Because a mason is humiliated in his initiation, he has to humiliate others for the rest of his life. If he does not, he falls back into his own humiliation experience, which is painful.

Secret societies are male. The hidden reason to enter such a club is: Being afraid of the Vagina Dentata. They are afraid to be gulped by the female principle (the masses, the fullness etc.)

Their alleged goal is „purification“ of mankind. As man did purify wild hogs to make domesticated pigs... to kill and eat them.

HIERARCHY

I always taught: Wow, Nostradamus, there must be a secret inside. And inside all the other secret bunkers all around the world. There has to be something „higher“ stored inside etc.“

But the man is the only meaning. Even the biggest bunkers „only“ protect man or man's goods. We need no one to give us orders. No one possesses more wisdom than we already have inside ourselves. The only good leaders are leaders which enable you to discover and use your own inner wisdom.

POWER THROUGH INDIFFERENCE

Neoliberalism does not function by fanaticism. It functions by our indifference ("Laissez-les laisser faire") Everyone has an ironic distance regarding his own role. Even bosses are very ironic, they may even laugh about the dumbness to be a boss.

In times of post-ideology ideology is driven by this inner distance which does not take serious the symbolic mandate of the subject.

IRONIY

Another mind-control trick is irony. Naomi Klein describes a few cases how irony is used by commercials. The advertisers do sarcastic spots which anticipate the viewers commentary on the sofa. Being critical is impossible because irony surpasses your moral instance.

Irony was used to produce Kurt Cobain to death. Blinded by the ironic spotlight, neither Cobain nor Pearl Jam nor any other big grunge act managed to formulate any political statement.

„L'ART POUR L'ART“

They say that didn't have any purpose. I think thats wrong. Art shall help the worker's struggle or at least the struggle for consciousness.

Socialist art was art for all social classes and for all ages. The artist was no outsider, he was integrated into the people grace to the „Bitterfelder Weg“.

HOLLYWOOD

"Propaganda Placement" is more and more subtle. Today they use „Predictive Programming"-Strategy. Movies deliver role models. Earlier they even blatantly produced films to weaken social ideas. James Dean representing a worker fighting against the workers union etc.

CHAOS UND INJUSTICE ARE GLORIFICATED

In socialism men triumphates over chaos. Which means: Inequalities are equalized (Some people are tall, some are strong, some are handicapped etc.) There is solidarity.

The image shows a registration form for the U.S. Program of Green Card Lottery - Year 2012. The form is titled "Your American Dream Starts Here!" and includes a sub-header "Enter your details for a chance to live and work legally in the USA." The form is set against a background image of the Statue of Liberty. The registration fields include: First Name, Last Name, Country of Birth (with a dropdown menu), Email, and Email address again. There is a checkbox for "Get updates by Email" which is checked. The Phone field includes a dropdown for "Select Country", a "Area" field, and a "Phone" field. Below the phone field, there is a note: "The telephone helps us contact you when you win." The "Application Job and Education Status" section includes a question "Do you have a job OR Have you finished high school?" with a checked "Yes, I have a job OR I finished High School according to requirements details" option. The "Select your marriage status" section includes radio buttons for "I am NOT married" (selected) and "I am married". A red "Register" button is located at the bottom right of the form.

GREENCARD LOTTERY

Not so in capitalism. He even claims that „all men are born equal“. Casinos and stock markets glorificate chaos. The one who cannot get rich in business can still get rich in lottery. So one injustice does justify another injustice!!!

ABOUT BEING PROUD

I once met a rich man:

"I was wise and did chose a good life."

So I asked him:

„And how did you get the skill to be able to chose well like that?"

RACISM

Even Martin Luther King did never say that racism was a problem of lacking „Tolerance“. The problems which cause racism are social injustices, redundancy etc. So they are problems of the government. But the government's problems are privatized, too. So the private person has to deal with it. But not many people grasp that. Because we live in post-political times.

Moral is always there. The question isn't: „Are the people moral?". The question is: „What keeps them from being moral?"

It needs social measures to fight racism. But social measures are not accepted by Neoliberalism. Neoliberalism thinks: Social measures are an injustice to all the people who do not receive them...

And the rich countries never ask themselves: „Why do all those immigrants come into our country?" If you pose that question, you have to admit, that we are way to rich. Our money shall be given back to the people we robbed.

MONEY AS A SUBSTITUTE FOR RELIGION

Even the origins of money were religious: Coins were made of iron rods used to impale offered animals. Jesus wanted to separate Religion and Money. He spoke out against taking interests:

"When you give something to someone, preferable give it to someone who surely cannot give it back" (Tomas 96 coptic)

*„Do not collect treasures down on earth! Because you have to face moths and rust eating them or burglars stealing them. Better collect treasures in heaven (...)
Your heart will always be where your treasures are."* (Matthew 6,19-21)

CAPITALISM

In capitalism material stuff is regarded as „capial" - as the highest priority, even more important than man. Capital is dead work. It can only grow by sucking out workers. The hierarchy of capital society seems to be a natural order. But it is an order of persons.

COMMODITY FETISHISM

Exchange value (price) has a momentum of its own. Our industrie does not anymore want to produce practical value anymore. Exchange value is king. So people begin thinking that exchange value was the source of real value... The unleashed exchange value makes us confuse cause effect, subject and object.

An extreme example: At the Costa del Sol in Spain they build giant buildings with flats. But nearly no one will ever live there. They just build those blocks to kickstart a chain of investitions!

Capital seems to begin to live on its own and to work on its own. The banks recommend: „Let your money work for you!" - by interest and interest on interest. It seems like capital was the subject and workers were just objects. Money seems not be be just an expression of value anymore - It now seems to be

the real value. It seems to be the very substance all things are made of.

CHARACTER MASK

Man in capitalism wears the so-called "Character Mask": Goods cannot go to the market on their own. So man is necessary to present them. Thus there is an alienation.

MONEY IS NOT A MEDIUM OF EXCHANGE!

Money means private property. Each dollar bill is a certificate of debt. Professor Otto Steiger: „No known society did ever barter trade. And by no means did our society - which I regard as a society of private property.“

FREE MONEY

Because money became so alarmingly powerful Silvio Gesell searched an alternative more than 150 years ago. He invented „free money“ which was fleeting money with a date of expiry.

An experiment in Austrian community Wörgl was very successful. People paid their taxes in advance, redundancy sunk etc. Free economy flourished. 170 other communities did also want Free Money. But the experiment was stopped by government.

KEY CURRENCY DOLLAR

Dollar is key currency despite the US were unable to meet the gold standard. No problem, they simply abolished the gold standard! Then they manipulated the OPEC so that Oil could only be bought in dollars. Voilà: The USD stayed world's key currency! (What a coincidence: Saddam Hussein was killed shortly after announcing that he wanted to sell oil for other currencies than USD)

George Washington was made a deity (Apotheosis), to form an US-civil religion

UNBACKED VALUE

Once upon a time, money was backed by gold. Then by oil. Today, money is only backed by money. And that money often does not even exist as bills and coins - it just exists as numbers inside a computer system. Only 5 % of all money exist physically.

BANK'S LIE: Wanting 101 percent of 100...

Imagine the world's first bank opening. They give out 100 coins to the villagers. At the end of the years they want the coins back + 1 percent of interest. But who shall pay the 101st coin??? So there have to be debts always.

BANK'S LIE: Eating a cake and keeping it anyhow...

The same bank offers its clients to store their gold in a safe. They give out receipts. Soon those printed paper receipts are used as an instrument of payment instead of the real gold. No one uses the real gold anymore, no one comes to see if his gold is still there... So the bank can print more receipts than there is gold.

EGOISM

It is a system which increasingly puts the individual being against the society. Several generations were asked to accept or refuse the following statement:

"I have to grab what I can in this world, no one will give anything to me."

Elder Generation	(1909-45)	=	1/3 YES
Babyboomers	(1946-64)	=	1/2 YES
Generation X	(>1965)	=	2/3 YES

CAPITALISM INVADED CULTURE

Nearly whole life is commercially abused: Event gastronomy and thematic hiking trails, disney travels etc. = Man as the consumer of his own life.

The Nike-Hook is the most popular tattoo motive inside the USA!!! Brands are the only thing which gives meaning to a modern life.

"A great brand raises the bar-it adds a greater sense of purpose to the experience, whether it's the challenge to do your best in sports and fitness or the affirmation that the cup of coffee yo u're drinking really matters. "
Scott Bedbury (Marketingchef Nike/Starbucks)

"We must shift America from a needs- to a desires-culture. People must be trained to desire, to want new things, even before the old have been entirely consumed. Man's desires must overshadow his needs."
Paul Mazer (Lehman Brothers)

BRANDS

In the 80ties managemen theoreticians promoted the idea that successful enterprises shall not develop products anymore but only brands. The real product is not a sport shoe but rather its image. Such enterprises regard themselves as producers of meaning. „Swatch“ is not about watches - it is about the idea of time. IBM is not about computers - it is about computer „solutions“.

Marketing is very powerful. McDonalds e.g. manages to attract youth as well as children. The little toddler and his grandma are not scared by the hiphop gang. And the gang somehow does not regard McDonalds as uncool despite there are a lot of babies and grandmas around.

According to Althusser McDonalds is an ideological state apparatus. It is not just commercials - it is propaganda.

CANNIBALIZATION

Radical expansion tactics: Starbucks uses its "Cannibalization"-strategy = You keep opening one Starbucks after the other in the same area. You do not go to the next area until the present area is saturated. The sign for saturation: When there are so many Starbucks cafes that their own sales begin to sink!
(="Cannibalization")

CORRUPTION OF PUBLIC LIFE

Corporate advertisement invades our lifes deeper and deeper. It gets more and more subtle and organic to invade even deeper. Marketing experts are not anymore contented by child actors in TV-spots drinking coke - now they want whole schools participating in brainstorming contests for cokes next commercial!

Blockbusters are not only filled with product placement - now the whole film is regarded as a brand (Indiana Jones-„Franchise“ etc.)

Economy buys more and more public space and institutions, even scientific institutions: "Yahoo Chair of Information Systems Technology" etc.

MINDCONTROL BY LANGUAGE

Language expresses social relations, values, norms of the ruling class. With their language and their terms they generate reality. Free media is not neutral, becaus just because they are free they can be hijacked by pressure groups.

An euphemist vocabulary promotes neoliberal ideology. Example given: They do not call mass dismissals „mass dismissals“ - they call it „downsizing“.

MANIPULATED MEDIA

Soap water for making bubbles is often called „alcalic fluid“ in newspapers - Now it seems like cruel protestors wanted to harm policemen.

German governments gives out "Sprachregelungen" (language rules) for journalists and politicians.

April 11. 2002: US supported a putsch against Chavez. Private media broadcasted a lot of lies. Chavez' supporters allegedly shot at protestors, there was a tape with Venezuelan military leaders speaking out against Chavez because „peaceful

protestors'" blood was clinging to his hands... - A CNN employee nowadays stated that that tape was recorded BEFORE the incident. And the deaths were cause by mysterious sharpshooters on the roofs.

CHARITY = CROCODILE TEARS

Crimes against manhood cannot be balanced by a few good deeds. When Bill Gates donates money it is like chocolate: First you get constipation, then diarrhea.

CULTURE

Culture makes man being man. Cultur is not necessary - but it makes life worth living. It has no purpose - but not no sense. Sadly our culture is corroded by postmodernism.

POSTMODERNISM

"Postmodern Philosophy is nothing else than the afterlife of national-socialism in democracy" (Adorno).

Postmodernism is the style of having no style. It is related to the „end of history“-claim mentioned above. Everything revolves around itself. Everything is possible: Obama can fight against Batman, fictive people against real people etc. „No reality is higher than the other reality“ Everything gets taken equally serious: Science, Literature, History, Legends, Fairytales, Fortune Cookies, Law, Bible.

In modern times there was no god anymore. Nowadays it does not even matter if there is one or not!

"POSITIVE THINKING"

Maybe the theory that positive thoughts bring luck is really true. But only for the single individual.

If you analyze „positive Thinking“ you recognize pure fascism hidden behind its facade. To be able to overlook the damage they cause, the damagers have to think positive... - Dr. Martin Seligman, inventor of "positive Psychology" teaches US-troops "Positive Thinking" (an 31 mio. dollar job).

It is also promoted in pop culture: NAS does sing "Poverty's a mind state" So the poor can be blamed for being poor.

Before Tupac was murdered he warned us about "fake sellout"-rappers. He describes how musicians are forced to enter secret societies.

SEXUALITY

A wrong sexuality represents our brutal economic order: Highheels, a symbol of power like skyscrapers. There are movies full of blowjobs - we are a very oral society, a society of consumers and speakers.

Brain is conditioned to money in the same way it reacts having sex (happiness hormone in Nucleus Accumbens)

According to Max Weber, capitalism is a substitute for repressed sexual desires. Imagine a child asking a CEO why he wants more growth.

We need more yield!

Why?

We need to get more money to invest it!

Why?

We need bigger markets!

Why?

We need more money!

Why?

etc.

A frustrating search for answers. Human quest for meaning stays unfulfilled. So it is repressed into sub-consciousness.

Sexualization is a mean of class struggle from above: Making working class keen on potency (power), so the workers can be integrated into the production process easily. Gaining money seems like a gain of potency.

There is an optimum for everything. Why do they want more and more growth? Will there be more consciousness on earth when there is more growth? I think there will be even less.

Love is not about friction! It is about warmth and magnetism. A technique called „Karezza“ arose amongs the life reform-movement. I can recommend very much to try it during your next sexytime.

RELIGION

If you leave neoliberal mainstream you have to deal with a loss of orientation. You have to find something new to rely to. There are a lot of religions, and most of them are somehow true and can help you.

"God need us the become consious" (C.G. Jung)

Some people think that religion is just a human invention, just another philosophic system which was invented to explain world. But it isn't. Religion could not have been invented. A cogitable god is not believable. And a believable god is not cogitable.

Jesus said a lot of unbelievable things but they all turn out to be true - in a way. I think the afterlife maybe means your Psyche. The sermon of the mount states that troubled people will be rewarded in their afterlife. Does „afterlife“ probably mean your Psyche? Does it stand for the „rich inner world“ prisoners in jail frequently report to discover?

Jahwe means "I am that I am". IS GOD CONSCIOUSNESS?

REINCARNATION

It really exists: If you do not fight the evil you suffer from today then another one will be in the same situation tomorrow.

Nietzsche believed in „Eternal Return“. Everything on earth repeats and repeats on and on and on. So you have to do everything you do well enough to be able to do it eternally. So you have to adjust the planet like that.

INTERNET

The Internet is abused by neoliberal forces. „Telecommunication“ is nothing else than remote control. Internet is the peak of technological evolution. But it is like Voltaire said:

"The old romans built their masterful buildings - for wild animals to fight!"

Sociologists have discovered that the internet develops a new type of man: The proteic personality.

CIA's firm "In-Q-Tel" hides behind Facebook. It is a data-mining programme of the IAO ("Information Awareness Office").

Each user's post to the internet teaches the machine a thought. The machine has to hijack humans for the machine to become more humanoid... The internet-machine is similar to „the chess turk“. The turk was a robot which was able to play chess. But the robot only worked grace to a human hidden under the table. We are like that person today.

REVOLUTION DOES NOT FAIL, IT JUST LASTS!

And even if it would fail: Having tried it matters, trying it is already a goal, again and again. So you will never have to accuse yourself of having missed to try.

Revolutions are not happenings - Revolutions are processes. The thing we call Revolution is not just the putsch itself. Its also everything that follows. Revolution develops day by day, and after the Putsch it even keeps on developping itself on and on. Revolution starts with ordinary things: Drinking no imperialist coke anymore, eating no meat anymore etc.

VEGETARISM

Take a look at the Statue of „Liberty“: Its a pretty girl which is very much loved by our masonic friends. She got many names, she is called Diana, Lucivera, Conservatrix, Victrix. She is the goddess of moon and hunt.

It absolutely is not cool to raise your fist while holding a big mac in the other hand. You have to be consequent and abstinent. But whats having to give up shopping compared to gaining that much love and purpose in life by fighting for justice? A man who has purpose does not need luxury anymore!

Vegetarism is the first step to eternal life. The one who stops killing will not be killed.

HOW TO TAKE ACTION?

Neoliberalism seems invincible. Neoliberalism does not make any mistakes - as it does just nothing. It does just let happen things („Laisser faire“). It relays on human cowardness and weakness.

Neoliberalism is not a big something - it is nothing. You cannot „destroy“ a vacuum. You can only fill it. Giving hope to the people to create alternatives.

You got more means than you think, there are more strategies than you know, also

very creative tactiques, and for the most they even cannot imprison you (or at least not for years).

Helping a zine for jobless people, organizing rings a bartertrade. Superbarrio is a lawyer dressed as a hero who fights for his neighborhood. The "Überflüssigen" (german: „the superfluous ones“) are people who squat corrupt employment bureaus and disturb big business meetings. Reverend Billy founded the „Church of Stop“ shopping. And we Culture Jammers deface commercials, e.g. billboard ads:

It is not about the paint you put onto an ad - it's about the message which has to be witty, so people sympathize, and you are not just regarded as sorta stupid vandal.

A very good role model are the zapatista. They dream of a participatory-democratic country - not a country of polling booths. Council democracy has to be set up, a democracy originating from the man in the street.

We have to kill the idea that only money work was necessary work. We have to eliminate that idea inside the people's mind. And show alternatives: There are other ways to organize society but economic usability.

Your knowledge as any outsider is very precious. You have to find similar people who „pay“ you for THAT.

It seems like you were powerless. It seems like you could not change anything. It seems like you would not make progress. But the most important thing is: Going into the right direction.
