Five Star Conference Planning

January 5, 2012

To whom it may concern:

I would like to recommend Michael Mayhew as a candidate for a position with your organization. Michael was hired as an Event Planner at a time when our company experienced unprecedented growth. He was part of a team that planned and executed approximately 2000 events.

During this exciting but very busy time, Michael helped the company overcome many obstacles associated with delivering such a large number of conferences. He was extremely adaptable through many changes and did an excellent job in his position. Michael demonstrated his creative problem solving skills daily, had the ability to plan and organize multiple events at the same time, all the while maintaining excellent customer service.

Michael was always willing to offer his assistance to his co-workers and proved to be an outstanding team player. He had tremendous rapport with our clients, and other professional organizations. Michael would be an asset to any employer and I recommend him for any endeavor he chooses to pursue.

Please feel free to contact me directly with any questions at 321-626-7789.

Sincerely,

Steve Davis
President
