

PLANNERS' GATHERING

Friday, September 7, 2012

Are you PEV Ready? Planning for Plug-in Electric Vehicles in your Community

As home to the big three auto companies and numerous auto part suppliers, southeast Michigan has great potential to benefit from the success of electric vehicles. With proper planning we can build on our automotive heritage and help bring the industry into a new era – all while establishing this region and the state as a national leader.

The **Plug-In Ready Michigan Plan** helps you become ready by tackling key questions on the future of electric vehicles and providing the tools necessary for municipalities to be prepared. At this Planners' Gathering, the team will walk you through a step-by-step approach, making it easy for you to

join the growing coalition of "Champion Communities" that are PEV ready and that are working to establish Oakland County and Michigan as a leader in the electric vehicle industry. Come learn more about this emerging issue and how the Plan can be useful to you.
