

Dear Ken:

As you know, **the issues that are facing our country are too important not to be discussed.** That's why today our campaign called on Congressman Crawford to accept debates in Stuttgart and the AETN debate.

For a sitting member of Congress to avoid debate is simply unacceptable. **Congressman Crawford continues to remain unaccountable and refuses to explain his voting record to the people he was elected to serve.** It's important the people of the 1st district hear a candid discussion about his votes to end medicare, to cut college aid to millions, and his parties refusal to produce a 2012 Farm Bill.

Please join us in calling for a debate about these important issues. Call Congressman Crawford's office today and tell him Arkansan's deserve to see a debate about these important issues.

Sincerely,  
Brian Richardson  
Campaign Manager

P.S. We've attached the press release calling on Congressman Crawford to step-up and debate.
