Please and thank you.

Congratulations!

You have just downloaded My Inspirational Gifts' first e-book, Simple and Sweet. In this book you will find 3 simple and sweet DIY craft ideas with the needed templates. I chose these 3 projects because I wanted to offer you simple projects you would be proud to complete and share. I chose this template because this particular picture always gets raving reviews.

I am hoping you will email a picture of your completed Simple and Sweet project(s) from this e-book. I would love to post your pic on my site and give credit to you. I look forward to seeing your pics.

My deepest apologies if you downloaded an earlier version of this complimentary e-book and it did not include the template. I feel horrible about this error. As soon as this mistake was realized, I replaced it with the correct version and made it easily recognizable.

Please accept my sincere apologies.

Blessings always
Judy

Supplies

Card template (see last page of e-book)

1 sheet of card stock paper

Scissors

Glue

1 glue dot

Color printer

Glitter and other desired embellishments

Optional: printed or solid colored paper about 6 x 8 if you want to add lining to the inside of the book. Narrow ribbon to decorate and wrap around the completed book.

Feed a piece of 8.5 x 11 card stock through your printer and print out the card template from the last page of this e-book.

Cut the bottom card on the gray line provided. The bottom card is in the landscape position. After it is cut on that line, it will look like a bookmark.

Fold the bookmark at the top of the card picture and the bottom of the card (under the copyright). Now, what once looked like a bookmark, opens and closes like a book of matches. Note: the side with the picture on it is the front of the book

Enhance the color of the pic on the front of the book with colored pencils and/or decorate and embellish the outside of the book as desired. Leave the inside of the book to write your sentiments to the new couple or glue a pretty paper to the inside of the book for a lining.

Cut out each of the remaining cards and decorate as desired. Important Note: the cards have to be able to lay flat and evenly on top of each other. Do not over decorate or you will not be able to close your Book of Love easily.

When all the cards you decorated are ready and the glue has finished drying, gather the cards together and lay them on the inside of the Book of Love.

Add a small glue dot on one inside flap of your Book of Love, to help keep it closed and the cards secured. *Optional:* put a pretty ribbon around your newly made gift to keep the cards from falling out.

Congratulations Love Cards (fanable)
