- cures in UV light only in 1 minute
- also cures in LED light only in 20 seconds
- breakproof gum gels (incredible flexibility)
- aslo great for pedicure purposes
- in exclusive gift box

Luxury Line UV/LED gels

Mystic Nails Hungary proudly presents its brand new line of UV gels which gives you the key to modern high-quality nail sculpting due to its unique prominent features. This new line has all those advantages and properties which ensure quick, precise and easy usage and also durable, resistant nails. The curing time (just like at any other general basic Mystic Nails UV gels) is only 1 minute in UV light moreover the Luxury Line gels can cure in LED light as well in not more than 20 seconds. Due to an improved formula with special components these gels provide extreme flexibility for the sculpted nails. Extremely flexible, breakproof gum gels which are perfect for pedicure purposes as well. But it still was not enough for us and we wanted more! Namely we improved these gels as a soak off system which means they can be removed gently with its special soak off remover. Considering all the facts above we decided to name this new line of UV gels „the Luxury Gel line” which definetly reflects the premium quality it represents. Just like elit quality beauty is also part of the luxury... that is why all 15 g Luxury Gels come in exclusive gift boxes.

Silky Clear Gel
4 g, 15 g

This clear bonding gel is used as a base layer but also excellent for covering purposes due to its high shine and 100 % clear transparency after curing. Thin viscosity flexible clear gel which has very good adhesion to natural nails and tips. Silky Clear Gel cures in 1 minute. (min. 36 W UV light)

Medium Clear Gel LED
4 g, 15 g, 30 g, 50 g

The very best multifunctional sculpting gel with amazing adhesion and incredible control. Medium viscosity clear gel which is excellent for sculpting, filling and covering purposes as well. The new improved edition of Medium Clear Gel cures in 1 minute (min. 36 W UV light) and also cures in LED light in 20 sec.

Builder Clear Gel
4 g, 15 g, 30 g, 50 g

The ideal choice for beginners and also for advanced nail technicians. Thick viscosity clear sculpting gel with excellent adhesion and high glossy finish. Durable 100% clear gel without yellowing. Builder Clear Gel cures in 1 minute (min. 36 W UV light)

Builder Pink Gel

4 g, 15 g

This one-phase light pink colored builder gel has very high viscosity and extra strength. Due to its viscosity this gel is excellent for filling the broken nail corners even without using nail form. Will turn into 100% transparent after curing. Curing time: 1 minute (min. 36 W UV lamp)

Super Pink Gel

4 g, 30 g

*Superb one-phase sculpting gel with medium viscosity and light pink color which will turn water clear after curing. Advanced **Pure Adhesion** admixture to promote excellent adhesion. Amazing combination of strength and flexibility. Curing time: 1 minute (min. 36 W UV lamp)*

Natural Gel LED

4 g, 15 g

Natural colored, flowing viscosity, self levelling camouflage gel. Also recommended to use as a base gel on problematic nails to ensure the very best adhesion. The new improved edition cures also in LED light in 20 sec. Curing time: 1 minute (min. 36 W UV lamp)

Cover Pink Gel LED

4 g, 15 g

Special colored camouflage gel with medium viscosity and superb covering capability. The new improved version of Cover Pink Gel also cures in LED light in 30 sec. Curing time: 1 minute (min. 36 W UV lamp)

MN
MYSTIC NAILS

French Pink Gel

4 g, 15 g, 30 g

Medium viscosity light pink colored french gel to cover the sculpted nails as a top layer and provide nice natural appearance. Non burning very durable self levelling french pink gel with easy application.

Curing time: 1 minute (min. 36 W UV lamp)

Builder White Gel

4 g, 15 g

Advanced snow white UV gel with the best properties what a french white gel can have. Perfect viscosity to give ultimate control for performing the typical smile line of the french manicure. Absolutely no yellowing after curing. The new improved edition of Builder White Gel also cures in LED light in 20 sec.

Curing time: 1 minute (min. 36 W UV lamp)

X White Gel

4 g, 15 g

Flowing viscosity french white gel. Self levelling snow white gel without any yellow effects. Durable, flexible thin gel which is very easy to apply and work with.

The improved version of X White Gel also cures in LED light only in 20 sec.

Curing time: 1 minute (min. 36 W UV lamp)

ColorMe! 14 ml
Lakk-zselé / Polish-Gel LED

The ColorMe! range of polish-gels is a brand new generation of the gel-lacks. It provides simple usage and long lasting nails. This new selection is an absolute member of the Mystic Nails UV gel family as it also cures only in 1 minute under UV light. Moreover these unique products also cure in LED light in 15-20 seconds. Choose the colors you like the most and create simply and quickly beautiful nails which reflect perfect elegance and provide comfortable wear at the same time. The results will be convincing.

STEP BY STEP

COLORMe!

Lakk-zselé / Polish-Gel

Step 1.

Clean the natural nail with acetone and file the surface with buffer block.

Step 2.

Prepare the entire surface of the natural nail with Acid Free Primer.

Step 3.

Apply one layer of ColorMe! Base/Gloss gel-lack and cure it in UV light for 2 minutes or in LED light for 20 seconds.

Step 4-5.

Apply a thin layer of ColorMe! Mystic color and cure it. Apply one more color layer if needed or desired and cure it.

Step 6.

Cover the nail with Base/Gloss gel-lack and cure it in UV light (2 min.) or in LED light (20 sec.). Remove the tacky residue after curing with Gel Cleanser.

Step 7.

Gently file the surface of the nail with buffer block where you wish to make the decoration and paint the desired pattern with white acril paint.

Step 8.

When the acril paint is dry apply a thin layer of ColorMe! Base/Gloss and cure it. Remove the tacky residue with Gel Cleanser.
