Riccardo Ronco – Head of Technical Analysis, Aviate Global

TOPIC: " *The 3 P's of Trendfollowing:
Philosophy, Psychology & Practise* "

SPEAKER BIO :

Riccardo follows large- and mid-cap European and US equities, paying attention to domestic and foreign equity indices, currencies, commodities and interest rates.

As a medium-term trend follower, his approach is strongly quantitative in nature; particular attention, however, is devoted to identifying reversal patterns characterized by excessive consensus among investors.

Riccardo brings more than 15 years of experience in trading, quantitative analysis, and teaching technical analysis in the United Kingdom and Italy. Prior to joining Aviate Global in April 2010, Riccardo worked for Credit Agricole Indosuez, Banca Intesa Group, and Banca AntonVeneta (MontePaschi Group) and FBR Capital Markets.

In his presentation, Riccardo will summarise all his knowledge and experience about trend following as an investment and trading technique

Chapter Meeting Date : 18th of February 2013

Time: 18:30 – 20:30

Venue: City Index, 16-18 Finsbury Circus, London, EC2M 7EB
