## Common Events

Entering Wrong Order Type

Entering In Wrong Direction

Forgetting To Cancel Order

# It Happens To Everyone

# Market Order

Enter @ Current Market Price

Very Few Limitations

Most Common Order Type

## Limitations

Cannot Be Filled If Market Is Not Open

Risk Getting Bad Fill

# Market Orders Like Liquidity

Avoid Volatility

Avoid Illiquid Markets

Avoid During Opening And Closing

# Limit Order

Buy Below Current Price

Sell Above Current Price

## Good Way To Remember Limit Order

Get Filled At Price That's Better Than Current  
Market Price

# Consider Limit Orders

Upside  
Get Price You Want

Downside  
May Not Get Filled

## How Important Is The Fill

Are You In A  
Position That's  
Moving Rapidly  
Against You With  
Large Loss

Are You In A  
Position That's  
Profitable Or Not  
Going Against  
You

## Stop Order

Buy Above The Current Market Price

Sell Below The Current Market Price

# Stop Order

Protect Existing Position

Protect Long Against Sharp Down Move

Protect Short Against Large Up Move

# Stop Order Are Used For Entry

Buy Above Current Market Price

Sell Below Current Market Price

Using Momentum To Your Advantage

Always A Downside

No Guarantee Of Fill

Price Fill May Be Worse Than Desired

We Covered The Three Basic Orders

Market Orders

Limit Orders

Stop Orders
