

Question: How can our limited in theory, although ever expanding, Universe, or "Realm" of all local Physical Existence of Matter and Energy, exist with in already existing, literally infinite All-Directional Multi-Dimensional, Non-Realm of Absolute Non-existence? How would Parallel and/or Perpendicular universes exist in a shared infinite expanse of Nothingness with-in and outside of themselves?

Ryan Goodpastor

Sincerely,

Your Confidential Contact Information form will be kept in your file in the Housing Office and can be updated by submitting a new form. If you have any questions about this policy or form, please see me in the Housing Office or Jon Hamblen in the Security Office. We appreciate your time and consideration in this matter.

We are requesting this information in the event that a missing person investigation is being conducted on your behalf. The purpose of this information is to determine if you are truly missing or simply failed to make contact with the person who reported you missing. The individual you list on the form can be anyone and does not have to be a parent/guardian. However, it should be someone who would know where you are located if you were not actually missing.

If you are new to the dorms, then please read the policy, complete the form and turn it in to the Housing Office. If you submitted one before and don't wish to make any changes, then you don't need to do anything. If you submitted one before and wish to update it, then please complete the form and turn it in to the Housing Office.

In accordance with the federal Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, we have the Residence Halls Missing Person Policy and Confidential Contact Information. After reading the policy, please complete and submit the Confidential Contact Information form to the Housing Office.

Dear Kyle,

SIERRA COLLEGE

ADMD = All Directional, Multi-Dimensional

0°K status = Relative volume of Non-Existence of matter, Energy, or time.

Degree (K) Kelvin = Measure of Energy f/λ of a scatter in a given Relative Volume of "space"

f_2 Frequency of Energy wave

① λ = wave length relative to f of an Energy wave or signature.

- Relative Potential Energy of matter with in local Energy boundaries and Laws of Physics!

and Laws of Physics!
(total) Energy - $E = mc^2 = \frac{m}{f \lambda}$
M = Matter
m = mass

M = Matter
m = mass

Possible ADMN area around origin point of incidence that contains close to ~~little~~ infinitely small amounts of varying states of $\frac{m}{(F/2)}$ due to resonance of

total angular momentum of universe, and black holes, and over time movement of existing M/E in ADMD outward.

[illegible]

However, possible in parallel & perpendicular amount of variations, complexities and distances in the way further infinite of existence.

All directional & multi-dimensional movement of all energy determined by big bang.

possible string
theory connection?
