

Fashion Streetwear Brand

collection Spring / Summer 2013

Made in France

Life is a Comic...

Created in 2010 by a young Parisian, Get bizzi is a company that shakes up the tee-shirt industry. It proposes a collection of quality streetwear clothing for men & women who want style and quality. The brand was founded in 2010 and has already grown a lot.

It has always been fundamental for the company to consistently offer new collections to their fans.

Get bizzi has already launched four collections interpreting different artists, designed in collaboration with the best graphic designers in Paris.

The brand conveys its fans an artistic message that goes way beyond the tee-shirts it sells. Each comic strip tells a story that each one of the owners can interpret in its own way...

Get bizzi is currently sold in many countries. We are located in Paris with our own creative *design studio*
