In: Originality Fail: US/UK recycle 50 year-old Syria plans

An apt illustration of how US and British imperialist warcriminales refuse to tolerate any sovereign politics not bowing to their diktat, and the fi **Safe Mode: Off** re terrorism) these freedom'n'democracy-dispensing hypocrites will use in their desperate efforts to impose compliant puppet regimes by force.

@Die Humans -- Did I upset you? Do you identify with 'US and British imperialist warcriminales'?

In any case, maybe one day you'll be inspired to try and develop an actual counter-argument, as the empty spluttering makes a poor foil against historical facts.

I wish we'd commit war crimes, give all of you something to really whine and cry about. Imagine if we didn't stick to most of the "rules" .or "war crimes" in "wars" where the gist is to kill the other side. Now fuck off potato boy. Go back to banging your sister and the family sheep.

OK, you answered both questions in the affirmative.

This leads to follow-ups:

1. Who is 'we'?
2. Do you agree that launching a war of aggression is a crime against peace and in itself an offence against the principle of 'jus ad bellum', as defined by the Nuremberg Charter?
3. How do you think humanity as a whole should deal with aggressors and warcriminales?
4. Does this phrase, "then conquer we must, when our cause it is just" not conversely demand that 'we', if embarked upon an unjustified war, must deservedly be defeated and made to bear the consequences of 'our' crime? **Less..**
