NOTES & INFORMATION

Heart Goddess designs are inspired from a place of love, joy & gratitude and infused with those vibrations.

All the natural stones are carefully picked according to their unique colors and therapeutic properties.

Due to the nature of handcrafted work and the variations in natural stones, no two pieces will ever be exactly alike, making each of them a one-of-a-kind treasure.

All pieces are subject to availability of stones & other materials.

Please feel free to contact me for availability, information, or to see more photos of any particular piece.

Many pieces can be created in solid yellow, white, (and sometimes) Rose Gold; please contact me for a quote.

****Due to the nature of the design, wire-wrapped rings cannot be custom ordered. Please contact me for current inventory.**

Gratitude fund: I donate a percentage of every sale to various charities.
