**Objective:** Find a career where we can conjointly utilize our skills & past work experience to improve customer service. Both of us are dependable, and we promise to be responsible as your representative salespeople, locksmith, provider of 24/7 on-call roadside assistance, or in another way: a representative of your company. There is a need for our services in many places in the world, so our goal is to replace your low-yield, high-maintenance employee(s). We are able to provide the labor you previously required of at least 2 laborers. **We are willing to relocate to almost anywhere.**

**Goals for income and work environment:** Starting income goal is \$600/month + room and board (that's \$150/week, plus food for both of us, and a place to clean up and sleep in). Long-term income goal of \$100k+/year should be reached within 5 years. We can relocate to anywhere in the world where the local people welcome our services, including thoroughfares where there is a heavy amount of traffic, off-the-beaten-path (rural areas), and/or areas where other individuals who provide similar services as we do, are just too scared & wimpy to go (because we are not).

## \*MOZES WEEDETH\*

I am Mozes, Locksmith, Preacher,  
Scribe & Translator who weedeth.  
Here is my resume  
That thou needeth.

I see weeds growing  
Between rocks on your land.  
I grip them strong,  
And pulleth out by hand.

I weedeth.

I harbor the labor that thou needeth.  
Work to do, with you I pleadeth.

I care not for money, relationships,  
Or other human things.  
Neither do I care to understand  
What sadness that brings.

Oh LORD, thy creation is large in size.  
Thy work has proven great, for thou art wise.

On thine land art many rocks & stones,  
Like concrete sidewalks, asphalt roads,  
And new construction  
Where we see cones.

It's time we got together to talk about  
Those weeds & things you'd rather be without.

I see a weed that grows on your land in my site.  
I grip it strong & hold it tight.  
I grab it by the roots without any doubt.  
Then I gather my strength, and pull it out.

I weedeth.

When I weedeth, my stress is reduced.  
That is what I have deduced.

I prefer to rest among the grasses –  
My place of refuge away from the masses.

### Ref. Matthew Chapter 13

He set another parable before them, saying, "The kingdom of heaven may be compared to a man who sowed good seed of grain in his field, but while men were sleeping, his enemy came and sowed weeds among the good seed and went away. But when the stalks from the good seed sprouted and produced grain, then the weeds also appeared. Then after the slaves of the master of the house came, they said to him, "Sir, didn't you sow good seed in your field? Then where have the weeds come from?" So he said to them, "An enemy has done this." Therefore the slaves said to him, "Then, do you wish that we go and pick them?" But he said, "No, lest while you are picking the weeds, you uproot the good grain together with them. Permit them both to grow together until the harvest; and when it is the time of harvest I will tell the harvesters, 'First gather up the weeds and tie them into bundles to burn them up, and then gather the wheat into my barn.' " Then when he left the crowds, he went into the house. And his disciples came to him, saying, "Explain to us the parable of the weeds of the field."
