

# Baby Bear and The Letter Bb

**B b**

# The Letter Bb

Trace and write Bb.

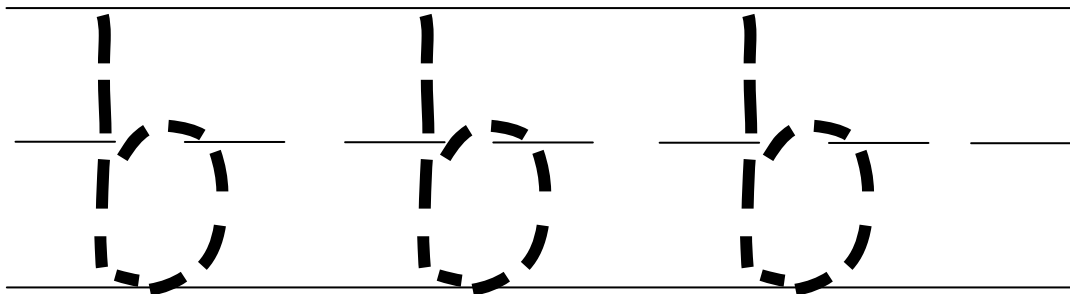

B

The letter "b" makes the "bear" sound.

b

## Brown Baby Bear

Brown baby bear belongs to the brown bear family.

Brown bears live in Asia, North America and Europe.

Brown bears like to live alone.

Brown bears like to eat fruits, grass, bulbs, roots, plants, insects, fish and small animals.

Brown bears are big animals with long thick fur. They have 4 limbs. Two front limbs and two hind limbs. They can stand on their 2 hind limbs (legs) and they walk on all four limbs.

Brown baby bears are born in the winter or in early spring. Before they are born the mother bear makes a den inside of a cave for her and her unborn cubs.

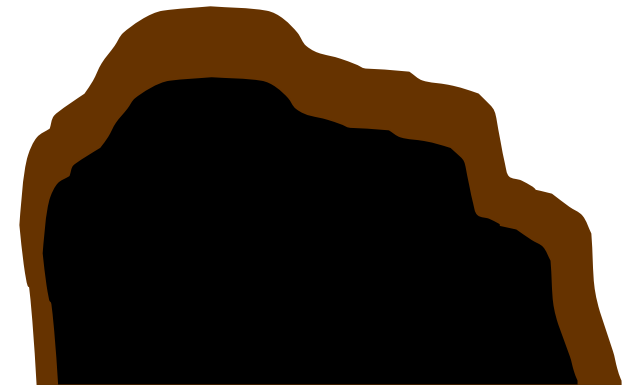

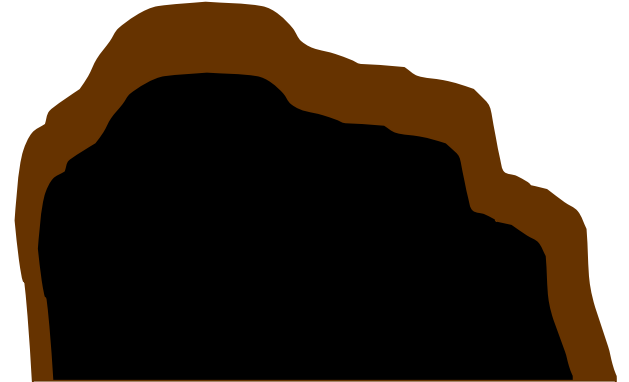

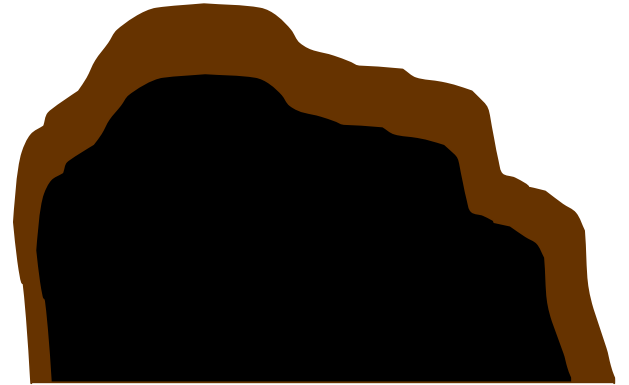

The den will keep them warm during the winter months.

Baby bears are called cubs.

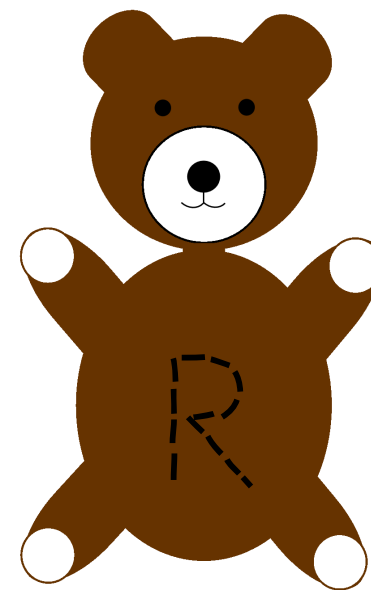

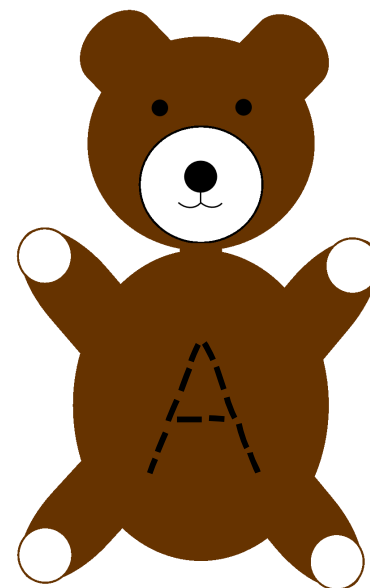

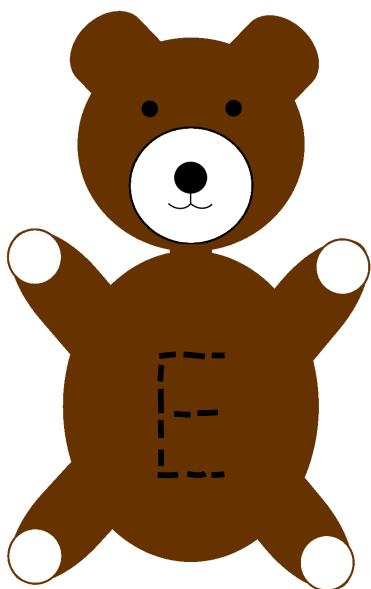

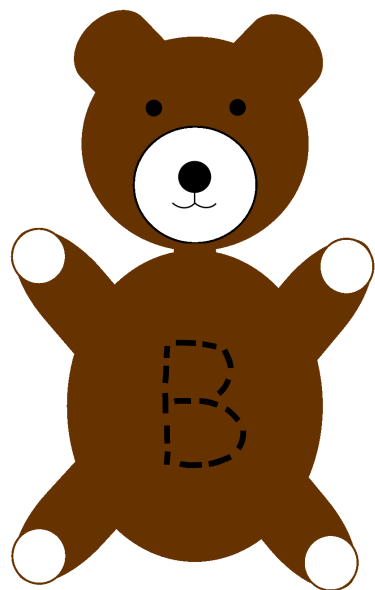

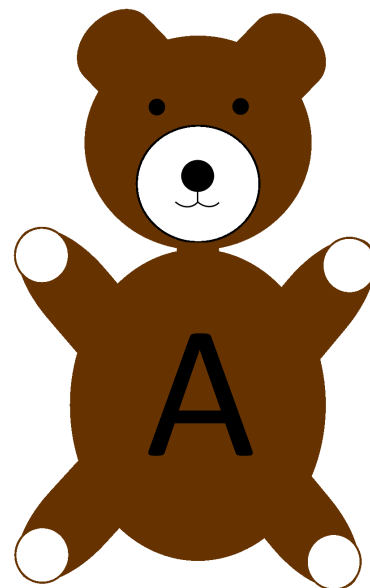

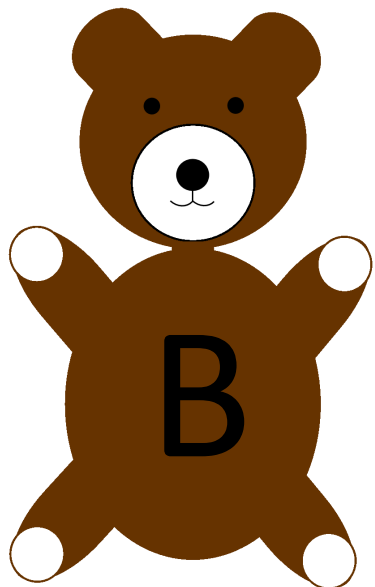

When they are young they live with their mothers for 2 to 3 years.

Help the brown bears to their cave before winter.

Trace the line from each bear to each cave.

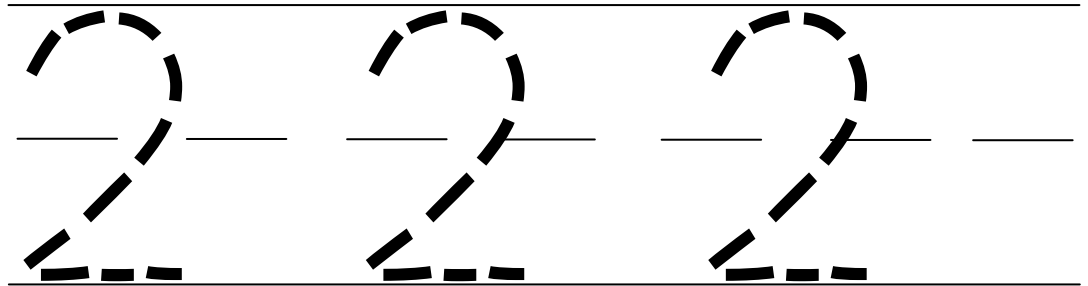

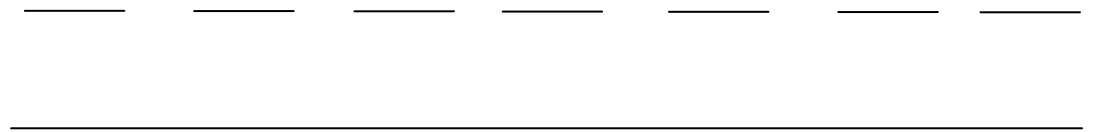

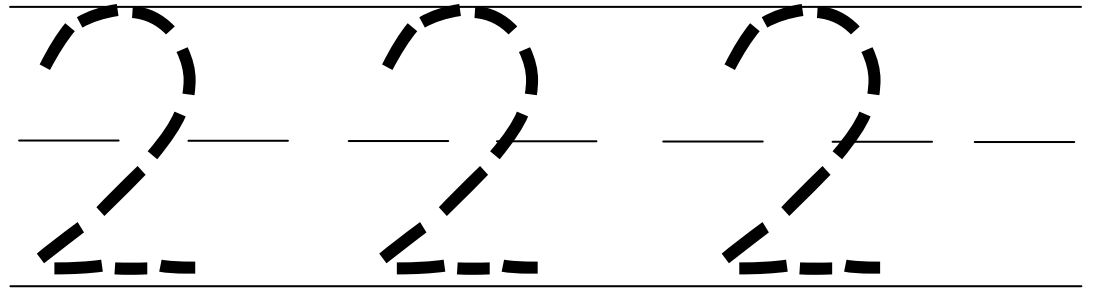

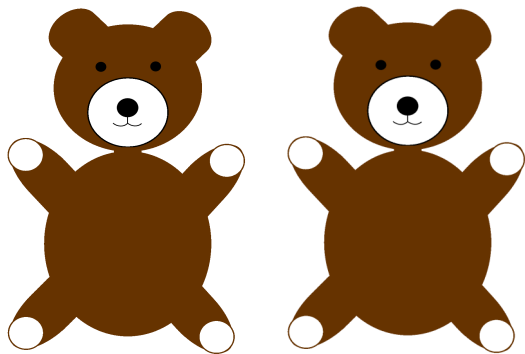

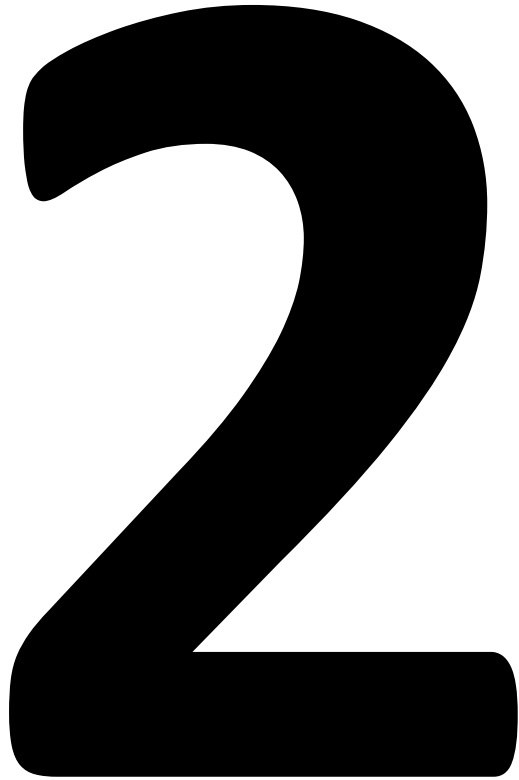

Read and Trace

# The Number 2

Trace and write the number 2.

1

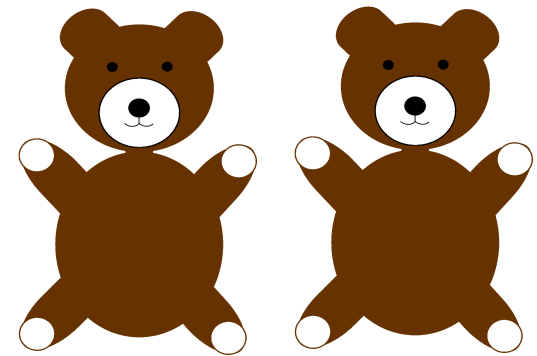

one

Cut dotted lines. Make cards with numbers, words and bears. Match cards to matching number, word and bear set on learning strips on page 8.

2

two

1

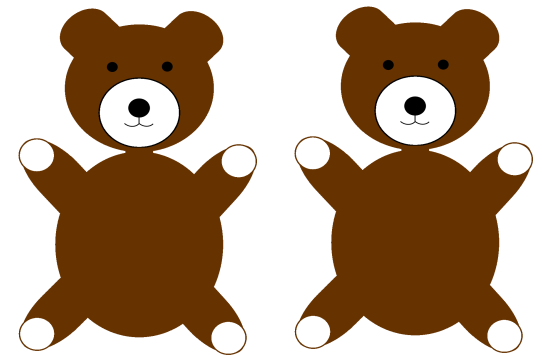

one
