- *Aerobatics
- *ATP
- *CFI
- *Cirrus
- *Commercial
- *Instrument
- *Mountain flying
- *Multi-engine
- *Tailwheel

Experience our full-motion Redbird simulator!

Take a Discovery Flight

and discover the joy of flying!

If you've never been up in a single engine airplane before or if you're just thinking about learning to fly, a Discovery Flight is a great way to start.

Your pilot will be one of Aspen's Certified Flight Instructors. He or she will first show you how to "pre-flight" the airplane. Then, you'll climb aboard, fire it up, radio for a taxi clearance, and head for the active runway.

Soon you will find yourself floating gently off the ground and into the exciting world of flying!

We have a variety of Discovery Flight options ranging from just \$99 to \$199, so give us a call or stop by to schedule your first flight!

Learn to Fly at

Denver's Premier
Cessna Pilot Center

So you want be a Pilot?

One of the primary goals of
Aspen Flying Club
is to bring the thrill and excitement of
general aviation to the masses.

We offer training for everything from Sport
Pilot to Airline Transport Pilot (ATP) and
everything in between. Our qualified Certi-
fied Flight Instructors (CFI) will provide you
with the necessary education required to
fulfill any of your aviation goals.

You'll want to start your training by obtain-
ing a Sport Pilot or Private Pilot certificate.

	<i>Sport Pilot</i>	<i>Private Pilot</i>
<i>Minimum Training Time</i>	20 Hours	40 Hours
<i>Night Flying</i>	No	Yes
<i>Max Number of Passengers</i>	1	Limited to Capacity of Aircraft
<i>Max Altitude</i>	10,000 feet MSL or 2,000 AGL (whichever is higher)	Limited with the availability of on-board oxygen
<i>Flying in Tower-Controlled Airspace</i>	Yes, with additional training and endorsement	Yes
<i>Aircraft</i>	Light Sport Aircraft	Most general aviation aircraft with appropriate type rating
<i>FAA Medical Exam required</i>	No. A valid vehicle driver's license can be used as proof of medical competence provided the prospective pilot was not rejected for their last Airman Medical Certificate	Yes. A third class medical certificate from an Aviation Medical Examiner is required.

Aspen Flying Club has the largest, most diverse,
general aviation aircraft fleet in all of Colorado.
We have aircraft to meet whatever your needs
may be, from basic trainers to
advanced cross-country machines.

We Offer Ground School!

Learning to fly is fun! But you do have to hit the books in order to learn the material that can't be covered in the cockpit. While you can certainly take care of your studying on your own, most people prefer to attend one of our classroom courses.

**Sport Pilot/Private Pilot Ground School*

Learn everything you need to know to pass the
FAA Sport or Private pilot written exams.

**Instrument Ground School*

Learn all the ground training necessary to pass the
FAA Instrument written exam.

**Mountain Flying Course*

Learn how to fly in the terrain of the wondrous Rocky Mountains.
Develop the skillset for performance considerations,
go/no-go judgments, flight planning, and confidence for mountain flying.

**Basic/Advanced G1000 Courses*

The Garmin G1000 has revolutionized the General Aviation cockpit
by adding some phenomenal capabilities and improving the
pilot's situational awareness.

Learn the basic and advanced G1000 systems in these courses.

**Check the Aspen Flying Club website for
the complete list of offered courses, prices, and start dates.*

How much does it cost?*

	<i>Sport Pilot</i>	<i>Private Pilot</i>
<i>Airplane Rental</i>	\$2,400 (min 20 hours)	\$3,960 (min 40 hours)
<i>Instructor Fees</i>	\$800	\$1,800
<i>Training Materials</i>	\$299	\$299
<i>Aviation Headset</i>	\$99	\$99
<i>Club Dues</i>	\$35/month	\$35/month
<i>Insurance Pool Fee</i>	\$40/annually	\$40/annually
<i>FAA Written Exam</i>	\$150	\$150
<i>FAA Practical Exam</i>	\$450	\$450

*Final costs may vary significantly depending on factors including the student's level of commitment and proficiency. The best way to minimize cost is to fly often and come prepared for each lesson.
