

Already a Certified Pilot?

We offer the following advanced training:

- *Aerobatics
- *ATP
- *CFI
- *Cirrus
- *Commercial
- *Instrument
- *Mountain flying
- *Multi-engine
- *Tailwheel

Experience our full-motion Redbird simulator!

Take a Discovery Flight

and discover the joy of flying!

If you've never been up in a single engine airplane before or if you're just thinking about learning to fly, a Discovery Flight is a great way to start.

Your pilot will be one of Aspen's Certified Flight Instructors. He or she will first show you how to "pre-flight" the airplane. Then, you'll climb aboard, fire it up, radio for a taxi clearance, and head for the active runway.

Soon you will find yourself floating gently off the ground and into the exciting world of flying!

We have a variety of Discovery Flight options ranging from just \$99 to \$199, so give us a call or stop by to schedule your first flight!

Learn to Fly at

Cessna

Denver's Premier
Cessna Pilot Center

So you want be a Pilot?

One of the primary goals of
Aspen Flying Club
is to bring the thrill and excitement of
general aviation to the masses.

Aspen Flying Club has the largest, most diverse,
general aviation aircraft fleet in all of Colorado.
We have aircraft to meet whatever your needs
may be, from basic trainers to
advanced cross-country machines.

We Offer Ground School!

*Learning to fly is fun! But you do have to hit
the books in order to learn the material that
can't be covered in the cockpit. While you
can certainly take care of your studying on
your own, most people prefer to attend one
of our classroom courses.*

***Sport Pilot/Private Pilot Ground School**

Learn everything you need to know to pass the
FAA Sport or Private pilot written exams.

***Instrument Ground School**

Learn all the ground training necessary to pass the
FAA Instrument written exam.

***Mountain Flying Course**

Learn how to fly in the terrain of the wondrous Rocky Mountains.
Develop the skillset for performance considerations,
go/no-go judgments, flight planning, and confidence for mountain flying.

***Basic/Advanced G1000 Courses**

The Garmin G1000 has revolutionized the General Aviation cockpit
by adding some phenomenal capabilities and improving the
pilot's situational awareness.

Learn the basic and advanced G1000 systems in these courses.

*Check the Aspen Flying Club website for
the complete list of offered courses, prices, and start dates.

How much does it cost?*

	Sport Pilot	Private Pilot
Minimum Training Time	20 Hours	40 Hours
Night Flying	No	Yes
Max Number of Passengers	1	Limited to Capacity of Aircraft
Max Altitude	10,000 feet MSL or 2,000 AGL (whichever is higher)	Limited with the availability of on-board oxygen
Flying in Tower-Controlled Airspace	Yes, with additional training and endorsement	Yes
Aircraft	Light Sport Aircraft	Most general aviation aircraft with appropriate type rating
FAA Medical Exam required	No. A valid vehicle driver's license can be used as proof of medical competence provided the prospective pilot was not rejected for their last Airman Medical Certificate	Yes. A third class medical certificate from an Aviation Medical Examiner is required.

	Sport Pilot	Private Pilot
Airplane Rental	\$2,400 (min 20 hours)	\$3,960 (min 40 hours)
Instructor Fees	\$800	\$1,800
Training Materials	\$299	\$299
Aviation Headset	\$99	\$99
Club Dues	\$35/month	\$35/month
Insurance Pool Fee	\$40/annually	\$40/annually
FAA Written Exam	\$150	\$150
FAA Practical Exam	\$450	\$450

*Final costs may vary significantly depending on factors including the student's level of commitment and proficiency. The best way to minimize cost is to fly often and come prepared for each lesson.
