

fedco ceo leo eisenband introduces

The FEDCO chain, understood for its fragrance and beauty products in Colombia for over 30 years, is proud to make Burt's high quality items offered to its clients. Like FEDCO, Burt's Bees shares an enthusiastic commitment to sustainability and social obligation.

Burt's Bees is taken into consideration the leading natural appeal treatment firm in the America and has actually been giving environment-friendly charm items for over 25 years. The brand's viewpoint depends upon making organic items to optimize elegance and wellbeing as well as its commitment to social duty and the environment.

The firm identifies itself as an "Earth friendly, all-natural personal care company." This philosophy is in keeping with FEDCO's historical dedication to providing top quality items in a environmentally aware and socially accountable way.

Burt's produces various product lines for the hair, face, lips, infant, physical body and mother, as well as men and outside treatment. Every one of their products are certified as natural and are specified with such components as pomegranate draw out, imperial jelly and aloe vera. Parabens, petrochemicals or sulphates are not utilized and none of Burt's Bees products are animal examined. [Leo Eisenband Fedco](#)
