These are some of our top adventure vacations.

If you get a thrill from being out in nature and using your survival skills to live off the land, why not participate in an Australian Walkabout? These have increased in popularity, especially since one of the main characters on the TV show Lost tried one out. The original concept of an Australian Walkabout is for you and your co-adventurers to get out into the Australian Outback, while being guided. When you get out on a walkabout, you are only living off the land. You hunt for your own food, build your own shelter from what is available and take on any "elements" that might come your way (weather, animals, etc). It would be like extreme camping and can bring great satisfaction.

Shark Diving is not really light and easy but it is thrilling! The Shark Diver Company has diving packages that allow you to dive with the sharks in California and Mexico. These types of adventure travels are not cheap. Most are around three thousand dollars per person. But most of these vacations are at least five days long. You will need to be certified in diving before you go on a trip like this. You wouldn't want to have to sit up on the boat the whole time!

Do you dream of seeing large animals in-person? Have you always wanted to see exotic animals in their natural habitats? Why not partake on an African Safari. There are tours that visit various locations on the continent of Africa. Look at birds that you're only see in the zoo. An adventure travel cut out for an animal love is definitely a Safari.

Adventure travels don't have to cost a lot (though they can sometimes be expensive). These vacations do not have to take a lot of time. Some only last a couple of days!
