

MOTO^{TRBO}

Serial Number 867TPV4130

Model Number H02RDH9JA2AN

1 Power On/Off, Volume

2 Channel Selection

3 Push To Talk

4 Microphone

5 **Short** Unassigned
Press: No feature is assigned to the programmable button.
Long Keypad Lock
Press: Locks or unlocks the radio keypad. This is a password protected feature.

6 **Short** Emergency Off
Press: Terminates an outgoing emergency call.
Long Emergency On
Press: Emergency Alarm: The radio sends an emergency alarm and exits the emergency mode. This alarm is a non-voice signal that triggers an alert indication on another radio. Emergency Alarm w/ Call: An emergency alarm is sent, after which an emergency call can be transmitted by pressing the Push-To-Talk (PTT) button. Emergency Alarm w/ Voice to Follow: This option enables the Hot Mic feature, allowing for the programming of the Hot Mic related features, i.e. Hot Mic Duration. An emergency alarm is sent and the microphone is activated for an emergency call. Voice is transmitted without the need to press the Push-To-Talk (PTT) button.

7 **Short** Zone Selection
Press: Accesses the Zone menu to change zone.
Long Unassigned
Press: No feature is assigned to the programmable button.

8 **Short** Zone Selection
Press: Accesses the Zone menu to change zone.
Long Unassigned
Press: No feature is assigned to the programmable button.
