Airbus Pilot

brother i need your help

15/02/2014 10:01

Yogyaponsel Yepe

go to forum at www.bbloader.com, some people will help you with time viewer, sorry i am now at hospital

15/02/2014 10:01

Airbus Pilot

ok

- Hari Ini

10:50

Airbus Pilot

hello bro who kill my mxkey you guys send to kill it

hey teman-teman yang membakar saya mxkey saya tidak menghubungkan karya mulai berkedip dan tiba-tiba lampu padam dan saya tidak bisa masuk ke BBloader yang akan mengembalikan uang saya? yang perintah unit untuk membakar mxkey saya? atau siapa?

11:22

Airbus Pilot

hello URGENT what is going on WHO is KILLING MXKEY

11:28

Airbus Pilot

HELLOOOO MAN IS URGENT WHAT HAPPENS TO MXKEY DID YOU KILL THEN?

11:33

Airbus Pilot

BRO I NEED TO SOLVE THIS PROOBLEM IF NOT I MAY NEED TO CONTACT PAYPAL

11:49

Airbus Pilot

are you there?

12:52

Yogyaponsel Yepe

what you mean kill?

we can not do it

only can active your mxkey

please see <http://forum.gsmhosting.com>

many mxbox (not mxkey) dead, mxkey (smartcard) is still OKE

12:55

Airbus Pilot

no mine is not working is dead, I just connected the light came one and one second later off and not connecting with BB loader how I solve this problem I need to use my BB loader

so how I used it? how can use BB loader with Smartcard?

12:57

Yogyaponsel Yepe

before u use mxbox orange?

as interface card reader for smartcard mxkey?

13:01

Airbus Pilot

yes sure that's the one that I been using until today lights came on 30 seconds later OFF and not opening my bb loader

13:03

Airbus Pilot

•
13:03

[Yogyaponsel Yepe](#)

post at group please,

•
13:03

[Airbus Pilot](#)

what?

which one

link please

•
13:05

[Yogyaponsel Yepe](#)

can you post at forum.gsmhosting.com (search mxbox / mxkey)

•
13:05

[Airbus Pilot](#)

sure I did already

<http://forum.gsmhosting.com/vbb/f550/mx-box-orange-dead-1770041/index2.html>

rene lorenzana my name the last post

how can I use my bb loader

•
13:07

[Yogyaponsel Yepe](#)

smartcard reader, or buy mxbox thunder

•
13:08

[Airbus Pilot](#)

I already try to used on one smartcard reader and no luck I used on the HTX dongle

but too much man to buy the thunder too much time to get it!

is too bad the need to use then, is better to get your dongle instead of third party now you have the problem with me how you solved? very bad

any handy solution

now you have problems man!

are you there?

•
13:27

[Airbus Pilot](#)

man we need to talk if not I will contact Paypal, I not gonna lost money for this

14:33

[Yogyaponsel Yepe](#)

what your problem about activation? or box? where you buy box? please contact sales,

yes you can post, and asking manole (owner mxbox project) and ask to sales.

mxbox not from me,

you only but activation from me not box.

you know about activation LGTOOL on setool box?

if you buy activation from A, buy box from B, if box dead/ error, why you complain to A?

box and activation is different, do you understand?

14:41

[Airbus Pilot](#)

yes but how you sale activation in third party dongle, you know this always happens with mxkey they kill it, and you are saling with then! and you want to sale the red one

then you A solve my problem

14:44

[Yogyaponsel Yepe](#)

i dont know, i just say, please download and open software bbloader.

if problem with reader (box or dongle reader), you can ask to reseller where you buy the box.

smartcard still oke, if reader (box or dongle reader) okey.

activation on server, your sn, still activated on server.

14:46

[Yogyaponsel Yepe](#)

if anyone can open software, and see SN smartcard, so can active on server. SN active on server

14:46

[Airbus Pilot](#)

but I dont how to read it< the smartcard is not comming also I put it the HTX reader

can you activated with HW id?

a mean BB loader activated on HW id

•
14:47

Yogyaponsel Yepe

HW id cannot, i am not see option at Dealerpanel

•
14:48

Airbus Pilot

so how to do now?

•
14:48

Yogyaponsel Yepe

only, put sn, and click active, just thats, no option deactive, or kill or another, i just put sn and click active
yes

you see my word above, if your problem with box/reader, please ask to reseller box/reader

•
14:49

Airbus Pilot

sure I see it but I dont pay then for BB loader my problem is with bb loader,

why you use then? you know they always do thing like that

I notice that are selling a lot of red box thunder from then

you are selling thunder I saw you add

you should not use mxkey for this!

If I dont see any solution soon, I will Complain in Paypal no way to loose 200.00 dollars

I know Mxkey as been kill from somebody, that tools never dies, is because bad hands send something to kill then!

•
15:06

Yogyaponsel Yepe

mxbox thunder? you buy from me?

mxbox thunder i just guarantee 6 month. if around guarantee, box can replace, if you buy from me

•
15:12

Yogyaponsel Yepe

you know mxbox and mxkey different, mxkey you say kill from somebody.

mxkey is smartcard, if you cannot instal smartcard with new driver, you can go to computer shop + ask how to install driver.

if reader not work / fault in hardware, you can ask to reseller reader.

or change reader, so Smartcard Mxkey will show the sn

15:13

[Yogyaponsel Yepe](#)

if you open bbloader software, and show, "your sn not activated", you can complain to me

15:14

[Airbus Pilot](#)

I dont have thunder red box I just have the orange same on the picture I dint buy from you I have it since longt time previous on green one

IS NOT OPENING THE BBLOADER SOFTWARE YOU DON'T UNDERSTAND?

I dont car about that I care about bbloader that I buy from you!

15:17

[Yogyaponsel Yepe](#)

if not open,

1) driver instalation, go to computer shop and ask how to install driver

2) if error on mxbox, you can ask reseller

3) if software opened, then say like "your SN not activated", you can complain to me, and i will ask server.

On server your SN still activated

15:22

[Airbus Pilot](#)

MAN WHY YOU DONT UNDERSATAND? THE MXKEY IS NOT COMING ON, IS NOT DRIVER PROBLEMS, IS THAT YOU OR SOMEBODY KILL IT, IS DEAD IS NOT READING IS NOT DRIVERS PROBLEMS YESTERDAY AND THE THE DAYS BEFORE WAS WORKING UNTIL KILL IT, SOFTWARE IS NOT OPENNING DONGLE NOT FOUND, AND IS CONNECTED NO YELLOW LIGTH ON IS DEAD DID YOU UNDERSTAND NOW IS DEAD KILLED FROM SOMBEY, WHEN I PLUG IN TODAY TO MY COMPUTER LIGTH CAME ON, 30 SECONDS LATER BECOMES OFF!

15:28

[Airbus Pilot](#)

15:33

Airbus Pilot

THE PROBLEM IS YOU AND ANOTHER GUYS ARE SELLING RED THUNDER BOX AND WANT TO MAKE MONEY WITH BOX AND THATS WHY THE ORANGE IS KILLED

16:01

Yogyaponsel Yepe

you can use reader dongle that compatible with smarcard version, <http://4.bp.blogspot.com/-4myjKt-nVK0/UuWaJtEVnI/AAAAAAAAAVQ/6OI80nCTxcg/s1600/bbloader+mxloader.jpg>

You cannot buy mxbox Thunder/red from me, and i cannot sales to you, because Mr.Manole have some rules, i ONLY can sales mxbox Thunder at my Country Indonesia, Thank you

Here is my explanation to the PAYPAL

I would like to explain the chronology of events,

On February 8, 2014, he wanted to buy me, a software activation BBLOADER on MXKEY smartcard, and I made him pay the bills to be via PAYPAL, (Transaction ID: 4A292974P9996331A)

Then he has to make payments (Payment Received (Unique Transaction ID # 4A292974P9996331A)) and i have enabled his MXKEY Smartcard SN on the server

DateTime	Log	IP
08/02/2014 22:28:02	3371->3261: transfer 110 to C08217D3	36.81.33.186
08/02/2014 21:47:48	3541->3471: activate MASTER C08217D3	36.81.33.186
08/02/2014 21:47:42	3571->3541: activate C08217D3	36.81.33.186

His MXKEY Smartcard , placed in a BOX (MXBOX ORANGE) , today , now , MXBOX ORANGEnya broken / dead / error ,

while his SN (Serial Number) MXKEY Smartcard , is still active on the server .

Now , MXKEY Smartcard SN illegible ,

MXBOX ORANGE was not able to read the SN smarcard MXKEY ,

I've suggested to him,

1) if the problems in the installation , please come to the Computer Store and ask how to install the drivers , so MXKEY Smartcard SN legible and detected

2) if a problem on MXBOX , please come to the seller ,

[and he does not buy from me MXBOX Orange]

Today, his MXBOX problematic because it can not read MXKEY Smartcard SN

3) MXBOX only serves as a smartcard reader MXKEY SN ,

he can replace the dongle compatible reader / match the type of smartcard MXKEY

4) if the problems on software activation server BBloaderm like saying

" your MXKEY SN is inactive " ,

then please complain to me and I will ask to the server .

Until now , the SN is still active on the server BBloader ,

but now his problem is MXBOX error/dead/fault, cannot read SN Smartcard MXKEY, he showed "No security dongle detected",

security dongle is smartcard MXKEY

and I did not commit fraud at all ,
he threatened to report the case to the Paypal ,
therefore , I submit it is to the Paypal ,
it became clear that it happened .

Thank you for your attention

NB :

I used google translate , may be understood , apologize if there are mistakes in choosing vocabulary

**Picture MXBOX ORANGE and SMARTCARD MXKEY,
MXBOX ORANGE as reader from Smartcard MXKEY,
MXBOX ORANG and Smartcard MXKEY not buy from me,
he only buy activation software Bbloder for his Smartcard
MXKEY, from me, and and I have given all the rights**
