

The screenshot shows a software interface with a tab bar at the top containing "change.log" and "strings.xml". The "strings.xml" tab is active, indicated by a blue border. Below the tabs is a code editor window displaying the XML content of the "strings.xml" file.

```
1 <?xml version="1.0" encoding="utf-8"?>
2 <resources>
3
4     <string name="app_name">My First App</string>
5     <string name="action_settings">Settings</string>
6     <string name="hello_world">Hello world!</string>
7
8 </resources>
9
```
