WE CELEBRATE 10 YEARS WITH YOU!

We'd like to invite you to join us in celebrating our 10 year anniversary next Tuesday at our Camana Bay store from 11 – 1pm and Royal Plaza from 12 – 2pm.. With great offers, prizes, treats and surprises it will be a celebration not to be missed. Over the past 10 years, we have grown together and you pushed us to constantly provide you with the best telecommunications experience, and we gladly accepted the challenge. Since our launch back in 2004 we have introduced a host of new products and services and today we are proud to offer our customers a strong and powerful 4G LTE network. From all of us at Digicel, we extend a big Thank You for choosing us over the last 10 years.

See you next Tuesday!

YOUR LTE IS HERE AND EVERYWHERE!

Digicel has you 4G LTE covered. We are proud to provide 4G LTE coverage across all three islands, Grand Cayman, Little Cayman and Cayman Brac. This means that you can now enjoy blazing fast internet speeds on any of your mobile devices without compromising your online experience.

We set out to provide a strong network that is designed to deliver the fastest and strongest technology that is quickly being adopted by major telecommunications companies globally and Cayman Islands is leading by example with Digicel. With Digicel's 4G LTE technology we can provide a stronger and even more reliable connection whether indoors, outdoors and even in rural areas. From phone calls, regular internet surfing to downloading the latest episode of your favourite sitcom, Digicel has you covered!

Our 4G LTE customers are already heralding the unique experience that our new service provides. The common sentiment echoed is that 4G LTE allows for streaming, downloading, uploading, and gaming at speeds like never before! Having invested heavily in infrastructure and tested the effectiveness of our technology, we are certain that our 4G LTE just works! What does this mean to customers.....simply, an uncompromised, fast and consistent 4G LTE user experience. Signing up for LTE is simple:

- Purchase an LTE handset
- Get an LTE SIM from any Digicel store
- Sign up to an LTE Plan
