

Coming to The Milky Way from April...

Classes will take place in a lovely new dedicated classroom within Little Stars, at The Milky Way Adventure Park. Little Stars is a brand new imaginative & exciting play space & café specifically designed for babies to six years.

**Only 10 minutes from Bideford**

# For babies from 0 to 13 months

The Baby Sensory programme has been specifically designed to support the early development of babies through exposure to sensory experiences. Babies learn more in the first year of life than at any other time. Never again will there be such an extraordinary pace of development. They are totally attentive and absolutely fascinated by everything that they can see, hear, touch, taste and smell. Baby Sensory doesn't waste a moment of this valuable time!

Our award winning Baby Sensory classes provide a myriad of colourful sensory experiences and new sensations. Activities vary weekly and incorporate every possible sensory experience including sign language, fibre optic light shows, amazing bouncy light balls, rainbows, bubbles, bells, holistic massage and much more. Imagine taking your baby on a jungle, water or space adventure, to a winter wonderland or to a world of light and magic? Mums and Dads also find

out how to settle and soothe their baby, how to get them on their tummies, how to perform simple massage techniques and a whole lot more.

Parents are provided with hundreds of simple ideas for activities that they can do with their babies at home. Baby signing for example, is a great way to develop speech and language, whereas movement activities can help with the development of sight and hand-eye co-ordination, so important for later reading and writing.

The joy and sense of awe from seeing your baby learn, communicate and develop is worth the effort of squeezing this class into your schedule. Plus, you get the chance to meet others parents with young babies and form friendships which can play a useful role in helping you adapt to parenthood.

**Baby Sensory sessions last 1 hour**
