

Coming to North Devon from April...

Classes will take place in a lovely new dedicated classroom within Little Stars, at The Milky Way Adventure Park. Little Stars is a brand new imaginative & exciting play space & café specifically designed for young children.

Only 10 minutes from Bideford

For children from 13 months to 3 years

Toddler Sense classes provide a fantastic opportunity for learning through play experiences which will captivate your toddler's imagination. The main emphasis is on mobility, excitement and adventure. The classes include great music, gym equipment, bouncy castles and new ideas! Imagine climbing a snow mountain, going on safari, digging for fossils, swimming with dolphins and hunting for dinosaurs...every week introduces new activities and a whole new adventure.

The Toddler Sense session starts in our exploratory play area which is set out differently each week. Children enjoy scrambling over obstacles, balancing on steps and blocks, crawling through tunnels and climbing over the trestles and ramps. Each session is different and the equipment for the session has been specifically selected to match the theme. What may look like a balance beam to you will be transformed into a bridge that crosses a crocodile swamp and the following week into a plank for your young pirate to walk across. We start each session by introducing the theme and then suggest ways in which you can bring this part of the session to life for your toddler.

Adventure play is followed by structured, themed activities, which provide a wealth of ideas that can be continued at home. Expect things like creative dance, parachutes, pom-poms, coloured ribbons and more.

Toddler Sense sessions last approx. 50 minutes but please allow an hour.

Toddler Sense introduces children to a whole new world of adventure and challenge that will lead learning and development forwards, and motivate children to try out new skills.

Educational Value

Whilst packed with fun, the underlying educational value of the programme is that every session and every single activity within, has been designed by Dr Lin Day to enhance learning and development in the following areas.

- Social Skills (turn-taking, cooperation, friendships)
- Communication Skills (singing, action rhymes, talking, musical expression)
- Physical Skills (balance, coordination, control, manipulation)
- Knowledge Acquisition (knowledge and understanding of the world) Emotional Development (self-esteem, confidence, independence, trust)
- Creativity (imagination, drawing, rhythmic speaking, music-making)
- Mathematical Skills (counting, problem-solving, sequencing, building)

Toddler Sense introduces children to a whole new world of adventure and challenge that will lead learning and development forwards, and motivate children to try out new skills.
