

TNPG 2013 - Max Rank Allotment Details - Community Wise Sorted - 2013- Till Phase One

See Disclaimer on last page*. All data from TNPG 2013. Make your own inferences.

Also since AIPG is happening after 1st round of State this year, these numbers would correspond more to second round of TNPG Counseling in 2014

Max Rank 2013 - Till Phase One

***Doesnt include 2nd phase data. Only 1st and 3rd phase data. Minimal seats allotted in 2nd phase. If a candidate had taken a specialty for a particular specialty-community-category during the second phase and the same specialty-community-category combination was not taken by another candidate in third phase, that rank/ marks would be missing from the list.**

The community/category denotes the community/category of the Candidate and not the community/category under which the seat taken falls. For instance even though the category of the candidate says BC Serv, the particular seat the candidate had taken might be a BC Priv seat (which Service candidates are eligible for) or even an OC Priv Seat (which all candidates are eligible for).

*Doesnt include 2nd phase data. Only 1st and 3rd phase data. Minimal seats allotted in 2nd phase. If a candidate had taken a specialty for a particular specialty-community-category during the second phase and the same specialty-community-category combination was not taken by another candidate in third phase, that rank/ marks would be missing from the list.

The community/category denotes the community/category of the Candidate and not the community/category under which the seat taken falls. For instance even though the category of the candidate says BC Serv, the particular seat the candidate had taken might be a BC Priv seat (which Service candidates are eligible for) or even an OC Priv Seat (which all candidates are eligible for).
