

FIND WHAT
TO DO
WHEREVER
YOU ARE...

zerve™

Does a combination of technology, travel, and witty banter intrigue you?

Are you looking for a challenging and rewarding experience?

Do you want to get paid for the internship of a lifetime?

Join us for a Zerve Open House on Wednesday April, 9 2014 to find out more!

Join us at our office in SOHO for a tour, Q&A session with a current intern, informational tutorials, and one-on-one interviews with our hiring managers. Come to the open house and expedite the hiring process and your future with Zerve!

Tours will be run at 11:00am and 3:30pm. Q & A session, informational tutorials, and brief interviews to follow both tours. Join us to learn more about the world of a tech-startup and an amazing internship opportunity! RSVP and indicate which tour time you would be interested in. *We will confirm your RSVP and provide a detailed schedule*****

PLEASE RSVP TO JOBS@ZERVE.COM WITH THE SUBJECT LINE "OPEN HOUSE".

The internship at Zerve provides exposure to all facets of running a successful business, and has a primary focus on the following:

* 50% in phone customer service and ticketing; we take great pride in this area of our business, and strive for world-class service on every call

* 50% in project-based work focused on growing the business, with examples including market research, business analysis, sales research, new client onboarding, working with the Account Maximization group, SEO research and more.

Current college students will work part-time (20 hours per week) until the end of the spring semester and 40 hours per week during summer. We are open 7 days a week, and a flexible schedule with the ability to work weekend shifts is a necessity. Please also note that we would establish a set schedule with an initial commitment until September 1, 2014. We also offer a full-time internship (40 hours per week) for recent graduates. The internship pays \$10 per hour with potential for future growth in compensation and responsibility.

Our office is located on Hudson Street, just south of Houston, and is easily accessible by the 1, 6, A/C/E and B/D/F/M subway lines.
