

TESA-VISIO NEWS

Machine configuration update to Win7

1. Purpose

Windows announced a few months ago the company will stop supporting WinXP from beginning of 2014. As we have past the official deadline (announced for 08.04.14), TESA's worked on upgrade solutions valid for TESA-VISIO machines running a WinXP configuration.

2. Options

The solution to choose depends highly on the machine configuration that will need to be updated. Please find hereafter a table describing all possibilities.

2.1 Machine running with TESA-REFLEX Vista

Frame	Description	Reference	STANDARD VERSION			OPTION	
			Software	→ 2.4	→ 2.3	2.4 →	
			WinXP → Win7 (32 bits)			WinXP	Win7
GL	TV 200	068304XX	06860426	06860424*	06860420	06860187-XP	06860187
	TV 300 MAN	0683060X	(license)	(license + PC)	06860421	'Compare 2.3'	'Compare 2.4'
	TV 300 DCC	0683063X	-	-	-	-	-
ALU	TV 300 MAN	06830200 0683021X	on request	06860424** + 060190 +060191	-	06860187-XP 'Compare 2.3'	06860187 'Compare 2.4'

*Matrox card to be taken from customer WinXP computer

**Matrox card and Metronics controller to be taken from customer WinXP computer

2.1 Machine running with TESA-REFLEX Vision

Frame	Description	Reference	STANDARD VERSION	
			Software	→ 2013MR1
			→ 2013MR1	→ 2013MR1
			WinXP → Win7 (32 bits)	WinXP → Win7 (32 bits)
