

7 reasons to wrap your

Cost: A high quality paint job can cost you thousands of rands depending on the color, paint shop, and quality of the paints. Professionally installed vinyl's with the highest quality materials will so cost a fraction of that and will have a life expectancy of 1-5 years vinyl depending.

Resale Value: maintaining the manufacturer's original paint will keep the resale value intact from a devalued exotic colour. If your company or preference is for instance a bright exotic color, it may not be your potential buyer's favourite color. Having the option to keep your vehicles original factory color will allow you to keep your resale value intact.

Countless Options: Upon purchasing your vehicle you may have wanted something different, or possibly a colour that is not available in factory paint. This is where **vehicle wraps** will allow all of your car fantasies to come true. With hundreds of color choices and digitally printed custom designs, you may transform your vehicle to the way you have always wanted it. Transform your vehicle every few years and keep everyone guessing!

Installation Time: When it comes to wrapping a vehicle, we can have your car fully transformed within 2 days and ready to be picked back up. When choosing to paint your vehicle you allow yourself to be without transportation for up to two weeks. Don't leave yourself stranded, wrap it!

Protection: Vehicle wrap vinyl is a very durable material and will act as a shield. Every covered inch of your vehicle in vinyl can protect your factory paint from all natural hazards and weathering. This allows your paint to age naturally and not be affected by prolonged sun exposure. Say goodbye to stone chips, abrasion, and other natural hazards!

Easy Maintenance: Is constantly waxing your vehicle beginning to take a toll on you? Allow yourself enjoy never having to wax again! **Vehicle wraps** are extremely easy to maintain and will look brand new once again from only hand washing with soap and water. Another effective form of caring for your wrap is to use a microfiber rag and 70% alcohol to wash away any dirt or smudges.

Safe Removal: High quality vinyls ensure a long lasting product that can also be safely removed. A wraps life is highly affected by how long it is left outside in the sun causing it to fade quicker. Keeping your vehicle in the garage will allow you to maximize your wraps life to the fullest extent.
