What are the lessons or courses that we offer to help you learn how to use a computer? We provide you with senior citizens with the lessons including but not limited to basic computer training, general browsing/surfing of web, sending and receiving of electronic mails, attaching of documents to your electronic mails, shopping safely and securely online, chatting online through different chat systems, and checking for specific information online, etc.

Determined by your needs as a senior, we think starting you off on this set of lessons and hands-on computer courses will greatly enhance the quality of your life. We'd teach you how to surf and browse the web. This is the very basic that you can learn. We engage you in the general navigation system through web pages, and how you can manage the various web pages that come up on a computer screen.

#### [Seniors Computer Tuition](#)

The next step we'd seek to provide you with seniors' computer training is the sending and receiving of electronic mail. As you already know, the use of letters and ordinary mails is fast fading away. There are growing needs in these times that require knowledge of sending and receiving electronic mails. Our seniors' computer tuition hopes to expose you to various electronic mail options that are out there to fulfill these needs. Armed with this knowledge, this can help you cut the time to make that strenuous journey to the post office.

We also hope to get you familiarized with how to attach a document to accompany your electronic mail. We'd teach you the various documents that are in use in the online environment like Word Documents and Portable Document Format (PDF). We would also teach you how to convert from one document to another depending on circumstance and need. Computer classes for seniors like you can get very interesting at this stage.

Do you want to shop but consider it a hassle to walk to the high street store or super market? We aim to make your life easier in every way possible. And that is why the computer courses for the elderly we offer cover this ground. We would teach you how to shop on various e-commerce websites without having to handle cash. Moreover, we will show you how you can do this in a very safe web environment.

Chatting can be fun for both the young and the old and our computer lessons for seniors teach that. We'd familiarize you with real-time messaging system called chatting in a fun and friendly environment.

Beyond this, there's a lot of information out there that you might be looking to get, but never thought you could get, we also incorporate this into the plan. We hope to make our senior citizen computer lessons up to the mark for seniors like you.
