

Activity: Pipeline

Skill: Vision/Goal Setting

Process/Rules:

- Participants need to be split into teams of 5
- Distribute 4 pipe pieces to each team and one steel ball
- Facilitator creates an obstacle course for participants to move through
- Facilitator distributes explicit directions stating how participants are to move through the course – a road map (i.e when you get to cone 1, turn right; circle around the tree 3x before moving on to the next stop of the course, etc.)
- Participants must utilize the pipes to move the steel ball from Point A to Point B without letting the ball hit the ground.
