Come and Tell Supervisor David Couch

- to use ~\$2 billion County fund for the fiscal year 2014-15 wisely
- not to touch or close our Frazier Park Library
- to cut the "dead wood" within the Kern County Administration
- to reduce the budget of the obscure offices (such as County Counsel where most of the numerous attorneys earn more than \$250,000)

By Gunnar J Kuepper

How would you use YOUR tax dollars?

Join Supervisor David Couch for a discussion on Kern County's 2014-2015 budget.

"A Penny for Your Thoughts"

Thursday, July 10, 2014

6:00 P.M.*

Frazier Mountain Park Community Center
(Across from the Frazier Park Library)

What County services are important to you?

- Public Safety • Finance & Administration • Culture, Education & Recreation
- Planning & Public Works • Health & Social Services

**This meeting is free and open to the public.*

For Thursday, July 1, at 6 p.m. at the Frazier Mountain Park Community Center (across from the Frazier Park Library)

Supervisor *David Couch* has invited all residents in the Frazier Mountain Communities to listen and comment on the upcoming Budget (Fiscal Year 2014-15) for Kern County.

Last Year's 2013-14 County Budget totaled \$2.6 billion. That included the operating governmental funds with the General Fund in the amount of \$1.57 billion, the non-operating governmental funds, consisting of special revenue and capital projects funds, in the amount of \$358 million.

In addition to the governmental funds, there was a budget for other funds in the amount of \$695 million for enterprise funds such as Airports, Kern Medical Center, and Waste Management; internal service funds such as Worker's Compensation and Group Health; grant-funded programs administered by Employer's Training Resource and Community Development programs; and County Service Area funds that are special districts under the Board of Supervisors.

Program-specific revenues for operating governmental funds were in 2013-14 at \$1.1 billion. Program-specific revenues are required by law to be spent for specific, mandated programs or direct reimbursements for the cost of providing services, and the Board of Supervisors has minimal discretion in using those funds. These costs account for nearly 68% of the total budget for the operating governmental funds. Most State and federal subventions must be used to operate health and human services programs.

Discretionary-use revenues for the General Fund controlled by the Board are 23% of the budget, and Kern County must use much of this money to match mandated State and federal programs.

Kern County has a population of ~850,000 living on 8,161 square miles. Within the county are 11 incorporated cities (Arvin, Bakersfield, California City, Delano, Maricopa, Mc Farland, Ridgecrest, Shafter, Taft, Tehachapi, Wasco), 48 census designated places (including Frazier Park, Lake of the Woods, Lebec, Pine Mountain Club). The racial and ethnic identity is described as 50% white non-hispanic, 39% hispanic, 23% other race, 6% african American, and 2.5% Native American

In the 2013-14 Budget the County received an income of nearly \$2 billion, \$1,924,781 to be exact. The largest income sources were Intergovernmental Revenues (\$718 million or 37% of the income), Taxes (\$412 million or

21% of the income) and "Other Financing Sources" (\$390 million or 20% of the budget funding).

In 2014 nearly 40% (\$763 million) were used for Public Protection, followed by 27% (\$521 million) for Public Assistance), 15% (\$293 million) for Health and Sanitation, and 7.65% (\$148 million) for General Government.

The 2013-14 Budget (about 550 pages) lists about 230 county units that received funding.

The Kern County departments include

- County Administrative Office
- Agriculture and Measurement Standards
- Sheriff's Office (\$211 million)
- Fire Department (\$144 million)
- Mental Health (\$109 million)
- District Attorney
- Public Defender
- Planning & Community Development
- Animal Services (\$8.1 million)
- Public Health Services (\$32 million)
- Aging and Adult Services
- Human Services
- Parks & Recreation (\$13.5 million)
- Library (\$8.3 million)
- Animal Services (\$8.1 million)

My favorite, the obscure Department of Kern County Counsel, had a budget of \$10.5 million in 2013=14, much more the Library System that serves more than 150,000 residents every year.

Or, just another comparison, Kern County spends nearly 14x the amount of money for Mental Health (\$109 million) that is spend for the entire County Library System.

In June of 2008, the county had the equivalent of 8,480 full-time employees. In June of 2012, that number was down to 7,374, according to reports from the Kern County Auditor-Recorder's office. 9,605 employees, including part-timers were listed for Kern County in 2013.

16 of those (most, if not all working at Kern Medical Center) received in 2013 salary & benefits exceeding \$400,000, 23 other public employees enjoyed salary & benefits of more than \$300,000 annually, including *Ann Theresa Goldner*, the head of the obscure Office of County Counsel. The County's overall cost for employees' salaries and benefits was about \$1.03 billion in the 2013-14 budget.

Financial challenges and losses in the recent past include:

In September of 2013, Kern County governments and special districts had to repay Occidental Petroleum \$31 million in tax money that the oil company was overcharged based in part on the value of its holdings in the Monterey Shale. Kern County's share of the repayment was \$11.3 million.

The county-owned Kern Medical Center (KMC) is one of the biggest fiscal liability at this point in time. Most of Kern Medical Center's worsening annual budget was revealed at the end of 2013: years of obvious miscalculation and financial mismanagement created an estimated \$64 million hole in the hospital's finances. The result was that KMC has racked up a debt to the county's general fund that hovers around \$100 million. Subsequently the Hospital's CEO, *Paul Hensler* (received an annual salary of \$458,596 in 2013) was fired after the county supervisors became fully aware of the losses late in 2013.

The company of the new CEO, *Russell Judd*, is tasked with eliminating that loan burden, operating KMC at a profit and / or rebuilding the hospital's billing, physician pay and operations systems. At the same time the visually not really inviting facility needs to attract a better mix of patients — fewer poor and uninsured patients and more paying customers.

For the year 2013 - 2014, the Kern County Treasurer-Tax Collector mailed out property tax bills totaling over 942 million dollars. Of those bills mailed, the top 10 taxpayers (Chevron, Aera Energy, Occidental of Elk Hills, Oxy USA, Berry Petroleum, Plains Exploration & Prod, Pacific Gas & Electric, Seneca Resources, Vintage Production Cal, US Borax) comprised 32.80% of the total taxes due to the County. The assessed value of the 2013-14 tax roll was \$84.6 billion, the combined net assessed value of the top ten taxpayers was \$27.8 billion. However, Kern County's two largest industries, oils and gas production as well as agriculture face significant challenges in 2014.

Oil and gas production has driven much of the County's job and income growth. The industry is now confronted with environmental questions as it seeks to tap the 12 billion barrels of oil beneath the ground.

Agriculture is today a \$6 billion+ industry in Kern County. The food production's main challenge is water, or the lack thereof due to the multi-year extreme drought. Aside from looking for emergency water transfers to the places in need and aside from demanding the removal of environmental restrictions, the County needs to find long-term local solutions to the ongoing water crisis.

When supervisors discovered the multi-million deficit from Kern Medical Center, the Board of Supervisors had asked all departments in February of 2014 to submit budgets that cut five percent from their current revenue.

However, in June 2014 it became clear that at least eight county departments have asked for \$31.9 million more than the County Administrative Office has allocated them in the recommended spending plan for fiscal year 2014-2015, which begins July 1. The Kern Medical Center and the Kern County Sheriff's Office -- have asked for \$25.3 million of that total.

The departments had to submit their new budget proposals by June 17, 2014 and the final vote by the Board of Supervisors on the 2014-15 budget is expected in August.

Roundtable & Opening Ceremony for Fire Station 58 in Pine Mountain Club

On Saturday, July 12, 2014 at 12:00 noon a ceremonial ribbon cutting will take place at the New Kern County Fire Station 58.

Fire Station 58 under construction on Dec 23, 2013

Prior to that, starting at 10:00 a.m. a round table presentation is scheduled to in the Condor room at the Pine Mountain Property Owner Association club house. Scheduled Speakers this year are: 4th District Supervisor *David Couch*, Kern County Fire Chief *Brian Marshall*, *Vince Fong* District Director for Congressman Kevin McCarthy, *Jessie Dahliwal* State of California, Department of Public Health Drinking Water Program and *Jim Beck* – General Manager of the Kern County Water Agency.

#####

Santa Clarita - Accident involving the Ninja roller coaster at Six Flags Magic Mountain

On Monday, July 7, 2014 around 6:00 p.m. a tree branch fell down on the tracks of the Ninja roller coaster at Six Flags Magic Mountain. The entertainment venue is popular by many families and kids in the Frazier Mountain Communities.

The front car derailed and more than 20 people became stranded on the roller coaster ride about 40 feet above the ground. Los Angeles County Fire personnel, including a urban search-and-rescue team, responded and evacuated 22 riders from the disabled coaster car until 8:30 p.m. Two of the riders were transported to a local hospital with what was described as minor injuries.

The accident is investigated by the California Division of Occupational Safety and Health.

According to a Los Angeles Times report, on Wednesday, July 9, Jeremy Ead and Olivia Feldman filed a lawsuit Wednesday in Los Angeles County Superior Court, alleging that the park's neglect caused the ride to be "dangerous, defective, hazardous and unsafe," according to the suit. The lawsuit, filed by attorney Barry Novack, seeks money to cover legal costs, medical bills and lost earnings.

####

Northbound I 5 - Traffic Accident

On Tuesday, July 8, 2014 around 6:15 p.m. two trucks collided on the northbound lanes of I5 between Frazier Park and Lebec.

One of the trailers was destroyed and its contents spilled onto the freeway. Traffic was diverted to one lane, creating a temporary traffic jam. No injuries have been reported.

Water Alert Stage II in Frazier Park

By Frazier Park Public Utility District

Due to the declared Drought Emergency, as well as the declining aquifer in our district, we have now gone to the "ALERT STAGE" in our Water Conservation Plan.

Please see the mandatory restrictions to below. If you have any questions, or need help with compliance, please contact someone from the district.

- 1) No use of water through any connection when the district has notified the customer in writing to repair a broken or defective plumbing, sprinkler, watering or irrigation system and the customer has failed to make such repairs within 5 days after receipt of such notice.
- 2) No use of water which results in flooding or run-off in gutters, waterways, patios, driveway, or streets.
- 3) No use of water for washing aircraft, cars, buses, boats, trailers or other vehicles without a positive shut-off nozzle on the outlet end of the hose.

- 4) No use of water through a hose for washing buildings, structures, sidewalks, walkways, driveways, patios, parking lots, tennis courts, or other hard-surfaced areas in a manner which results in excessive run-off or waste.
- 5) No use of water for watering streets with trucks, except for initial wash-down for construction purposes (if street sweeping is not feasible), or to protect the health and safety of the public.
- 6) No use of water for construction purposes, such as consolidation of backfill, dust control, or other uses unless no other source of water or other method can be used.
- 7) No use of water for more than minimal landscaping in connection with any new construction.
- 8) Use of water for outside plants, lawn, landscape, and turf areas on a Odd/Even Program (Odd numbered addresses Tuesday, Thursday, & Saturday. Even numbered addresses Wednesday, Friday, & Sunday). Watering of plants, lawn, landscape, and turf areas are prohibited between the hours of 10 a.m. and 6 p.m. No watering of plants, lawn, landscape, and turf areas allowed on Mondays.
- 9) No Use of water for watering outside plants and turf areas using a hand-held hose without a positive shut-off valve.
- 10) No use of water for decorative fountains or the filling or topping off of decorative lakes or ponds. Exceptions are made for those decorative fountains, lakes, or ponds which utilize recycled water.
- 11) No use of water for the filling or refilling of swimming pools.

Stage 2 – Alert Stage

1. Frazier Park PUD set conservation goals and call for wide-based community support to achieve those goals.
2. Frazier Park PUD would inform customers of mandatory conservation measures (non-essential water uses, listed in Stage 1 are now mandatory).
3. Frazier Park PUD would inform customers of penalties if mandatory conservation measures are not observed (penalties are listed below).
4. Frazier Park PUD would inform customers of mandatory conservation water fees.
5. Frazier Park PUD limit the use of fire hydrants to fire protection uses only.
6. Frazier Park PUD would provide customers with retrofit kits either at cost or free depending on the budget constraints at the time Stage 2 is announced.

Penalties for violation of mandatory conservation measures are:

- 1st violation – written warning.
- 2nd violation – \$100.00.
- 3rd violation – turn-off of water services, plus \$100 re-connection fee.

Offenses for separate water use restriction violations will each start at the warning stage (1st violation) and the penalties for the offenses are in addition to the regular rate schedule charges.

In that Water Code Section 375 authorizes the enforcement of this Water Conservation Plan, the following enforcement measures are adopted: for any customer that fails to comply with the foregoing, the following remedies shall be imposed:

1. First violation, a warning letter shall be sent under any of the 3 (three) public notice stages listed in the Water Conservation Plan;
2. Second violation a fine shall be added to the next month's billing depending on the public notice stage listed in the Water Conservation Plan;
3. Third violation the water service is disconnected until compliance is achieved and a reconnection fee will be added to next month's billing;
4. Further violation in a year, in addition to termination of water service, the installation of a restrictive device will be placed on the water service connection if so authorized by the Board at the owner's expense;

In addition to the enforcement measures specified in paragraph 2.e, the Board reserves the right to seek enforcement and conviction of repeated violations of this resolution as a misdemeanor as provided at Water Code Section 377, seeking an injunction as authorized by Public Utilities code Section 16472.5 and/or other remedies as provided by law.

####

New Laws became effective in California on July 1, 2014

A variety of new laws became effective in the State of California on July 1, 2014.

Important for employees:

- Minimum wage goes up to \$9 in California. In 2016, the wage will go up to \$10 an hour.
- State and local governments can no longer ask job applicants about past criminal convictions: Assembly Bill 218 (does not apply to a position for which a state or local agency is otherwise required by law to conduct a conviction history background check, to

any position within a criminal justice agency, or to any individual working on a temporary or permanent basis for a criminal justice agency on a contract basis)

- Paid family leave expanded to include grandparents, grandchildren, siblings, and parents-in-law

Gun control: Large-capacity magazines are now banned

Fire Safety: All battery-operated smoke alarms in rental units must contain a non-replaceable, non-removable 10-year battery

Real Estate: Property sellers must disclose lawsuits and claims on property.

Contractors: Prime contractors required to disclose the CSLB license numbers of subcontractors on public works projects.

Transgender Californians: can now easily change their names and identity

Free Summer Lunches for teens and children under 18 are served at the Frazier Park School from June 9 to August 1, 2014

All Things Regional

California Drought Report as of Monday, July 7, 2014

Current Conditions:

Fire Activity: CAL FIRE has responded to 2,869 wildfires across the state since January 1, burning 16,488 acres. This year's fire activity is well above the year-to-date average of 1,992, but firefighters have been able to keep the acres burned this year close to the annual average of 17,486 acres. CAL FIRE responded to nearly 200 new wildfires last week, including the 4,300 acre Butts Fire in Napa County.

Reservoir Levels (% capacity): Reservoir Levels as of June 26 remain low, including: Don Pedro 49%; Exchequer 26%; Folsom Lake 47%; Lake Oroville 42%; Millerton Lake 62%; New Melones 29%; Pine Flat 33%; San Luis 31%; Shasta 40%; and Trinity Lake 43%. An update of water levels at other smaller reservoirs is also available.

Vulnerable Water Systems: The California Department of Public Health (CDPH) is providing technical and funding assistance to several communities facing drinking water shortages, and is monitoring water systems across the state to determine new support is needed. Over \$8.5 million has been identified for specific emergency drinking water projects to date, out of \$15 million appropriated in March for this purpose. Updated information can be found at the CDPH Drinking Water Program website.

Recent precipitation: No significant rain fell over the last week and no rain is expected soon.

Action Items:

- Water Board considers statewide mandatory conservation measures: The Water Board will publicly release tomorrow (Tuesday, July 8) proposed water conservation requirements to reduce water waste across the state. These proposed emergency regulations include mandatory restrictions on water use, and will be considered by the Water Board on Tuesday, July 15. Last month, water agencies serving California's cities and towns provided updates to the Water Board on current water consumption. These updates, combined with a statewide survey of water agencies' conservation actions, have informed the Water Board's proposed emergency water conservation regulations. Also, the Governor's April Proclamation of Continued Emergency Drought called on residents to limit outdoor irrigation and prevent wasteful water practices, and directed water agencies to prevent water waste.
- New water curtailments: The Water Board last week adopted emergency regulations to protect senior water right holders across the state by enabling curtailments to be made for more junior water right holders on real-time basis. These regulations are scheduled to go into effect on July 14. Also last week, curtailment notices were mailed to post-1914 water right holders on the North Fork and main stem of the Eel River, as well as Van Duzen River. Updated information on water curtailments can be found on the Water Board's curtailment webpage.
- Open Burn Ban in effect across the state: Open burning is now prohibited on 31 million acres of land across the state, due to a burn ban that CAL FIRE has directed each of its unit chiefs to implement. This ban on open burning in state responsibility areas (outside of cities and towns) reduces wildfire danger amidst extremely dry conditions.
- Emergency food aid and rental assistance: The California Department of Social Services has provided to date over 106,000 boxes of food to community food banks in drought-impacted counties. Over 57,500 boxes of food have been picked up by households. By this Friday, an additional 10,800 will be delivered to food banks. Local food banks are targeting this food aid to residents most impacted by the drought. The non-profit group La Cooperativa has begun distributing \$10 million in short-term, state-funded emergency rental assistance to impacted families and individuals across counties most impacted by the drought.
- Work crews available to assist with water conservation projects: The California Conservation Corps (CCC) is making crews available to assist with water efficiency projects through a new program funded by emergency drought legislation enacted in March.
- Deadline nearing to apply for \$200 million in drought grants: Water agencies have until July 21 to submit applications to the State Department of Water Resources for \$200 million in Integrated Regional Water Management grants that has been expedited by emergency drought legislation passed in March.
- Timber companies to report water use: The California Board of Forestry is now requiring that

timber companies report the amount of water they are using for dust control on their job sites. This new regulation responds to drought conditions and very low water supplies in many streams and rivers adjacent to lumber operations.

- State's emergency drinking water program has new leader: The state's drinking water program is now part of the State Water Resources Control Board, part of a planned shift for the program from the state's Health and Human Services Agency at the start of the new budget year on July 1. The Water Board named Cindy Forbes to lead the Water Board's new Division of Drinking Water. Forbes is a 30- year veteran of the state's drinking water program, and was formerly the program's Southern California Branch Division Chief.
- Water saving tips promoted across the state: The state's newly improved water conservation website, SaveOurWater.com, is promoting the "Don't Waste Summer" campaign. This campaign provides a new conservation tip each day for the 100 days of summer. Supporters can follow and share Save Our Water's Twitter and Facebook feeds for this public awareness campaign.
- Sonora is site of upcoming Drought Task Force meeting: Leaders of the Governor's Drought Task force will travel to Sonora (Tuolumne County) on Friday (June 11) to meet with local leaders and agencies to coordinate drought response. This is the seventh regional meeting of the taskforce, following meetings in Sacramento, Ukiah, Merced, Santa Cruz, Tulare and Montague.
- Drought response funding moves forward: \$687 million in state drought funding that was appropriated in March through emergency legislation continues to advance toward meeting critical needs. Over \$61 million of this funding addresses emergency water needs, food aid and housing assistance to drought-impacted communities. Nearly \$21 million of those funds are already in communities providing assistance and additional funds are being readied as drought impacts worsen. Nearly \$625 million of the emergency funds appropriated in March came from sources dedicated to capital improvements to water systems. Since March, state agencies have expedited grant approvals, getting over \$21 million immediately allocated to grantees that were pre-approved for certain projects. As planned in March, the next \$200

million of expedited capital funding will be awarded this fall, with the remaining \$250 million granted by mid next-year. State government has also appropriated tens of millions in funding to CAL FIRE over its typical budget to enable staffing-up fire crews much earlier this fire season.

- Governor's Drought Task Force: The Taskforce continues to meet daily to take actions that conserve water and coordinate state response to the drought.

Local Emergency Proclamations: A total of 45 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- Counties: Glenn, Inyo, Kern, Kings, Lake, Madera, Mendocino, Merced, Modoc, Santa Barbara, San Luis Obispo, San Joaquin, Siskiyou, Sonoma, Shasta, Sutter, Tulare, Tuolumne, Yuba, and Mariposa.
- Cities: Brooktrails Township-Mendocino County, City of Willits-Mendocino County, City of St. Helena-Napa County, City of Calistoga-Napa County, City of American Canyon-Napa County, City of Santa Barbara-Santa Barbara County, City of Montague-Siskiyou County, City of Live Oak-Sutter County, and San Juan Bautista.
- Tribes: Hoopa Valley Tribe in Humboldt County, Yurok Tribe in Del Norte County, Tule River Indian Tribe in Tulare County, Karuk Tribe in Siskiyou/Humboldt Counties, Sherwood Valley Pomo Indian Tribe, Yocha Dehe Wintun Nation.
- Special Districts: Lake Don Pedro Community Services District, Placer County Water Agency (PCWA), Twain Harte Community Services District, Carpinteria Valley Water District, Meiners Oaks Water District, Mariposa Public Utility District, Montecito Water District, Goleta Water District, Tuolumne Utilities District, Nevada Irrigation District.

Water Agency Conservation Efforts: The Association of California Water Agencies has identified several hundred local water agencies that have implemented water conservation actions. These water agencies are responding to the drought by implementing conservation programs, which include voluntary calls for reduced water usage and mandatory restrictions where water shortages are worst.

County Drought Taskforces: A total of 26 counties have established drought task forces to coordinate local drought response. These counties include: Butte, Kern, Kings, Lake, Madera, Mendocino, Merced, Modoc,

Monterey, Nevada, Orange, Placer, Plumas,
Sacramento, San Joaquin, San Luis Obispo, San Mateo,
Santa Barbara, Siskiyou, Stanislaus, Sutter, Tehama,

Tulare, Tuolumne, Yolo, and Napa. The Hoopa Tribe has
also established a drought task force. 1

Law Enforcement Corner

Kern County Sheriff's Office (KCSO) – Frazier Park Substation

Sergeant Mark Brown from the Kern County Sheriff's Substation in Frazier Park released the following information about law enforcement related incidents and activities between **June 25 and July 2:** *

- 1) On June 25, 2014, at about 7:25 AM, a deputy was dispatched to a house that had been declared unsafe for occupancy by the County of Kern on the 900 block of Lancer Way to investigate a person being inside the house. The deputy contacted *David Hyatt* inside the house and arrested him for occupying a house tagged as unsafe, removing a Health Department sign, and resisting a peace officer.
- 2) On June 25, 2014, at about 4:30 PM, a deputy was dispatched to a house on the 3800 block of Park Drive in Frazier Park to investigate vandalism, after a lead glass window and other property was damaged. A 17 year old girl was arrested for suspicion of committing vandalism.
- 3) On June 25, 2014, at about 8:05 PM, a deputy was dispatched to a house on the 900 block of Sespe Way in Frazier Park to investigate a burglary. Unknown person(s) entered the house and stole a Sony digital camera and about \$15.00 in coin.
- 4) On June 26, 2014, at about 4:00 PM, deputies were dispatched to a house on the 4300 block of Grant Trail in Frazier Park to investigate a criminal threat. The suspect, *Katherine Duenckel*, was located in a vehicle on the 4400 block of Ash Trail in Frazier Park and arrested for suspicion of making a criminal threat, brandishing a baseball bat in a threatening manner, trespassing in an occupied residence, and resisting a peace officer. She was also arrested on two warrants issued for making criminal threats, felony evasion, child endangerment, being under the influence of a controlled substance, and resisting a peace officer.

- 5) On June 27, 2014, deputies completed a two month investigation regarding a burglary that occurred at the Frazier Mountain Little League snack bar at El Tejon School on April 28, 2014, after a fingerprint analysis identified a suspect. A criminal complaint requesting a burglary charge against San Jose resident *William Van Pembroke* was filed with the District Attorney's Office.
- 6) On June 28, 2014, between 9:00 AM and 1:00 PM, a deputy assisted the Mountain Communities against Substance Abuse at a Medication Take-Back booth during a health fair at Frazier Park Elementary. We collected approximately 2.5 pounds of prescription medications. The medications were collected and destroyed to prevent them from being ingested by juveniles or flushed into the water table.
- 7) On June 28, 2014, at about 1:00 PM, deputies were dispatched to search for two lost hikers, an adult male and a 12 year old boy, near Apache Saddle, southwest of PMC. A Kern County fire Department helicopter searched the area and rescued the hikers at about 2:20 PM.
- 8) On July 2, 2014, at about 8:30 AM, a deputy was dispatched to a house on the 4100 block of Pico Trail in
- 9) Frazier Park to investigate the report of a possibly explosive substance in a garage. A woman who was cleaning out the garage located what appeared to be Semtex, a common plastic explosive. The KCSO Bomb Squad seized the substance and will destroy it.

Anyone having information about any of the above incidents is asked to contact the Kern County Sheriff's Office at (661) 861-3110, contact Secret Witness at (661) 322-4040 or send an anonymous text to TIP411 (847411). Type the key word, "KCSO," prior to the message.

You will notice that the names of arrestees and suspects are not always published here. The presumption of innocence means that one is to be considered innocent until proven guilty in a fair and open court of law.

Individuals that have been arrested, but not convicted and that do not pose a risk for others should not be subject to public humiliation. However, if you have been arrested and convicted before, and you have a considerable criminal record, your full name AND your criminal record will be published. If you are a repeated offender you will be considered a threat to our Youth and risk to the community.

Bakersfield - 6,732 pounds of marijuana with an estimated street worth of \$76million seized during a traffic stop

Info & photos by *Bakersfield Police Department (BPD)*

On Wednesday, July 9, 2014, at 5:32 am, Bakersfield Police Officers Jessica Amos and Travis Brewer stopped a U-Haul van at the intersection of Bernard St. and Wendell Av. in east Bakersfield after the driver of the van, Daniel Ruiz, 22, of Bakersfield, ran a red light.

When officers contacted Ruiz and the passenger, Jose Alcaez, 24, of Bakersfield, they smelled the odor of what they believed to be marijuana. A Bakersfield police canine, trained in the detection of narcotics, was called to the scene. The canine alerted to the enclosed and locked cargo area of the van. Officers cut the lock off of the cargo area and discovered 6,732 pounds of marijuana worth an estimated street value of \$76,408,200.00.

Ruiz and Alcaez were arrested for Possession of Marijuana for Sales, Transportation of Marijuana and conspiracy. They were booked into the Kern County Jail.

Animals Matter

Pet of the Week: Izzy

Available for adoption at the Shelter on the Hill (SOTH) in Lebec

Izzy a.k.a. Isabel is a beautiful lab-chi mix, approximately 3 years old. She is spayed and current of her shots. She has good house manners, is housebroken. She weighs 56 lbs. Izzy wants to be an "only dog". She is affectionate and even disposition with adults/children. She does not really like cats or other dogs.

If you are interested to visit Izzy, or any other of the beautiful dogs and cats at the Shelter on the Hill in Lebec, please contact

Animal Care Center
Shelter on the Hill - A Humane Society
879 Lebec Rd

Open Tuesday and Thursday from 10am – 5pm
(661) 248-5018

-Our mission is to find safe, happy, forever homes for the pets-

Low cost spay/neuter clinic at the Animal Care Center in Lebec on Friday, July 11

by Candace Huskey, Shelter on the Hill

Through the combined efforts of Shelter on the Hill (SOTH), the Animal Resource Center, and Valley Vet Nonprofit, the mountain communities will be able to take advantage of a local low-cost spay/neuter clinic on Friday, July 11th at the SOTH Animal Care & Adoption Center in Lebec.

Valley Veterinary Nonprofit is a well established spay neuter clinic in Simi Valley. Recently, they acquired a Winnebago and converted it into the "Winniespaygo". July 11 is "Winniespaygo's" first venture to Frazier Mountain area.

Please make appointments as soon as possible, as space is limited.

The standard pricing is:

- Cats \$40
- Small dogs \$60 (less than 30 lbs)
- Large dogs \$80 (weighing 30 lbs or more)

Additional services available only to pets scheduled for surgery:

- Vaccinations \$10
- Microchips \$40
- Cat Leukemia and AIDS test \$20

Vouchers may be available for dogs and cats. For more information about vouchers and scheduling call SOTH at 661-248-5018 or the Animal Resource Center at 661-245-3398. If no answer, please leave a message and a volunteer will get back to you.

3:30 -5:00 p.m. **Reading of the Classics** by local actors and community; all are welcome.

July 12 11:00 a.m. Family Storytime: Paws to Read with *Michi Knight*

July 19 11:00 a.m. Local Author & Meet & Greet- **Jim Lowery**, “**The Tracker’s Field Guide**” and founder of Earth Skills. Refreshments.

Jim Lowery is one of the leading experts on "Animal Tracking". Tracking is not just simply seeing where an animal crossed the road. Signs and tracks as described by *Jim Lowery* show how (and which) animals use the habitat, how they travel, where they feed or hunt, how they breed, raise their young, and how animals survive in a sometimes harsh wilderness. In his presentation Jim will provide

- easy-to-use track measurements for a variety of local animals
- tips on proper track interpretation
- notes on the behavior and habitat for animals in our area

Tracking an animal means being curious about it and asking:

Why did the animal cross the trail here?

Where was the animal going?

Was the animal traveling alone, with it's young or in a group?

July 26 1:00 – 4:00 p.m. Summer Reading Grand Finale: Party with Music by Bluegrass & Ice Cream

Incidents & Accidents

Throughout Kern County

Arvin – Fatal Motorcycle Collision

by Kern County Sheriff's Office Coroner Section

On Tuesday, July 8, 2014, at 12:24 p.m. 49-year-old *Hugo Armando Montiel* of Tehachapi was riding his motorcycle eastbound on Highway 223 near Towerline Road. A big rig, driven by 77-year-old *Thomas Sielinski* of Bakersfield turned out of the Arvin Gravel Plant into the path of the motorcycle. Both vehicles collided and *Montiel* died at the scene from his injuries.

####

Bakersfield – Injury Traffic Accident

By Bakersfield Police Department (BPD)

On Tuesday, July 8, 2014, at 1:58 p.m, Bakersfield police officers were dispatched to an injury collision at the intersection of Monterey St. and Tulare St. in east Bakersfield. On arrival officers discovered that a 2001 green Dodge Neon traveling southbound on Tulare St. ran the stop sign directly into the path a silver Lincoln Navigator traveling eastbound on Monterey St. The force of the collision spun the Neon around causing an improperly restrained 2-year-old toddler to be thrown from the vehicle.

The injured juvenile was transported to an area hospital with moderate injuries and was later airlifted to Madera Children's Hospital for treatment. The driver of the Neon, 30-year-old *Cameron Lail* suffered minor injuries and was transported to a local hospital. *Lail* will be cited for being an Unlicensed Driver and Improper Child Restraint. The driver of the Navigator, 30-year-old *David Perez*, will be cited for No Proof of Insurance and Improper Child Restraints for the children he was transporting. There were no other injuries. Alcohol and drugs do not appear to be a factor in this collision.

Anyone with information regarding this case is encouraged to call the Bakersfield Police Department at (661) 327-7111.

####

Bakersfield - Child Endangerment Arrest for leaving three little children left in a hot minivan

By Bakersfield Police Department (BPD)

On Friday, July 3, 2014, at 1:03 pm Valley Plaza security officers noticed a 4 year old child standing in the front seat of a mini van parked just outside of the parking structure under the shade of some trees. Upon closer

inspection the security officers noticed that there was an additional 6 year old and 9 month old infant (who was secured in a car seat) in the vehicle. The van's front windows were cracked a few inches and the slider door window cracked enough for a security officer to reach inside and unlock the door.

Bakersfield police officers were dispatched and learned from the security officers that the children were sweating and in obvious distress. The children's mother, *Rosaura Estrada*, 29 of Bakersfield, responded back to the van at 1:14 pm after making a purchase inside the mall. *Estrada* was arrested for three counts of Child Endangerment and booked into the Kern County Jail.

The outside temperature at the time was 97-98 degrees. *According to the National Highway Traffic Safety Administration a vehicles interior temperature can rise 19 degrees in 10 minutes and young children are particularly at risk because their bodies heat up three to five times faster than an adult's. When a child's temperature reaches 107 degrees, they die.*

The Bakersfield Police Department is reminding citizens that it is dangerous to leave children, elderly and/or dependent adults, and pets in vehicles unattended for any amount of time. This is especially true for Bakersfield's hot summers. When officers find people who have left their children, elderly and/or dependent adults or pets in vehicles unattended; arrests can and will be made.

Anyone with information regarding this case is encouraged to call the Bakersfield Police Department at (661) 327-7111.

####

Shafter - Homicide Investigation

On Sunday, July 6, 2014 at 2:23 a.m. 37-year-old Philipp Rocha was found with a shot gun wound in his car on Riverside Street just west of Beech Street in Shafter. The resident of Shafter was pronounced dead on scene.

####

Lost Hills – Fatal Traffic Accident: Pedestrian died while helping an injured dog

On Friday, July 4, 2014 at 9:04 p.m. 50-year-old Kristine Kaiser of Pasadena was hit by a car at the intersection of Highway 46 and Martin Avenue in Lost Hills. She was fatally injured and died at the scene. Another woman, 19-year-old Sara Noel Barnett of Eugene suffered minor injuries. Both women were trying to help an injured dog. The 28-year-old driver of a 2002 Nissan Sentra travelling westbound on Highway 46 was not able to stop his car in time. He was not cited or arrested.

####

Bakersfield – Sexual Battery

By Bakersfield Police Department (BPD)

The Bakersfield Police Department is seeking the community's assistance in identifying and locating the following suspect wanted for sexual battery. On July 2, 2014, at 8:55 am the 51 year old female victim was walking northbound in the 5000 block of Mountain Vista Dr. The suspect was riding a BMX style bicycle southbound on the same side of the street as the victim. The victim and suspect said "good morning" to each other as they passed. Approximately 30 seconds later, the suspect approached the victim from behind, fondled her breasts and attempted to force her to the ground. The victim yelled for help at which time the suspect fled southbound on the bicycle.

The suspect is described as a:

- wearing a white tank top, red basketball shorts, black Nike tennis shoes,
- hispanic male, 25-27, 5'5", medium build, acne on forehead,
- riding a 20" Huffy brand BMX style bicycle.

Anyone with information regarding this case is encouraged to call Detective Ken Sporer at (661) 326-3275 or the Bakersfield Police Department at (661) 327-7111. Refer to the attached computer generated composite rendering of the suspect.

You can now send an anonymous text message to the Bakersfield Police Department. It's quick and it's easy. Simply enter 274637 into your phone and text BPDCRIMES along with your message. The text is sent to the police department and the sender remains completely anonymous.

Tips can also be anonymously sent through the smartphone "TipSubmit" mobile App or via email at <https://www.tipsubmit.com>.

####

Bakersfield – Sexual Assault Arrest

By Bakersfield Police Department (BPD)

On July 1, 2014, at 10:14 am Bakersfield Police Officers were dispatched to the Roadhouse Grill on Rosedale Hwy. regarding the report of a Domestic Violence victim at that location. On arrival officers contacted a 17 year old female who told them she was the victim of domestic violence and had been sexually assaulted and held against her will at a residence in the 1700 block of B St. for the past three days. The victim was transported to the hospital and detectives responded to conduct an investigation.

Through investigation, detectives contacted 27 year old Jacob Dixon in the 2500 block of Alder St. at about 2:30 am on July 2, 2014. When detectives contacted Dixon he was in the company of a 16 year old female who told them she was the victim of a sexual assault by Dixon.

Dixon was arrested for Domestic Violence, Assault with a Deadly Weapon, Rape, Kidnapping for Rape, Unlawful Sexual Intercourse with a Minor and additional sexually related charges. He was booked into the Kern County Jail. The girls were treated for their injuries and returned to the care of their parents.

Anyone with information regarding this case is encouraged to call Detective Mitch Galland at (661) 326-3557 or the Bakersfield Police Department at (661) 327-7111.

Wofford Heights - Evans (Wildland) Fire

Info provided by KCFD & Sequoia National Forest

On Monday night, June 30th, the "Evans" fire was reported at approximately 9:00 p.m. above the town of Wofford Heights, on Hwy. 155 last night. Hand crews, engines, water tenders, patrols and fire management personnel from the Forest Service, Bureau of Land Management and the Kern County Fire Department responded.

The fire, located 7 miles north of Highway 155 and its intersection with Wofford Heights Boulevard, was held to .51 acres.

Personnel from Southern California Edison arrived on the scene and de-energized lines for the protection of the firefighters.

Kern River Fire Management Officer, Bart Kicklighter, commented, "The fire was in a high risk area, with potential to become a catastrophic event. Quick response from all cooperating agencies was key in managing this fire and keeping it small."

The eastbound lane of Hwy. 155 was closed last night due to fire personnel and equipment on the road. Highway 155 is now open in both directions.

The fire is presently under investigation and is 85% contained. Estimated full containment is expected at 6:00

####

Kernville – House Fire

Info provided by Kern County Fire Department (KCFD)

On Friday, June 27, 2014 at 10:43 p.m. the Kern County fire department responded with three engines and two additional units with a total of 10 fire personnel to a

report of a home on fire at 12015 Sierra Way in Kernville. First arriving personnel stated the home was approximately 30% involved by fire. The fire personnel quickly deployed hose lines to halt the progression of the fire. One occupant was in the home at the time of the fire and escaped the home without being injured. The displaced occupant will be staying with a neighbor until further arrangements can be made. The cause of the fire is under investigation but the possibility of electrical short circuit has not been ruled out due to occupant statements. The quick response of fire personnel saved a majority of the home and contents. Extinguishment of the fire was slightly hampered by electrical lines down in the rear of the home which possibly electrified a chain link fence. Electricity company was called out to mitigate the hazardous situation.

The structure value destroyed by the fire is estimated at \$20,000, the value of the structure saved is estimated at \$40,000.

The Kern County fire department would like to remind home owners that if lights flicker, outlets occasionally do not work, or you feel there are electrical issues in your home, turn off your power and have a qualified electrician inspect it before turning it back on.

####

Bakersfield – Garage Fire

Info provided by *Kern County Fire Department (KCFD)*

On Thursday, June 19, 2014 at 11:45 a.m. Kern County Fire Department (KCFD) dispatched four engines, two trucks and three additional vehicles with a total of 23 fire

personnel to a reported structure fire in the 1600 Block of Olive Drive in Bakersfield.

Fire crews were called out to a vacant garage on fire. Due to the heavy smoke and flames seen from the road, additional engines were started to the fire. Upon arrival, crews were able to quickly put the fire out and prevent the spread of flames to the nearby house. The additional engines were then canceled. Crews will be on scene for some time to overhaul the structure and the Arson Unit was called out to investigate the cause of the fire.

El Niño – What is that?

El Niño is the warm phase of the so called El Niño Southern Oscillation (ENSO). It is a complex weather phenomenon caused by a natural cycle of warming the waters of the Pacific Ocean.

El Niño events occur when the strong trade winds in the Pacific blowing from the east (Asia) to the West (Americas) become weaker. That causes the temperature of the surface water to rise. When that pool of warm water shifts eastward, it is followed by atmospheric moisture. This produces heavy rains in South America, and severe droughts in Asia and Australia. El Niño events usually reach peak strength in December.

El Niños occur on average every four to seven years and can last up to two years. El Niños have severe impact of weather pattern around the globe, triggering hot temperatures, torrential rains, and prolonged droughts mainly along Asia and the Western parts of the entire American Continent.

The 1997-98 El Niño was one of only two "Super" El Niños in the last 150 years. Subsequently extreme weather events were felt across the globe, from catastrophic floods in Ecuador and Peru, to huge forest fires in Malaysia, Indonesia, and Brazil.

The worldwide impact in the 1997-98 event was estimated at \$45 billion in damages and 23,000 deaths. Billions worth of crops were lost triggering huge increases in food prices.

Climatologists are expecting an El Niño event for this year (2014), but are not yet sure about its impact. A majority of forecast models suggest currently that this year's El Niño will be moderate. However, the waters in the tropical Pacific Ocean are currently as warm as they were in 1997. June's monsoon rains in India have already been 40% below average. India is the world's second largest producer of sugar, rice, and wheat.

The U.S. may, however, benefit from a severe El Niño. An El Niño event usually increases wind shear in the Atlantic, making it difficult for hurricanes to form and grow. It may also cause a rather mild winter for the Northern and Eastern parts of the U.S. At the same time California may see heavy rainfalls. Water is much needed in the State which currently experiences one of the driest years on record.

El Niño and Climate Change are separate phenomena, but they can feed on each other. Climate Change could increase the number of El Niño events, and El Niño may intensify the effects of global warming.

Kern County

Board of Supervisors Meetings

The Kern County Board of Supervisors meets every Tuesday at 9:00 am and 2:00 pm in the County Administrative Building at 1115 Truxtun Ave. in Bakersfield.

At each meeting Members of the Public can address the Board on any matter even if it is not on this agenda but under the jurisdiction of the Board. Board members may respond briefly to statements made or questions posed by the public. They may ask a question for clarification, make a referral to staff for factual information or request staff to report back to the Board at a later meeting. Also,

the Board may take action to direct the staff to place a matter of business on a future agenda. Speakers are limited to two minutes and asked to state and spell their names (for the record) before making a presentation. If you are interested to receive the agenda(s) for upcoming or the minutes for previous Board meetings,

please send an e-mail to
GBUmountainNews@gmail.com

LIFE INSURANCE IS A GREAT INVESTMENT FOR THE FUTURE

Southern California Red Cross urges Safety during Fourth of July Holiday

By Amy Mayer, American Red Cross, Kern
Chapter

The American Red Cross Kern County Chapter is urging the community to put safety first during the Fourth of July holiday.

Over the last year (July 1, 2013 to June 30, 2014) the local Red Cross responded to over 400 home fires in the Central Valley. Volunteers assisted hundreds of families and over 1,000 people who were displaced by providing them with lodging, food, clothing, comfort kits, and more. An increasing number of these incidents have occurred within the last three months, many of which have been multi-family apartment fires, affecting hundreds of residents.

With home fires on the rise and extreme drought conditions plaguing the community, the Red Cross urges families to be extra cautious this Fourth of July holiday by following these safe practices.

Fireworks Safety:

The safest way to enjoy fireworks is to attend a public fireworks show put on by professionals. But if you do choose to enjoy them from home, make sure to follow a few of these safety steps:

1. Never give fireworks to small children, and always follow the instructions on the packaging.
2. Keep a supply of water close by as a precaution.
3. Light only one firework at a time and never attempt to relight "a dud."

4. Never throw or point a firework toward people, animals, vehicles, structures, or flammable materials.

Grilling Safety

Every year people in this country are injured while using backyard charcoal or gas grills. Follow these steps to safely cook up treats for the backyard barbecue:

1. Always supervise a barbecue grill when in use.
2. Keep the grill out in the open, away from the house, deck, tree branches, or anything that could catch fire.
3. Use the long-handled tools especially made for cooking on the grill to keep the chef safe.
4. Never add charcoal starter fluid when coals have already been ignited.

Beach and Sun Safety

1. Swim sober and always swim with a buddy.
2. Have young children and inexperienced swimmers wear a Coast Guard-approved life jacket.
3. Protect the neck – don't dive headfirst. Walk carefully into open waters.
4. Limit exposure to direct sunlight between 10:00 a.m. and 4:00 p.m.
5. Wear a broad-spectrum sunscreen with a protection factor of at least 15 and reapply often.
6. Remember to drink plenty of water regularly, even if not thirsty.
7. Avoid drinks with alcohol or caffeine in them.
8. Protect the eyes by wearing sunglasses that will absorb 100% of UV sunlight.

The Red Cross is able to affectively assist the community in times of disaster thanks to a team of dedicated volunteers that makes up approximately 98% of the local Chapter's workforce. New volunteer orientations are happening this month. Contact your local office or visit www.redcross.org/kernchapter for information on how you can join.

About the American Red Cross Central Valley Region

The American Red Cross shelters, feeds and provides emotional support to victims of disasters; teaches lifesaving skills; provides international humanitarian aid; and supports military members and their families. The Red Cross is a charitable organization — not a government agency — and depends on volunteers and the generosity of the American public to perform its mission. The American Red Cross Central Valley Region provides service to the seven counties across Central California that is home to more than 2.5 million people. For more information, please visit www.redcross.org.

How You Can Get Involved: *Child Burn Safety*

In 2012, nearly 400 Kern County children, including more than 200 children under age 5, were injured due to a fire or burn & treated in emergency rooms.

Fire & burn injuries are one of the leading causes of child injury in Kern County. Kern Cares reminds all adults that burns are preventable & everyone—including parents, health care providers, educators, & community members—can take steps to prevent burn injuries where they live, work, & play.

If You Have A Few Minutes:

- The kitchen is the most dangerous room for young children. Use safe cooking practices, such as never leaving food unattended on the stove or holding a child while cooking. Make sure to block a child's access to the stove, keep pot handles turned inward on the stove top & away from the stove's edge.
- Children learn by touching things, including those that can be dangerous. Keep an eye on appliances such as irons, curling irons or hair dryers that can heat up quickly or stay warm after use. Unplug appliances when not in use.
- Preventing burns in children can be as simple as knowing potential hazard spots in your home. For example, keep coffepots & cups away from the edge of the table & counters.
- Most people associate burns with fire, but scald burns caused by hot liquids are actually the most common cause of severe burns in children. Before bathing children, run cool water in the bathtub first, followed by hot water then test the water with your wrist or elbow before you put the child in the tub.
- One of the leading causes of scald burn injury in children & teens comes from tipped prepackaged instant ramen & noodle soups. Choose instant soups with containers that have a wide base. Avoid the possibility of a spill by pouring the heated soup into a traditional bowl.
- During meal time, place hot items in the center of the table, at least 10 inches from the edge. If you have a toddler or small child at home, avoid using a tablecloth. The child may pull on the corner of the tablecloth causing potentially hot objects to fall on them.
- In the summer, use a cloth cover on your child's car seat & test the temperature of the seat & seat belt before putting a child in the seat.
- Working smoke alarms reduce the chance of dying in a home fire by half. Ensure your home has working smoke detectors by changing the batteries when you change your clock for daylight savings & keeping it dust free.
- Make sure your fireplace is protected by a sturdy screen. Remember that glass screens can take a long time to cool down.
- Unprotected skin can be damaged by the sun's UV rays in as little as 15 minutes. Generously apply sunscreen with at least SPF 15 & UVA/UVB protection 30 minutes before your child goes outside.
- Keep chemicals (cleaners, hair dyes, etc.) in original containers & out of reach of children.

If You Have A Few Hours:

- Many ordinary things in a home — from bath water & hot food to electrical outlets — can cause childhood burns. Buy & install plastic safety plugs in unused electrical outlets to prevent children from inserting metal objects which can cause electrical burns.
- Apply butter on a burn? Run hot water on a burn? There are many myths when it comes to treating burns at home. Learn the correct way to treat a child's burn & keep first aid supplies in stock.
- **Treating Child Burns** www.webmd.com/first-aid/treating-burns-and-scalds-in-children
- Tap water burns most often occur in the bathroom. Set the thermostat on your hot-water heater to 120° F to prevent hot-water scalds. If you can't control the water temperature, put an anti-scald device over the faucet (you can find them at baby & hardware stores).
- Learn how to administer first aid techniques to children or burns.
- **American Red Cross** 661-324-6427 & www.kernredcross.org
- Disseminate fire & burn safety messages. These can include information on the importance of properly using smoke alarms, practicing a fire escape plan, safe cooking practices & reducing the thermostat on hot water heaters to 120° F.

Media Affairs

Shield Laws

Shield laws are designed to protect a news reporters' privilege to refuse to testify as to information and/or sources obtained during the news gathering and dissemination process.

The U.S. federal government has not enacted any national shield laws, but at least 40 states now do have protection laws for reporters in place.

Courts are currently struggling to define the standards for when shield laws should apply to non-traditional media outlets, particularly in the context of blogs and Internet publishing. Subsequently, in *The Mortgage Specialists, Inc. v. Implode-Explode Heavy Industries, Inc.* the New Hampshire Supreme Court adopted a broad definition of media that applies to blogs and website curators, reiterating that "*freedom of the press is a fundamental personal right which is not confined to newspapers and periodicals.*"

The California State shield law only bars contempt sanctions explicitly. However, the courts have interpreted the law as giving journalists and other persons connected with or employed by news organizations absolute protection to refuse both, disclosure of sources and unpublished information in civil cases.

In criminal cases the protection conveyed by the statute is limited by the Sixth Amendment, which can only be asserted by a criminal defendant when the information sought is essential to the defendant's fair trial. The statute's privilege can be overcome where it is shown that the material sought to be protected is: (1) necessary, (2) relevant, (3) unavailable from less intrusive sources and (4) in the case of subpoenas by criminal defendants, reasonably likely to result in exoneration of the defendant.

In addition to the statute-based privilege, the California Supreme Court has recognized a reporter's qualified privilege under both the First Amendment and the California Constitution (Art. I, Sec. 2). California courts have viewed the scope of this as nearly identical to the shield law. Therefore, most journalists relying on the reporter's privilege will cite to both the constitutional protection and the statutory privilege.

Legislative Affairs

New Legislation for California

Governor Edmund G. Brown Jr. announced on Tuesday, July 8, 2014 that he has signed the following bills.

- AB 326 by Assemblymember Mike L. Morrell (R-Rancho Cucamonga) – Occupational safety and health: reporting requirements.
- AB 577 by Assemblymember Adrin Nazarian (D-Sherman Oaks) – Rail Construction: County of Los Angeles.
- AB 1659 by Assemblymember Ed Chau (D-Arcadia) – Civil actions: post-verdict motions.
- AB 1811 by Assemblymember Joan Buchanan (D-Alamo) – High-occupancy vehicle lanes.
- AB 2154 by Assemblymember Brian W. Jones (R-Santee) – Appeals in civil actions: stay of enforcement.
- AB 2288 by Assemblymember Roger Hernández (D-West Covina) – Child Labor Protection Act of 2014.
- AB 2438 by Assemblymember Bonnie Lowenthal (D-Long Beach) – Vehicles: firefighter endorsements.
- AB 2488 by Assemblymember Marc B. Levine (D-San Rafael) – Alcoholic beverages: certified farmers' market sales permit.
- AB 2683 by Assemblymember Ken Cooley (D-Rancho Cordova) – Contempt: jurors.
- SB 1134 by Senator Stephen T. Knight (R-Palmdale) – Vehicles: public transit buses: illuminated signs.

Governor Edmund G. Brown Jr. announced on Wednesday, July 9, 2014 that he has signed the following bills.

- AB 674 by Assemblymember Sharon Quirk-Silva (D-Fullerton) – Microenterprise.
- AB 1625 by Assemblymember Adrin Nazarian (D-Sherman Oaks) – California Arts Council Contribution and Donations Fund.
- AB 1798 by the Committee on Public Safety – Deadly weapons.
- AB 1851 by Assemblymember Steven Bradford (D-Gardena) – School attendance: interdistrict attendance.
- AB 2009 by Assemblymember Shirley N. Weber (D-San Diego) – State Board of Equalization: administration: managed audit program.
- AB 2093 by Assemblymember Shannon L. Grove (R-Bakersfield) – Petitions: filings.

- AB 2136 by Assemblymember Tom F. Daly (D-Anaheim) – Contracts: statute of frauds.
- AB 2279 by Assemblymember Curt C. Hagman (R-Chino Hills) – Insurance: life agents.
- AB 2424 by Assemblymember Nora Campos (D-San Jose) – Prostitution.
- AB 2560 by Assemblymember Susan Bonilla (D-Concord) – Teacher credentialing: applications: child abuse reporting.
- AB 2645 by Assemblymember Matt Dababneh (D-Encino) – Probation: mandatory supervision: transfer of case.
- AB 2762 by the Committee on Local Government – Local government.
- SB 803 by Senator Mark DeSaulnier (D-Concord) – Local government: counties: consolidation of offices.

Where to Go – What to Do

Open Editorial (Op Ed)

An op-ed, abbreviated from opposite the editorial page, is a newspaper article that expresses the opinions of a named writer who is usually unaffiliated with the newspaper's editorial board. These are different from editorials (which are usually unsigned and written by editorial board members) and letters to the editor (which are submitted by readers of the newspaper).

Health & Fitness

Family Dentistry for the Mountain Communities

Peter Porazik, D.D.S. & Mimi Porazik, D.D.S.

We serve seniors, adults, and children in the Mountain Communities since 1997

We do: Crowns and bridges, esthetic filling and veneers, gum treatments, minor oral surgery and implants, orthodontics and invisiline, endodontics, full and partial removable dentures, full mouth reconstructions, bleaching, temporomandibular joint treatments ... and more.

We are: Peter Porazik has 38 years of experience in dentistry, is licensed in California since 1996. Our daughter Dr. "Mimi" Maria Porazik added orthodontics to our treatment offer and she is very good with children. All our younger patients love "Doctor Mimi". Our dental assistant Alicia speaks Spanish fluently and can overcome any language hurdles.

Tel 661-245-1434 or 661-644-5456

We are located in Lebec at 2045 Lebec Road,
near the Lebec Post Office and just north of the I-5 Lebec exit.

We are here for you Monday, Tuesday, Wednesday & Friday from 8 a.m. – 6 p.m. And we are available for appointments on Saturdays.

We use modern technologies which allow for drill-less and painless care with no needles needed.

We accept most insurances – City Healthcard - Care Credit

Ebola Outbreak in West Africa out of Control?? – What does that mean and what is Ebola?

Ebola virus disease (EVD), formerly known as Ebola haemorrhagic fever, is a severe, often fatal illness in humans. About 90% of the people infected with the Ebola Virus will die.

Ebola first appeared in 1976 in two simultaneous outbreaks, one in Nzara, Sudan, and the other one in Yambuku, Democratic Republic of Congo. Yambuku is a village situated near the Ebola River, from which the disease takes its name.

The 2014 epidemic seems to have originated in a village near Guéckédou in Guinea, and then spread out. The present situation of the 2014 Outbreak is as follows:

As of July 6, 2014, the World Health Organization (WHO) announced a cumulative total of 844 suspect and confirmed cases of Ebola and 518 deaths being reported

from the countries Guinea, Sierra Leone, and Liberia. 626 of those 884 cases have been laboratory confirmed.

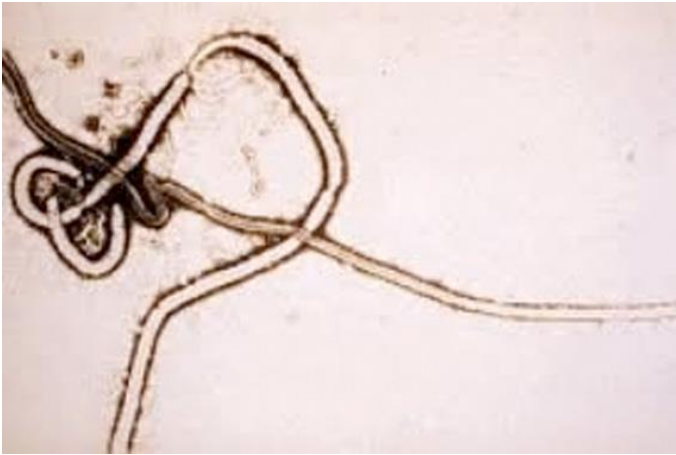

In Guinea, 408 cases, with 307 fatal cases and 294 laboratory confirmations, were reported by the Ministry of Health (MoH) of Guinea and WHO.

In Sierra Leone, WHO and the Ministry of Health and Sanitation of Sierra Leone reported a cumulative total of 305 suspect and confirmed cases of Ebola. Of those, 269 cases have been laboratory confirmed and 127 were fatal. The Ministry of Health and Social Welfare of Liberia and WHO have reported 131 clinical cases of Ebola including 63 laboratory confirmations, and 84 fatal cases.

It is the first time that Guinea, Sierra Leone, and Liberia have had to deal with the Ebola virus. People are afraid and find it difficult to believe that the disease even exists. "Our ancestors never spoke about this disease, so why would this have changed today?"

The virus is transmitted to people from wild animals and spreads in the human population through human-to-human transmission.

On Monday, July 7, a U.S. citizen initially suspected of being infected with Ebola in the Country of Ghana tested negative.

Ebola is introduced into the human population through close contact with the blood, secretions, organs or other bodily fluids of infected animals. In Africa, infection has been documented through the handling of infected chimpanzees, gorillas, fruit bats, monkeys, forest antelope and porcupines found ill or dead or in the rainforest.

Ebola then extends through human-to-human transmission resulting from direct contact with the blood, secretions, organs or other bodily fluids of infected people. After death, the Ebola virus remains present in the body of the deceased and any contact with that body can result in an infection. Burial ceremonies in which mourners have direct contact with the body of the deceased person can also play a role in the transmission of Ebola. Men who have recovered from the disease can still transmit the virus through their semen for up to 7 weeks after recovery from illness. Ebola also spreads indirectly through contact with environments contaminated with such fluids.

The highly contagious Ebola virus causes fever, vomiting, bleeding and diarrhea. Severely ill patients require intensive supportive care. No specific treatment or vaccine is available for people or animals.

Lack of knowledge amongst the population about Ebola, the high mobility of people in this area of the world, and

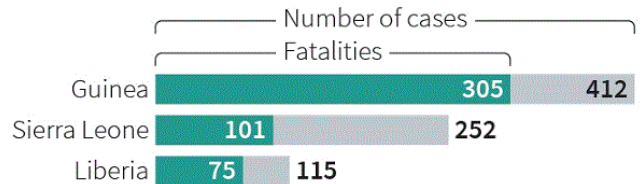

the wide geographic spread of cases all combine together to make it difficult to control this epidemic.

According to a physician with Doctors without Borders: "This has now become the largest epidemic we have ever faced, in terms of its duration and the numbers of cases."

Ebola outbreak

Reported cases and deaths since February.

CUMULATIVE CASES AND DEATHS*

* As of July 2. Includes confirmed, probable and suspected cases.

Source: World Health Organization

Ebolavirus Ecology

Enzootic Cycle

New evidence strongly implicates bats as the reservoir hosts for ebolaviruses, though the means of local enzootic maintenance and transmission of the virus within bat populations remain unknown.

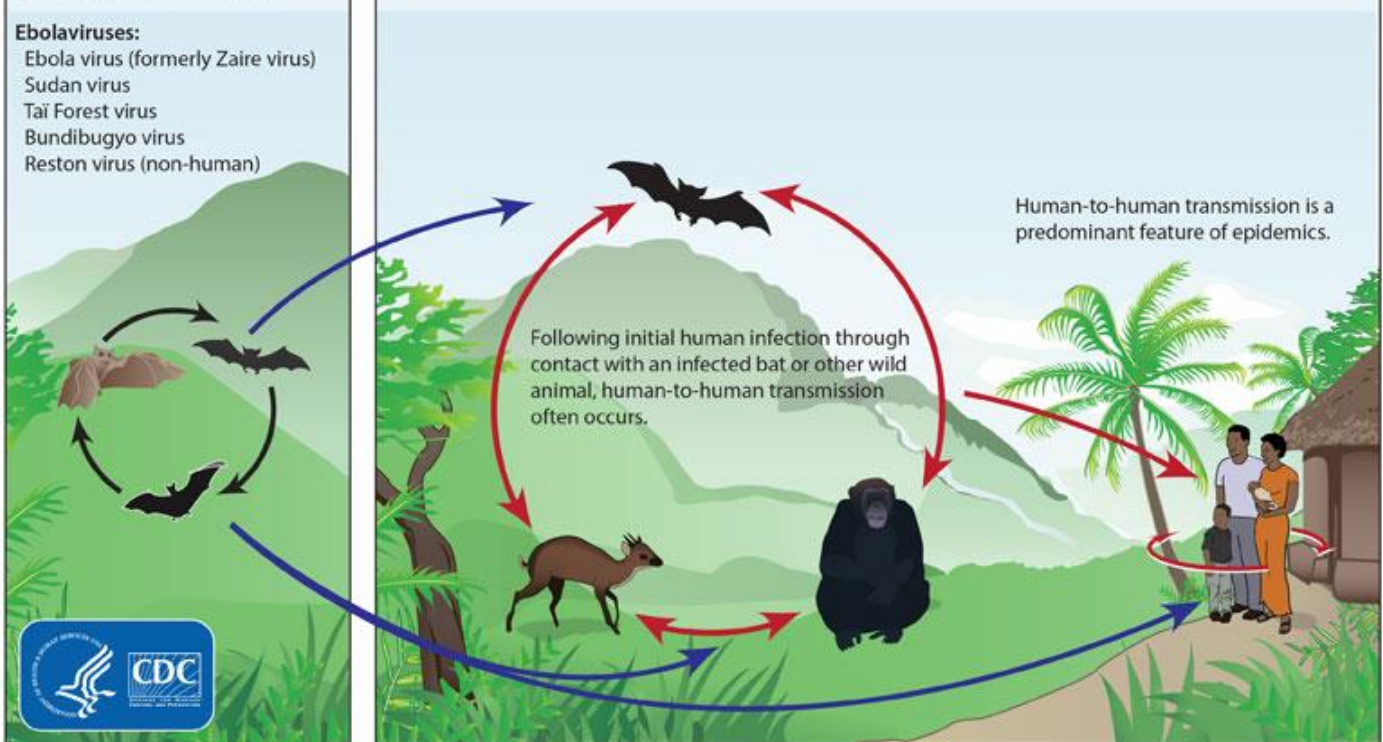

Ebolaviruses:

Ebola virus (formerly Zaire virus)
Sudan virus
Taï Forest virus
Bundibugyo virus
Reston virus (non-human)

Epizootic Cycle

Epizootics caused by ebolaviruses appear sporadically, producing high mortality among non-human primates and duikers and may precede human outbreaks. Epidemics caused by ebolaviruses produce acute disease among

humans, with the exception of Reston virus which does not produce detectable disease in humans. Little is known about how the virus first passes to humans, triggering waves of human-to-human transmission, and an epidemic.

2014 Water Works

Water Aerobics

*** June 10th thru September 11th**

Camp St. Nicolas Pool

(by the "Y" between Pinon Pines and PMC)

Classes are Tuesday and Thursday 9 – 10 AM

Prices 4 weeks

- **\$35 Regular**
- **\$25 Miss Fit or Health and Fitness
at PMC Members**
- **\$7 per class for walk ups**

***There will be no Water Aerobic classes on July 29th, 31st, and August 5th**

The AJCC & WIA are an equal opportunity employer/program. Auxiliary aids and services are available upon request to individuals with disabilities.

Located 5 miles off of Hwy 138 in Lebec, National Cement's mission is to be the leader in the cement industry; operating in a safe, environmentally sound and profitable manner while being a good corporate citizen.

The Plant operates 24 hours a day, 7 days per weeks and has a workforce of approximately 120 employees who work in a variety of departments in support of operations.

The heart of the organization revolves around a people-centric philosophy where employees are our greatest asset. This being the case, the health, well-being and safety of our dedicated workforce is always our number one priority.

If you are a hard working, conscientious individual with a proven track record as a valued employee with prior cement or heavy industry experience, you are invited to email your resume to talexis@natcem.com for consideration.

*National Cement is an
Equal Opportunity Employer*
