

# Being A Leader Means Not Quitting

By Nadine Sameon

Mr. Godofredo "Bernie" Bernasol, CEO of Bernasol Enterprises Inc. and founder of Bernasol Educational Foundation, inspired the resident members of the Order in the Leadership Training held at Roxas Hall last July 4, 2014.

The members reaped golden nuggets from the seminar, which will surely go a long way in their journey to become great physicians and leaders in the future.

Having come from humble roots, Bernie relayed his life and experience in working hard to achieve his goals and dreams. He encouraged the members to persevere and be an example to others, stressing on the importance of not quitting. Together with his message, he presented a video about his foundation's efforts in Iloilo. The video, which was shown on ABC7News, included a segment about his partnership with the Order of Asclepius in his charity works.

The seminar was attended by Batch 36, Batch 37, Batch 38, and Dr. John Philip Dolorfino of Batch 30.

Afterwards, the group held the second part of the Leadership Training at the home of Bro. Kevin de la Llana (B36) at Rojasville, Tabuk Suba. After dinner, various activities were held which strengthened Batch 38's resolve and trust in each other. Indeed, the bond of the Order of Asclepius grows deeper with each additional batch of members. #
