CGI, Lyon, France

2011 to Present

Data Process Engineer/Project Manager

Clients : **Arkema, Sanofi Pasteur**

Project Manager, Analyst regarding Vendors'/Customers' banking and legal data.

- Collection, analysis and correction of the Vendors/Customers critical banking and legal data of the Altuglas and Sartomer subsidiaries, in order to integrate them to the Arkema SAP system
- Design and development of a specific analysis and follow-up tool (MS Excel, VBA), that saved Arkema 2 weeks' worth of manual work and enabled us to deliver on time.

Level 3 Support and access rights management for the global IS.

- Updating, applying and enforcing access related processes
- Accountable for audit compliance. Assist the IS director during audits and print required proofs in due time
- Multiplatform : SAP (Authorizations, SAPCC), SAP-IdM, Windows, Oracle

Part of 2 highly strategic projects related to Sanofi Pasteur's MES software (Manufacturing Execution System, interfaced with SAP)

CGI, Lyon, France
End of Studies Internship
Client : **SP-MSD**

April 2011 – September 2011

Deployment of a “Purchase to Pay” process from the Spanish Business Unit to the French and Corporate ones (Purchases/Sales scope)

- Workshops with the end-users (presentation of the Spanish process, needs collection and functional analysis)
- Gaps and risk analysis
- Presentation in steering committee and Decision support
- Designing and realization of the new billing form (Adobe Livecycle) and Training of the key users
- Post-GoLive Support & Maintenance, SAP Technology (Authorizations, ABAP)

Tefal (SEB Group), Lyon, France
Final year of studies Internship

October 2010 – March 2010

Maintenance Teams in all the French production sites enquiring about the processes and software used by the different French Maintenance Teams, in order to harmonize and centralize them.

- Give the SEB Group an up-to-date overview of the maintenance practices in the French production sites
- Rating and comparison of the existing software throughout the French sites, and of some other candidates
- Supporting the SEB Group in their final decision
- Technology watch

Referees available on request
