

The Witness of a Correspondent from the Website of the "Gregorians" (Letter to Nicholas)

The following letter was sent on March 22, 2009 from a correspondent from the Website of the Gregorians to one layman from Australia whose name is Nicholas. Pay attention to the text that writes the following about Kirykos: «... *Because we have many things to give as evidence against the man's MORALITY, but these don't concern us, only the issues about the Faith...*»!!! The following is a translation from the original Greek:

Dear brother in Christ Nicholas!

First of all, I am neither His All-Sacredness, Metropolitan Chrysostomos of Thebes, nor any clergyman. The website is private.

Regarding the former archimandrite and now defrocked Fr. Kirykos monk we have written in a respective article, but also some things in our article "That They May Be One" of October, 2008.

Because we have many things to give as evidence against the man's MORALITY, but these don't concern us, only the issues about the Faith.

Fr. Kirykos has separated from the Genuine Orthodox Church of Christ since 1995 on the grounds of his iconographic cacodoxies that the symbolic holy icons of the Holy Trinity and the holy icon of the Resurrection of our Christ from the tomb but also generally all icons of classical (Renaissance) Russian techniques apparently are heretic according to the Sacred Tradition of the Our Holy Church but also the teaching of our Holy Fathers.

More especially he was "consecrated" uncanonically as a pseudo-bishop without the knowledge of the majority of the hierarchs of the Holy Synod and for this he was demoted to the rank of monk.

In 2005 he separated from the schismatic Andrewite faction without reasons of Faith, but pretending several general themes of [canonical] order, but also old events which he knew about but he didn't occupy himself with them until he had worn a mitre [trans. note: he remained silent until he managed to get consecrated as a bishop and only then did he pretend to care].

Unfortunately they have presented in one sterile comparison against the Church of the G.O.C. of Greece and our holy hierarchs and don't mean to repent for the cacodoxies (which they increased with ecclesiological

cacodoxies about “the Eternal Church” for which he was also defrocked from his “Synod.”

Lately he also created, according the Florinite pattern, a new pseudo Synod parasynagogue with the participation of Romanian Old Calendarist “Bishops” of unknown origin and “Apostolic Succession” (which) from what we have been informed, is affected (προσβεβλημένη) for many reasons and also with the participation of Cypriots who abandoned the Schismatic Andrewite faction in Cyprus for moral reasons, due to the new pseudo-bishops whom the former Metropolitan Nicholas of Piraeus consecrated, and again not for reasons of faith.

And he continues approaching unrepentant schismatics (similarly like these) like the unrepentant schismatic Russian Old Believers for four centuries. From what you understand much rhetoric “About the Faith and the Apostolic Succession” but in the action the unfortunate doesn’t hesitate to examine unexamined things with every schismatic in order to obtain followers and to come out from the obscurity.

The Church prays with love for Fr. Kirykos but also for each schismatic-heretic to return to the body of the Holy Church of Christ and suffers the slanders with patience.

If you are a G.O.C. pay good attention not to fall in Satan’s trap that is in their schism – heresy and remain in the Genuine Orthodox Church of Christ, of the holy martyrs, holy fathers, of holy father Matthew and of all our saints.

Your adherence to Orthodoxy and to the Church of Christ against the multitude of heresies and the schisms of the New Calendarist and Old Calendarist Ecumenism, and especially far from the fatherland, it will be considered from Our Lord as martyrdom.

These few words. We don’t want to say much because we also have the shepherds of Our Holy Church and we are useless.

For anything you want, whether you are a Genuine Orthodox Christian or not, address to His Excellence Metropolitan Ignatios of Fthiotis and Locum Tenens bishop of Australia. There are telephones and addresses in our websites.

We thank you for your time. We wish you good continuation with the Holy Lent!

With love of Christ, G.O.C.

P.S.: We thank you for your condolences! [*trans. note*: for the repose of Bishop Gregory of Messenia]. May you have his blessing! He was a holy man, indeed...
