**indbuild**  
The Specialist Building Envelope

INDBUILD Limited is a nationwide specialist building envelope contractor carrying out steel erection, roofing, wall cladding and rainscreens throughout the UK, across a broad range of projects valued up to £2M.

INDBUILD works extensively with clients to value engineer projects at concept and tender stage to maximise the design, specifying all installation benefits offering a competitive solution, ensuring all our works integrate seamlessly into the complete building solution.

INDBUILD's team of designers work with architects and main contractors to design and install the most appropriate mix of specifications and systems for your building needs.

- Steel Framed Buildings
- Wall Cladding
- Brick Soffit/Clause & Mesh Cladding
- Architectural Aluminium Doors
- Roofing
- Stone & Metal Rainscreens
- Timber Cladding & Rainscreens
- Industrial Doors/Windows

**Greater London Authority Building**

- One of the most prestigious, landmark structures in the centre of London.
- Perimeter channel runs exactly parallel to the external walls of the building.

**The Challenge:**  
To develop a replacement drainage system with the capability to remove all standing water from the perimeter of one of London's busiest and iconic public buildings.

**ACO Design Services**

Whatever you want, we can help

Drainage is a critical part of every construction project, both large and small, with this infrastructure providing the vital arteries through which waste water can drain away from a building quickly and safely without any risks to people and properties.

**The Product:**  
A modular-based, full stainless steel system manufactured in unique wide 'Y' sections and fitted with lockable Heelbafe perforated gratings.

**ACO Building Drainage**

To see our most prestigious projects visit [www.acobuildingdrainage.co.uk](http://www.acobuildingdrainage.co.uk)  
Or call our Design team on 01462 816666 and we will help with your project.
