

Amity Paddle Boards Accessories

We hope you will take a moment to learn more about our amazing products. Amity was born when a paddleboard racer from Destin, Florida, an e-commerce enthusiast, and a PhD in fluid dynamics teamed up to create the highest-quality, innovate paddleboards in the industry. With a philosophy of not skimping on materials, or cutting corners in production, when you purchase an Amity Paddleboard you are purchasing art, a relationship with company that cares about what you want, and a board to be passed down to future generations.

Our product

Amity 42" Long board

Flush mount drop through trucks bring the board lower to the ground for tighter turning and better stability. Abec 9 bearings and 75mm wheels make it super fast and smooth. Bamboo construction. Great for carving or around town cruising.

Amity Comrade

The Comrade is Amity's new high performance race board. Designed with the competition in the 14'0" class in mind, with maximum flat water speed. It incorporates a low rocker displacement bow shape with soft rounded rails, for the most efficient ratio of paddle power to board glide. The slender hull shape and soft rails create an extremely efficient water line while maintaining stability for average

paddlers. The sleek design makes it a winner, hands down, and an ideal board for flat-water cruising and competitive racing.

Amity Affinity

Handmade with bamboo for ultimate durability and float, the Affinity shines as a dual-purpose board: (1) slip over glassy water, and (2) cut through the surf with ease. The Affinity is aggressive, but forgiving for all skill levels. It comes with a tri-fin set up, a designer micro-traction pad, an embedded carrying handle, a leash plug, and an air-release valve.
