The Michael Omidi Family have joined 200 families to surpass \$8.7 million for Temple Emanuel

Michael Omidi MD, Julian Omidi, and Cindy Omidi have joined the 200 families whose donations have surpassed \$8.7 million to support Temple Emanuel. The Omidi brothers felt the urgency to help such a wonderful organization and push them one step closer to reaching their goal of \$9.5 million.

Temple Emanuel of Beverly Hills was established to help those in the Jewish community truly live and practice their faith. Since they began in 1937, Temple Emanuel has sought to strengthen the Jewish community and help its congregants make sense of the world around them. The organization seeks to enlighten those of the Jewish faith to the number of paths they can follow. At the same time Temple Emanuel encourages Jewish learning, Jewish culture, compelling worship, social justice, community, and spirituality.

Through the avenues Temple Emanuel offers there are many ways to give back to the community. You can provide a charitable donation through the General Fund, which will help in all of Temple Emanuel's efforts, or you can request the donation goes to a specific project. Some of the programs currently accepting donations include the Shabbat Unplugged and Shabbat B'Yachad program which helps provide a musical method for worship. Should you choose to donate such as the Omid Brothers have you can become a full member of the synagogue through the Pillar Program method of donation. This program enables Temple Emanuel to fund many of its important services and programs.

Both Dr. Michael Omid and Julian Omid felt that it was time to give back to the Jewish Community and decided to donate to the genuine organization which is Temple Emanuel.

Julian Omid Discusses Michael Omid Surgical Mission to Philippines

Julian Omid shares a letter from his brother Michael Omid regarding his recent Surgical Mission to the Philippines. Julian Omid co-sponsored the mission through No More Poverty.

My brother Michael Omid recently embarked on a surgical mission to the Philippines co-sponsored by our non-profit organization No More Poverty, Charitable Enowment Support, and the local government of the Bulacan province. This trip not only helped to improve the quality of life for those residing in the area, but also provided much needed medical care for citizens who would have otherwise never received proper care.
