Pigeon Forge Vacation Rentals

You know what you want when you're on vacation. You want clean, functioning, and efficient lodging. It seems so easy, but delivering just that is the hardest thing we've ever done.

Our background is in software. Since 2000, we've written and deployed software for the vacation rental industry. We're just two married nerds. But you'll understand that we could not turn down the opportunity to use our own software to manage our own rental company down the road from our house in Pigeon Forge. Being from Gatlinburg, Tennessee, and Gulf Shores, Alabama, we both grew up in the hospitality industry.

We were unafraid of the challenge. We had met several fine folks who were experts in their respective fields and we knew we could get them to work with us. Wasn't that the secret to Henry Ford's success: Surrounding yourself with geniuses?

A corporation was soon formed and plans laid. That was the birth of Pelican Bay Properties, Inc., doing business as Golfview Vacation Rentals at Golfview Resort in Pigeon Forge, Tennessee. Now, our journey began renting Pigeon Forge condos and Pigeon Forge cabins. We call them 'cabinettes' because they are definitely cabins-not-in-the-woods.

Pelican Bay is a scenic inlet near Dauphin Island in Lower Alabama. Dauphin Island is just West of the Fort Morgan peninsula which creates the South shore of the Mobile Bay. Before taking on an overnight rental company in Pigeon Forge, we USED to spend a lot of time gazing out over the Mobile Bay. The name of our corporation is a bit of nostalgia relating back to those times when all we did was software support ~ no matter where we were in the world.
