Background & Personal Details

Jeffrey Rollins thought he was the luckiest metahuman in the world. To be recruited by a corporation, especially one with as big a name as DocWagon? Especially as a troll?? Jeff had to have been one in a million.

He outshined his peers throughout training, maybe not so much at the booklearning, but through straight up tenacity. He was assigned to a training team sent out on real calls (with a fully-trained team on standby just in case), and he proved his worth through and through.

Once he was assigned to an active team, though, things became different. Some of the vets didn't take too well to some upstart troll punk getting to the Big Leagues.

It was pretty easy for them to pin a high-profile client's death on Jeff. He nearly immediately lost his job, and his SIN as well. Desperate for work, he eventually found a fixer who would take a chance on him, even though from the stories he heard it sounded more like he was taking a chance on the fixer.

But work is work, and nuyen makes the world go 'round, so "Sawbones" is ready to do what it takes.
