VISIO NEWS

Standard Gage Visual 250

Dear Partner,

TESA is officially announcing the End-of-Sales for all models of its **Standard Gage Visual 250** product range. This optical machine line will be completely removed from the TESA global products portfolio, effective immediately.

Product part numbers covered by this announcement are listed below.

Visual 250

06834700	Visual 250
06894700	Visual 250 USA

The above references will no longer be available either new or second-hand. However, this announcement does not imply any change of technical support provided by TESA. Our specialists remain available to TESA partners for any requests concerning such machine types.

Should you have any questions or concerns regarding this announcement, please do not hesitate to contact your usual TESA representative.

Best regards,

TESA Marketing
