A hard working, success driven person with desirable skills looking to find employment opportunities in the related area. Always strives for success and hates not doing his best work. Natural at picking up new skills and learning from experience.

Key Skills:

- **Creative:** Extensive experience in design and creative thinking through college/client work and hobbies; Currently working with clients to design and develop websites through college.
- **Communication:** Experience in professionally meeting clients and working in a team to achieve certain goals; programmed a game as part of a team and took first prize in the competition. Also worked with disabled persons, communicating with them through physiotherapy.
- **Technical:** Naturally a technical minded person and can pick up new skills very easily. Lots of experience in fixing and maintaining computer systems through personal experience.
